As many of you know, the amended and proposed rules became effective October 27, 2011. Because it may take some time for the Secretary of State to publish the rules, the program has generated a courtesy copy of the rules for your immediate use. The program has taken great effort to assure that the courtesy copy accurately reflects the changes made by the MAR Notice, but should a difference between the courtesy copy and MAR Notice exist, the MAR Notice and the subsequent publication of the rules by the Secretary of State are the official and enforceable version of the rules.
