Re: Prime farmland occurrence in Yellowstone County, Montana (your letter dtd January 6, 2006)

Dear Ms. Koler,

Attached is a Soil Survey Map of Sections you requested in Yellowstone County, MT for prime farmland determinations. Also attached is a soil survey legend and legend for Prime and Statewide Important Farmland for Yellowstone County.

There are no Prime Farmland soil map units within Sections 25-28, 31-35 of T 6 N, R 27 E and Sections 2-5 of T 5 N, R 27 E. However, soil map unit Bb-Bainville loam, 2 to 7 percent slopes is Farmland of Statewide Importance.

If I can be of further assistance, please call.
