From: Asbestos Control Program
To: DEQ Asbestos Online Submission Notice;
Subject: Link Correction to New Forms and Noticed Rule Changes
Date: Tuesday, November 01, 2011 4:01:22 PM

The previous notice regarding "UPDATE! New Asbestos Program Rule Changes" contained the incorrect hyperlinks to the Noticed Rule Changes and forms; and this notice corrects those hyperlinks. We apologize for the confusion.

- Noticed Rule Changes

- Montana Asbestos Project Permit Application and Demolition/Renovation Notification, MTACP01. This is the long form for applications and notifications. (PDF) (Word)
- Montana Asbestos Project Permit Application and Demolition/Renovation Notification, MTACP02. This form is to notify of demolition activities in which the facility is being demolished and NO ACM has been identified in the facility nor is there any ACM being left in the building. If ACM is being left in the building, you must use Form MTACP01. (PDF) (Word)
- Montana Asbestos Project Permit Application and Demolition/Renovation Notification, MTACP03. This form is used for asbestos-related activities for ACM that is regulated. Activities covered by this form are listed under the "Type of Activity" section at the top of the form. This is the short form of Form MTACP01. Please note that the section for a demolition/renovation contractor has been removed. (PDF) (Word)
