WHEREUPON, the following proceedings were had:

* * * * *

CHAIRMAN MILES: We're going to turn now to the Payne Logging discussion. And Ben, since you are not going to be here after this, I'm going to rely on you as much as possible today to tell us what's going to happen here, the process.

MR. REED: Thank you, Madam Chair. From a procedural standpoint, this matter was referred to me as Hearings Officer. I'll give an abbreviated version. The procedural history is largely set out in my proposal for decision. The parties have additionally set out the other procedural and factual background that they believe to be relevant.

But essentially, Payne filed its appeal. The parties filed some motions among which were the Department of Environmental Quality's motion to dismiss, which I then reviewed and granted on July 14th.

So subsequent to that, and as I referred to, as I said before, under MAPA 2-4-621, when a decision that's been made adverse to a party has not been heard by the entire Board, then the

matter needs to be memorialized in a proposal for decision as opposed to an actual decision, so that the full Board can hear the matter.

A proposal for decision was duly sent to the parties on the 14th of July, and the parties filed their exceptions with the Board subsequently. These were all posted by Ms. Houle on the Department's website.

The matter is obviously on the agenda now. I've advised the parties that they do have a finite amount of time to set out their arguments. I've asked Mr. Brown, who represents Payne Logging, to go first. He'll make his presentation first, followed by Mr. Jones from the Department of Environmental Quality, after which the parties will have a relatively brief period of time to rebut any of the arguments with which they take issue that the opposing Counsel has offered.

So with the Chair's permission, I would ask Mr. Brown to approach the podium.

CHAIRMAN MILES: I do want to thank all the parties for the very clear and concise briefs, in putting forth your arguments, and we would like to keep this to -- did you say ten minutes? Is that what you've talked about with the parties?

MR. REED: Yes, Madam Chair. I've asked the parties to limit their primary statements to ten minutes, and then their rebuttal to five minutes, but if they don't have ten minutes worth of things to say, I'm comfortable that they won't. And so yes.

MR. BROWN: Good morning, Madam Chair, members of the Board. My name is Jim Brown, I'm a private practice attorney who practices here in Helena, Montana, and I'm representing Payne Logging. Payne Logging is located in Libby, Montana. And as Mr. Reed explained, and as I'm sure you've read in the briefing, what we're adjudicating right now is a boundary relocation for a motor vehicle wrecking yard.

Before I go any further, I'd like to note that I'm very sorry to see Mr. Reed flee the country, and head to more comfortable environs.

Mr. Reed probably wouldn't claim this, but Mr.

Reed and I have been friends for many, many years.

We attended the University of Montana together, and sat on ASUM, and I am sorry to see you go. As much as I was glad to see you back, I'm sorry to see you go, and hope to visit you. Good luck, Mr. Reed.

Essentially the procedural posture -and I never know really how much to present
legally in front of boards, because I know some of
you are attorneys, some of you are not, so I don't
want to belabor this -- but essentially where we
are as a matter of posture is we are challenging
the legal conclusions essentially of Mr. Reed in
his proposed order.

Where this is at procedurally is that the Department filed a motion to dismiss which essentially admits the factual allegations that we've made about the process that was used to deny Mr. Payne's license.

And I think the two operative facts that I'd like to point out of these is that -- well, three operative facts. Mr. Payne has an existing wrecking yard. It has been in existence for many, many decades. He was asked by the Department to basically better shield his vehicles from public view. As a result of that request, Mr. Payne proposed a boundary readjustment, that I think all parties would agree at this point in time, and it is a factual statement adopted by the Hearing Examiner, that if the boundary readjustment was adopted, it would actually result in better

shielding vehicles from public view.

The Department sent that application to the County Commissioners in Lincoln County. The County Commissioners exercised what I would refer to as their discretion under the statutory scheme to review whether or not they would oppose that boundary readjustment, i.e., the boundary application.

It is undisputed at this point that Mr. Payne never received notice from the County Commissioners that they were going to hold a public hearing on his application. Therefore he did not attend the hearing. I would say that that's a due process violation, but I did not argue that in the administrative process. I'll argue that in District Court if we choose to go there.

And then it is undisputed that the County passed a resolution opposing the boundary readjustment, but they made no finding within the resolution that the boundary readjustment would impact the quality of life of the surrounding landowners. In fact, there is no evidence on the record that that's exactly the case, if the application were approved, that the boundary

readjustment would impact the quality of life of the adjoining landowners. In fact, based on the application, readjustment would benefit the public.

But based on the County's adoption of the resolution, the Department denied the boundary readjustment, and then of course under the procedural scheme, Mr. Payne filed his appeal of that decision within thirty days, and here we are.

We have asserted four legal errors committed by Mr. Reed -- sorry, Mr. Reed -- that we think requires the Board to reject the Hearing Examiner's proposed order.

One is that, as you saw from my briefing, Mr. Reed cited the wrong statute, so that does need to be corrected. The question there is whether that requires the Board to reject the proposed decision, or whether you can order the Hearing Examiner to modify the cite to the correct statute.

The second one which I do think is a reversible error on the part of Mr. Reed and the Hearing Examiner is that he did not make a finding on a legal issue that we asked him to make a legal finding on. And I have requested that Mr. Reed

determine whether or not the application should have been sent to the County in the first instance. It is my belief that under the statutory scheme, that the County only has the right to weigh in on any new wrecking facility.

The facts show Mr. Payne's facility is certainly not a new facility, it has been a long existing facility, and all he was doing is proposing to modify where the boundaries of his wrecking yard was, not to expand the boundary or to move the location, physical location of his wrecking yard. And Mr. Reed did not make a finding on that, which is a basis for this Board to reject the proposed decision.

The more esoteric argument that the lawyers I think on this Board will appreciate, is that I believe that the Department's decision -- and remember, we're challenging the Department's decision here, because the Department is the one that ultimately made the denial. It wasn't the County. The Department made the denial on the County's decision.

I believe that under the statutory scheme, the Department has to determine whether or not the County decision is lawful in order for the

Department's decision to be lawful. I realize this gets kind of confusing. But the Department's decision is based on the County's decision, and Mr. Reed determined that as soon as the County passed the resolution opposing, the Department had no discretion in reviewing the appropriateness of the County's actions, and determining whether or not to grant Mr. Payne's license.

I think that's legal error. The County necessarily has to follow the statutory process.

My argument is that once they exercised the statutory right -- which again I don't think they even had to -- then they were required to make a finding that Mr. Payne's boundary readjustment would impact the quality of life of the surrounding owners; and the second thing is that they had to provide Mr. Payne notice that there was going to be a public hearing, so that he could actually speak on his own behalf.

Again, it is not disputed that neither of those things happened, so I believe it was error for Mr. Reed to determine that we could not challenge the Department's order based on an error of law by the County, which then the Department based its decision on.

And the fourth error of law is I think

Mr. Reed's reading of the statute actually is

error because it reads out a provision of law,

namely MCA 75-10-515, which is the appeals

statute, and that statute basically gives Mr.

Payne or anybody aggrieved by a decision of the

Board the right to appeal that decision.

I believe Mr. Reed's reading of the statutory scheme basically vitiates that statute by saying that anytime the Department receives a rejection or disapproval, that essentially Mr. Reed's reading of the statute reads that out, because what Mr. Reed's conclusion is is that once the County acted on passing a resolution opposing the boundary readjustment, then basically the Department's hands are tied, and essentially that means there is no review of whether or not the County's actions were lawful.

And again, I need to make this clear.

It was the Department, not the County, who rejected the application ultimately. So therefore, it is my argument that as part of the appeal, we are allowed to challenge the County's actions and the lawfulness of the same as part of that review; and Mr. Reed's reading of the statute

is that no, the County's actions are not part of the review on appeal. The only thing on review is whether or not the County passed the resolution opposing it, and if it did, then basically the case is over.

I don't agree with that statutory reading. I think it reads the appeals process out because effectively you have no appeal of the County's decision.

So I would ask the Board to reject Mr.

Reed's proposed order, to send the order back to

Mr. Reed for clarification, "A," of the statute,

but "B," I believe the order should be rejected

because he failed to make a finding; and third, I

disagree with the legal conclusions of Mr. Reed,

and I believe that Mr. Reed's order can be

overturned on that basis, and once done so, I

would ask the Board to grant the relief set forth

in Mr. Payne's petition, which is basically to

grant the boundary readjustment.

So thank you. I'm happy to take any questions when I come back up.

CHAIRMAN MILES: Mr. Brown, I would just note that the proposed order that we received does have the correct statutory citations in it, Title

75.

MR. BROWN: I wasn't aware of that.

CHAIRMAN MILES: I'm sure you raised that issue --

MR. BROWN: I did, yes.

CHAIRMAN MILES: -- but by the time we have received the proposed order, it is the correct citation. Is there any questions of Mr. Brown right now?

(No response)

CHAIRMAN MILES: I might have some afterwards.

MR. BROWN: Sure. Happy to answer them.

MR. JONES: Madam Chair, members of the Board, my name is Bradley Jones. I'm here on behalf of the Montana Department of Environmental Quality.

I guess as an initial matter, I'm reluctant to attempt to explain areas of legal procedure, but since Mr. Brown brought it up, I feel like I need to correct just a couple of things that I disagree with initially.

So in terms of undisputed facts, there are a few facts that I will throw in here after I've gone through sort of the statutory scheme,

but the idea that certain things in this case are undisputed is simply not the case, in the Department's opinion.

For legal purposes, in a motion to dismiss, all well pleaded allegations are admitted for the purposes of consideration for legal issues, and that doesn't mean that the Department of Environmental Quality agrees that the County did or did not do certain things. Quite frankly, the Department has not investigated this issue of the County giving notice to certain people or anything of the like. We have no opinion about what the County did or did not do, for reasons that will become clear as I move forward here.

And also -- and this is perhaps even a more minor point -- the issue of using a term of art of the record. There are things, there are documents, of course, in the record, letters sent by DEQ, that sort of thing, but there is no sort of record in any official sense right now, so I think that's a little bit of a misconstruction of what's at issue.

But let's start with the basics of this case, and with all respect to Mr. Brown's argument, this case could not be simpler. I would

turn the Board's attention to -- and this was in the pleadings, but I will go through it sort of piece by piece.

The operative statute here is really not at issue. It's 75-10-516. So if the Board will indulge me, I will go through pretty quickly what the elements of that statute are, since it is the operative one.

So under Sub (1), if you're looking at the statute, it says, "When an application for a motor vehicle wrecking facility or motor vehicle graveyard is filed with the Department, the Department shall notify by mail." So initially I'm going to say as a response to one thing Mr. Brown said just on that element, it says, "When an application for a motor vehicle wrecking facility." It does not say anything about an expansion or a moving of boundaries. This is the operative statute regarding motor vehicle wrecking facilities of any sort, and the way that the Department must process them.

So moving on down, so we have Sub (1) here. Now, within that category, we have A, B, and C. These are the things that the Department must do when that application comes in. So it is

under Sub (a). We have to notify each owner, the adjoining property owners, of the proposed facility giving notice. "B," we have to notify the governing body of the County in which the proposed facility is located. We give our notice to the County, in this case Lincoln County. "C," we have to notify a newspaper of general circulation in the area, and say, "Here is the application we got. It's going to be within your readership."

So now moving on to Sub (2) within the statute, "Within thirty days of receipt of the notification in Subsection (1)(b), the governing body of the county may." So I'll come back to that word "may" here shortly, but let's read on.

So under Sub (a) within two, "The county may conduct a public hearing to determine whether the proposed facility will significantly affect the quality of life of adjoining landowners and surrounding community," and "B," "Adopt a resolution in support of or in opposition to the location of the proposed facility, and transmit a copy of the resolution to the Department."

So now moving on to Sub (3). "The Department may not grant a license to a facility

that the governing body has opposed under Subsection 2(b)." Now, this is the single critical part of the statute. This is the one thing that cannot be ignored, but we'll keep moving.

Finally under Sub (4), again, this is the Department's action, "In making the decision to grant or deny a license application, the Department shall consider the effect of the proposed facility on adjoining landowners and land uses."

Okay. So looking at the statute as a whole, again, the primary thing here is what the Department is required to do relative to what the county does. Now under Sub (2), it says, "The governing body of the county may." As I cited in my brief, in the Department's brief, generally speaking, you construe things according to their common sense meaning. So "may" is permissive. It's not "shall," it is "may." It is a different deal.

But more importantly, we look to Sub (3) within the statute, and it says as clearly as could be possible, "The Department may not grant a license to a facility that a governing body has

opposed under Sub (2)(b)."

So you go back Sub (2)(b) and say, "What does that say?" Well, if the county adopts a resolution, so break it down into its constituent parts, if the county adopts a resolution either in support or in opposition to the facility, and -- the second part of this -- transmits a copy of that resolution to the Department, the Department may not grant a license to that facility, end of story.

The Department is not required to do any analysis to -- we neither have the authority, nor the obligation to do any analysis as to whether the County conducted a quality of life hearing, whether they provided notice to landowners, anything else.

Applicants dispute, if you will, any potential remedy they have is not against the Department of Environmental Quality. Of course I'm not going to attempt to go into the different remedies that they have, but it is certainly not against DEQ.

And I would say by extension of that, this Board's authority, much like this Board, is in a sense administratively attached to the

these statutes that govern that type of

5 environmental law.

Here we have junk vehicles, motor

vehicle wrecking facilities, so if DEQ has no

discretionary authority to adopt a resolution -
or excuse me -- to issue a permit, once we've

actually gotten that resolution from the county,

by extension this Board cannot do so either,

because this Board is equally limited by that

statute, just as DEQ is.

And so finally -- and I'm going to wrap this up here -- I would note that since Mr. Brown did bring up this issue of 75-10-515, the issue of appeals, it is a core part of Montana statutory law -- and this is cited in our brief -- that the specific controls over the general. So simply because there is a generalized appeal statute that says you have to the right to appeal a denial, or a revocation, or what have you, of a motor vehicle facility, does not in any way change the more specific statute that says the Department may not grant a license when the County says no.

So that's the simple issue. I'm happy to take any questions from the Board.

CHAIRMAN MILES: I do have one question, Mr. Jones, and it's kind of going to that issue of the contention that this only applies to new facilities.

What happens on an annual basis with wrecking facilities? Do they apply annually, or is it renewed automatically provided they're in compliance with the law? What happens on an annual basis?

MR. JONES: Madam Chair, frankly I do not have a full explanation of that. I do not know the technical aspects of it, all of the technical aspects.

My understanding is that one has to renew their permit on a daily year, pay the fees, etc. In this case, again I think the facts are a little beside the point because this is a legal issue, but this was about moving a boundary from one place to another. And so once again, going back to the statute, if there was --

Perhaps that would be a little bit more of an issue if there were some specific element of the statute about moving boundaries, etc., but the

statute simply says, "When an application for a motor vehicle wrecking facility is filed with the Department." Madam Chair --

at whether the county at any given time could pass a resolution. So you've got a wrecking facility that is in operation, applies every year. At any one of those times could the county pass a resolution to not grant that license to an existing facility?

MR. JONES: If as I'm saying, as I'm sort of positing that it does, a moving of the facility boundary is an application, which I think it pretty clearly is from the statute, then that changes what's going to trigger the county's resolution. And again, I would hate to get into the facts of this, but my understanding is that this was quite a long saga in which the County was involved before the County passed that resolution.

BOARD MEMBER REINHART-LEVINE: I've got a question. Madam Chair, Mr. Jones, in the Section 516 subpart (4), it says that, "In making its decision to grant or deny a license application, the Department shall consider the effect of the proposed facility on adjoining

landowners and land uses," and I'm not quite seeing that language in the Department's brief or in the letter from Mr. Christensen with the Motor Vehicle Recycling and Disposal Program to Mr. Payne at Payne Logging.

Can you address Subpart (4), and whether the Department has addressed the effect of the proposed facility on adjoining landowners and land uses.

MR. JONES: Certainly. Madam Chair, Ms. Levine. The Department has not made any sort of finding about the effect of the proposed facility on adjoining landowners and land uses. Once again, looking at the way the statute is written -- and let's be honest. Sometimes statutes could be perhaps written a little bit clearer, but that's not what the legislature has given us to work with.

And it is a core principle of Montana law that administrative agencies -- this was in my brief, the Core-Mark International case. I'm quoting here -- "Administrative agencies may only exercise the powers conferred upon them by the Legislature."

So to answer Ms. Levine's questions, the

Department has not considered Sub (4) simply because Sub (3) of 516 overrides everything. Once again, looking at the way this is specifically written, so under Sub (b), "The Department may not grant a license to a facility that the governing

body has opposed under Subsection 2(b)."

So looking at 2(b), any issue of the quality of life determination from the County aspect, any issue of the Department considering effects on adjoining landowners and land uses, none of those things are in Sub (2)(b) It simply has two parts.

The County has to adopt a resolution -it doesn't say what that resolution must look
like, how it must go about being resolved, if you
will -- but simply says that the county, the
relevant county must adopt a resolution in support
of composition -- again, it doesn't say how that
must be supported or however -- to the location of
the proposed facility. In this case, obviously
this is the proposed -- this was a change of
location, a change in the facility because it was
a change of location -- and then transmit that
copy to the Department.

So the Department's inquiry is actually

extremely simple. As soon as we get that resolution from the County, we do exactly what we did here, which is we have to say -- as Mr. Christensen did in his letter -- "Look. We have no opinion what the County did or did not do. have no opinion about quality of life or adjoining landowners. We got the resolution from the County. We are constrained by the Legislature of Montana to deny this," and that's exactly what we did.

CHAIRMAN MILES: Chris, did you have a question? I should have asked Michele if that answered your question.

BOARD MEMBER REINHART-LEVINE: I'll defer for now, Madam Chair. Thank you.

CHAIRMAN MILES: Chris, do you have a question or a comment?

BOARD MEMBER TWEETEN: What effect,

Counsel, does Section 75-10-504 have on this case?

I haven't heard anybody discuss it in the oral arguments.

MR. JONES: Madam Chair, Mr. Tweeten.

If you would give me a just a second to go find that statute, I would appreciate it.

BOARD MEMBER TWEETEN: (Inaudible)

1	CHAIRMAN MILES: You're blinking out.
2	BOARD MEMBER TWEETEN: I can call back
3	(inaudible)
4	CHAIRMAN MILES: I wonder if you should
5	try. We can't understand you.
6	BOARD MEMBER TWEETEN: While Mr. Jones
7	is looking, I'll go ahead and hang up and call
8	back in.
9	(Board member Tweeten not present)
10	CHAIRMAN MILES: Thank you. Was 504
11	addressed in somebody's brief?
12	MR. JONES: Madam Chair, members of the
13	Board, I do not believe it was brought up in the
14	brief. That will be my question to Mr. Tweeten
15	when he's able to get back on, is if there is some
16	specific element of this statute that he or
17	some particular applicability that he has issue
18	with.
19	CHAIRMAN MILES: Can you tell me what
20	page in your brief that's on, Mr. Brown?
21	MR. BROWN: Yes. It was in the reply
22	brief. I don't know if I have my reply brief.
23	May I come up and address that?
2 4	CHAIRMAN MILES: Sure.

MR. BROWN: Should we wait for Mr.

Tweeten? 1 2 CHAIRMAN MILES: Yes, we should. MCA Section 75-10-504. I think it is on Page 7. 3 4 MR. BROWN: That's correct. I also 5 raised it in my list of exceptions as well. (Board Member Tweeten present by telephone) 6 BOARD MEMBER TWEETEN: This is Chris. 7 CHAIRMAN MILES: Thanks, Chris. 8 9 sounds good so far. 10 BOARD MEMBER TWEETEN: Is this better? 11 CHAIRMAN MILES: You're going out again. 12 I don't know what's going on. 13 BOARD MEMBER TWEETEN: (Inaudible) CHAIRMAN MILES: We missed that 14 15 completely. 16 BOARD MEMBER TWEETEN: Is this better? 17 CHAIRMAN MILES: Yes. BOARD MEMBER TWEETEN: I was on speaker 18 before, and now I'm not. 19 20 CHAIRMAN MILES: I think that's very 21 helpful. So your question was about Section 504? 22 BOARD MEMBER TWEETEN: Right, and for 23 the record, and for the benefit of anybody who 24 doesn't have that statute in front of them, the

second sentence of the statute says, "The

25

prohibition concerning approval of a new motor vehicle wrecking facility or graveyard site does not apply to a facility site that was licensed as such at any time within the 18 months immediately presiding the date an application is made for licensure of such site."

What that appears to me to do is possibly to grandfather any site that has been in existence for more than 18 months prior to the date they applied for licensure.

CHAIRMAN MILES: We don't have the full statute in front of us. Do you have that in front of you? And what is the title section of that particular section?

BOARD MEMBER TWEETEN: 75-10-504, and the head note is, "Shielding - New Facility." And the sentence I just read, in my reading of it anyway, says that the prohibition concerning approval of a new wrecking facility does not apply to a facility that was in business or licensed at least within the 18 months immediately preceding the application for the new license.

So I don't understand exactly how this process works with respect to the difference between new facilities and licensed facilities

applying for new licenses or modifications of their licenses. So the whole thing is kind of confusing to me in light of the statute, and I'm hoping that Mr. Jones can help me with that.

MR. JONES: Madam Chair, members of the Board, I would do my best, but as always, I would start with the caveat that once again, perhaps there are times when statutes could be a little clearer or better coordinated with each other.

So I'm looking at the statute right now, Mr. Tweeten, and I would note 75-10-504 does not contain a reference to any other particular statute. So again, you're not necessarily referencing 75-10-516 in that sentence that's causing you some heartburn there. It just says, "The prohibition concerning approval of a new motor vehicle wrecking facility does not apply," so it doesn't reference any particular statute, or any particular process.

Again, frankly, members of the Board, I think this is one of those things where we're sort of getting into a perhaps dangerous territory when we get into facts of some of this thing, because it wasn't briefed, there weren't documents included in the record about it.

Once again -- and I really hate to say this, and I'm sure that Mr. Brown might dispute my opinion on this -- but my understanding in this particular case is that Mr. Payne had had quite a few rounds with the County leading to this resolution, whereby the shielding was falling down, and there were issues with the neighbors and that sort of thing. Mr. Payne did in fact have numerous opportunities from both the Department and the County to operate in a way that was within compliance and in a way that the neighbors really should not have had any issue, and yet he did not.

But again, that's where the facts start to get dangerous, when I sort of posit things like that without it being supported in the record before you. But I would note that I'm looking at the administrative rule right now for renewal of license. It is Administrative Rules of Montana 17.50.205. And the first part, under Sub (1), it says, "For licensed motor vehicle wrecking facilities, renewal applications must be made on form furnished by the Department."

In Sub (2) he says, "A motor vehicle wrecking facility must be in compliance with or be operating under a compliance plan that will assure

So I think you could say that the process starts over each time that someone, as in this case, an applicant or a pre-existing junk vehicle site owner, comes and wants to make an either annually, or in this case it is even clear, where one actually wants to completely overhaul their facility, have an entirely new boundary location, the Department is constrained by Administrative Rules and by the statutes to make sure that that junk vehicle operator is in compliance with everything, including shielding, and that was not the case here.

But once again, if I could, not to belabor the point, but simply redirect things to where I feel that the Board's analysis really could stop, to make it the simplest, clearest decision. Our statutes, of which the statutes control even the ARMs, specifically point to if we get a resolution from the County, when there is a facility involved -- in this case it is essentially a new facility, because it was a new

permanent boundary that was being requested.

When a new facility comes to the Department, if the County passes that resolution and says County opposes, that's really the end of the story for the Department. We have to deny it under our statute, or else we will be violating our own laws.

BOARD MEMBER TWEETEN: Let me direct your attention to that process. As I recall the statute -- I have a copy of it in my hand here -- 75-10-516 -- which I think we can agree is the statute that contains the prohibition concerning approval of a new motor vehicle wrecking facility or graveyard site -- Subsection (2) is the subsection that deals with the county's obligation, and Subsection (2) says, "Within thirty days of receipt of the notification provided in Subsection (1)," and Subsection (1) just says, "When the Department gets an application, it needs to notify by mail the following," and "B" there is the county.

"So within thirty days of the receipt of that notification, the governing body of the county may," and then there is a colon, and there are two subsections. One says, "Conduct a public

hearing," and so on and so forth, and then there
is a semicolon, and the word "and," and then
Subsection (b) says, "Adopt a resolution in
support or opposition."

But doesn't the use of the word "and" there suggest that the County opting into this process is required to do both "A" and "B" before it reaches its decision whether to support or oppose?

MR. JONES: Madam Chair, Mr. Tweeten.

To be able to answer that question, Mr. Tweeten, I would direct you, please, to the beginning of Sub (2). "So within thirty days of receipt of the notification, the governing body of the county 'may.'"

Now that "may" is absolutely operative in this case. There are quite a few cases from the Montana Supreme Court, one of which was in my brief, and it is the Vanderhule v. Mukasey, so 2009 MT 20 case.

BOARD MEMBER TWEETEN: I was one of the lawyers on that case. I'm real familiar with it.

MR. JONES: Well, I really have no response to that.

BOARD MEMBER TWEETEN: I think I

understand the difference between "may" and "and," but you have this statute where the word "may" ends up at the end of the first line of Subsection (2), followed by a colon, and then you have two further subsections (a) and (b) connected by the word "and."

And my question is not whether the

County is obligated to weigh in -- which seems to

me to be the question controlled by the "may" in

the first line of Subsection (2). Clearly the use

of the word "may" there makes the County's

participation discretionary, and not mandatory.

But my question is whether the word

"and" between subsections (a) and (b) doesn't make

the county, once it opts to participate, comply

with both "A" and "B" before it makes its decision

with respect to support or opposition of the

application. Two questions there.

MR. JONES: Madam Chair, Mr. Tweeten.

In some sense -- I'm not trying to avoid your question at all -- but in some sense I feel like it is perhaps a question that I can't answer, or would not appropriate for me to answer, in the sense that to state the obvious here, DEQ has absolutely no control over the county. So this

statute is directed obviously at what the county must do, and what DEQ must do, but there is no mechanism.

So in my opinion, again, that "may" is controlling. And Mr. Tweeten, I do very much see your point about how that's a conjunctive thing with that "and" there. But simply put, DEQ has no authority over the county commissioners. We never have, we never could.

So in terms of the authority of this
Board, and the appropriateness of these sorts of
legal issues in front of the Board, I would have
to respectfully say it's my contention that this
is not the intent of the Legislature was to have
us -- by us, I mean the Department -- looking at
what the County did or did not do, and looking and
see whether that "and" is operative, and whether
the County, in addition to passing that
resolution, affected the quality of life, or did
the quality of life analysis, simply because as a
legal matter, we --

I mean what recourse would we have?

Even if we were given a statutory mandate to look

at what the County did or did not do or how they

conducted themselves, what legal recourse except

for -- I don't know -- maybe a mandamus action, or a declaratory judgment action, or something, would we have against the County to try to force them to do something? And why would it make sense for the Legislature to mandate that Department of Environmental Quality be in that position?

So again, looking at the -- Again, perhaps the statute could be clearer -- but looking at the nature of the way the statute was written, I think the intent of the Legislature here was to say that, sure, that the DEQ, as the environmental agency, is in the best position to decide, okay, what's the environmental effects? How do we mitigate environmental effects of people gathering up junk vehicles, making sure they're not leaking oil, leaking fluids, etc., there?

But really I think the intent of the Legislature was to say that the county, the legal government, is by far going to be most responsive to what the locals want to see happen, and whether a facility truly is appropriate for that location, and whether or not local people are okay with it. And so I think that they wanted the county to have that power.

Frankly, if Mr. Payne has some issue

with what the County did, I'm certainly not going suggest that he go to sue the County, but the remedy is not against the Department of Environmental Quality.

BOARD MEMBER TWEETEN: Let's explore that for a second. In subsection (3), which is the subsection on which the Department is relying here, and basically placing its stamp of approval on the County's opposition to the application, it seems to me that -- and you can correct me if my understanding of this is wrong -- but the Department can't rely on Subsection (3) unless the governing body has opposed under Subsection (2) (b), and if Payne Logging is correct in saying that in complying with 2(b) the County first has to hold a public hearing -- which I gather was not done here -- and that it has to do both, is there a valid resolution of opposition here? The County has to comply with both sections of Subsection (2). And can the Department rely on the County decision -- (Inaudible)

CHAIRMAN MILES: Chris, we couldn't hear the end of that. You left off at --

BOARD MEMBER TWEETEN: All right. So my question was whether the Department could rely on

the County's resolution of opposition without first determining that the County's resolution of opposition is legally sufficient in that it has complied with both subsections of Subsection (2), which are joined together by the word "and." If the County's resolution is invalid because it has not complied with both "A" and "B," can the Department still rely on that resolution to pass along the denial of the application?

MR. JONES: Madam Chair, Mr. Tweeten, I will do my best to answer that question, but as a preliminary matter, I would say that the Department does not agree that the County did not hold a hearing. The Department doesn't know what County did or did not do. The resolution was passed. And I'll just throw these -- I think Mr. Brown is not likely to dispute these dates, but I'll throw in these key facts, to sort of give this a timeline.

So on July 20th, 2015, DEQ receives the application from Payne to modify the boundaries, or the application for the new wrecking facility, if you will, within a new boundary limit; so two, DEQ gave notice to the County, as we're required to under 516 Sub (b), so we give notice to Lincoln

38
County where it's located on August 28th, 2015.
And then on September 2nd, 2015, the Lincoln
County Commissioners adopt Resolution No. 947.
That resolution was I believe attached with at least one of the briefs, along with Brady
Christensen from DEO's denial letter.

So we get Resolution No. 947. We get that resolution soon thereafter from the County. Then on September 24th, 2015, DEQ denies Payne's application specifically citing as the reason that the County opposed.

So to answer Mr. Tweeten's question, I think I would go back to my previous point, which is to say factually speaking, we do not know what the County did or did not do. DEQ was not invited to that resolution, to that hearing. We never deposed the County. We never really had any knowledge whatsoever of what the County is doing. I think we looked at it from the perspective of what our statute says.

Again, as a general principle of Montana law -- you see this cited in a hundred or more Montana Supreme Court cases, I'm sure -- that it is not the goal of a reviewing authority -- in this case the Board is sort of a reviewing

1 | 2

authority -- or anyone looking at the sufficiency of an agency decision -- or excuse me -- looking at the nature of what a statute says to either insert that which has been omitted, or to omit that which has been inserted.

When a reviewing authority is looking at a statute trying to figure out, hey, what does this mean, you look at the plain language, and you look at the most common sense meaning of those words within it.

And so here, by far the clearest reading that one could possibly do to give this statute effect is to say no, DEQ is not responsible for doing any sort of investigation. We're not authorized. I mean I simply cannot imagine how we are supposed to have any sort of leverage against the County Commissioners to go sort of depose them and say, "Hey, did you guys give notice? Did you do this determination?," because under our statutes, all it says is the Department may not grant a license to a facility that a governing body has opposed under Subsection (2)(b).

So Mr. Tweeten, I hope that answers your question.

BOARD MEMBER TWEETEN: I quess it does,

but it seems to me you put -- and maybe I should just save this for --

CHAIRMAN MILES: For discussion?

BOARD MEETING TWEETEN: I think I'll just do that. Thank you, Mr. Jones. I'll want to pose the same questions to Mr. Brown when he gets up.

CHAIRMAN MILES: I think that we need to give Mr. Brown a few minutes here since the Department has had some time here. So a few minutes for rebuttal, and then we'll undertake discussion.

MR. BROWN: Mr. Tweeten, Mr. Brown at the podium. I can answer I think your last question, and before I do, let me raise an objection, a strenuous objection at this point.

Mr. Jones has asserted facts that are not in the record in this case. Many of these facts as to my client's conduct of his wrecking yard are prejudicial, not on the record, and I object.

CHAIRMAN MILES: They are in the letter. Some of it is in the letter sent to Payne Logging.

MR. BROWN: I would remind the Chair that the procedural posture that we're dealing

with at this point in time is the legal challenges that are being made to Mr. Reed's order. It is not a rehash of the factual scenario. Mr. Reed has made factual findings in this case that are contained within the proposal for decisions.

Those are the operative facts before the Board at this moment.

Now, the facts are as found by Mr. Reed, and the reason the facts are as found by Mr. Reed, as I would like to point out to Mr. Jones, is Mr. Jones -- and the lawyers on this Board will understand what this means --

Mr. Jones filed a motion to dismiss our petition for review. By filing that as a procedural matter, the Department has conceded or admitted to all of the well pled factual allegations that we have made. There is a reason why the Department doesn't know the facts as to what the County did or did not do is because we didn't have a factual hearing on this. It was a purely legal challenge by the Department, based upon on the factual allegations made by my client. Therefore there are no facts in dispute, the facts as found by the Hearing Examiner based on the procedural filings made by the Department. So

that's what this Board is dealing with.

Now, to answer Mr. Tweeten's question, I agree it is our -- you're not making a position, Mr. Tweeten, but let me just say -- it is Mr. Payne's contention, legal contention, that under the statutory scheme -- and I'll get back to my objection that it shouldn't even have been sent to the County in the first instance --

But if this is the applicable statutory scheme, under that statute, once the County has exercised its discretion to make a judgment on the merits of a boundary change application, then it is our position under that statute it is required to make certain legal findings that are set forth in the statute in order for the County's rejection resolution to be legally binding on the Department.

At this point in time, Mr. Reed has found that Mr. Payne was not given direct notice of the quote, "public hearing," so no representative of Payne Logging was at the, quote, "public hearing," and that the resolution adopted by the County only states that there was unanimous opposition and no proponents.

Mr. Reed has found that the resolution

did not make any kind of finding as to whether the boundary readjustment would have an impact on the adjoining landowners. That finding was not made by the County. That's a matter of factual record in this case.

It is our contention that once the County exercised its right under the statute to engage in this process, it had to follow the law in order for the Department to be able to rely on that County's action in order to deny the application.

And I agree with Subsection (4) here, too, does allow the Department to look as to whether or not the proposed application would benefit the public. I would remind you that under -- The reason we're here was Mr. Payne was asked to adjust his boundaries of his wrecking yard in order to better shield his vehicles, in order to benefit the public. And Mr. Reed found that in his factual findings as well.

And so what you have is you have findings made by the Hearing Examiner that are in direct contravention to the County's opposition, because the Hearing Examiner found that the better shielding of the vehicles would benefit the

public.

So it is our contention that it was legal error for Mr. Reed to find that the Department was -- that there is no ability to challenge the Department's denial because the County acted in the way it did.

Now back to the 75-10-504. The legal position of the Board right now is not to determine whether or not that statute is applicable at the point. Our challenge is that we raised the contention to the Hearing Examiner that it was never the Legislature's intent to subject an existing facility to the County review process. And we made two arguments in that regard in our briefing.

One is we said that the clear language of 75-10-504 basically exempts Payne Logging from the County review process because they were a licensed facility in the 18 months before; and more importantly, because the Department raised in its original briefing on the motion to dismiss the Legislature's intent in including the counties as part of this. We argued on our reply brief that, okay, if the Department wants to get into the legislative intent on including the counties in

the review process, then let's go look at the legislative intent.

And I set forth in my briefing and in the exceptions that the counties became part of the review process during the 1991 Montana legislative session. It's pretty interesting history actually. If you go back and read the testimony, it's pretty fascinating.

And you will see the discussion from the sponsor, who was a legislator out of Whitefish, was that Whitefish, and Bozeman, and some of the growing cities in Montana at that time, were just instituting their land use plans for their counties, and what they were finding was that they were running into trouble with wrecking yards and that sort of thing, right, and wanted to have control over these facilities going forward, because obviously it would have an impact on the quality of life as the number of residents in Montana expanded.

You'll find that not only did the bill sponsor state that the county review process would not apply to any existing facility, you'll find that the representative of the DEQ -- which I don't think was called the DEQ at that point in

time. Mr. North? It might have had a different name -- basically said that exact same thing, that it was the Department's interpretation that any licensed facility that was in existence would not be subject to the county review process because the intent of the legislation including the counties in the process was to make sure that these kind of uses of land were consistent with their land use plans, to benefit the public.

And it's undisputed in this fact that Mr. Payne has been existing or running his existing facility for a number of years.

CHAIRMAN MILES: Mr. Brown, excuse me.

I appreciate the history -- and Michele

Reinhart-Levine knows this as well as I do -- that

the legislative history here is not really

relevant. It's the language that is in the

statute, and that oftentimes what a legislator

intends to propose in legislation is not at all

what comes out the other end. We're bound by

what's in the language here. So the history is

interesting, but it is not dispositive in this

case.

MR. BROWN: I don't necessarily agree with that, because it is our position at this

point in time that Mr. Reed failed to make a finding as to whether or not the license should be sent to the County in the first instance, so that is where it does become relevant. But you could disagree in voting, but that's our contention.

I think really the question before the Board at this point is first whether Mr. Reed made any reversible error, but the second question is whether or not -- the real question, and this I will take to District Court -- is can one agency rely and make its decision on the decision of another agency when that first agency decision is itself unlawful?

I think that's the question before the Board, I think that's the legal question here, and it is our contention that a decision that is void ab initio, that's illegal from the start, cannot serve as the legal basis for supporting a later decision. So an unlawful decision cannot be the basis for a lawful decision, and that's our position. We believe that this case needs to be remanded back to the Hearing Examiner at least to make the findings as to whether 75-10-504 apply, whether the County should have even been involved, and it would be my preference that frankly the

application to change the boundary move forward.

You'll find that Mr. Payne made this boundary readjustment at the request of the Department. It is Exhibit C to our initial brief. You'll find DEQ's letter in there. And that's our position, and thank you for your time.

BOARD MEMBER O'CONNOR: I have a question, Mr. Brown. I'm not a lawyer, but I'm curious as to why you're going after the DEQ rather than the County who seems to be the real issue here.

MR. BROWN: Because the decision -- I think this is a huge flaw in this process that needs to be corrected.

But the ultimate decision as to whether or not to license a wrecking yard is the Department's decision. It is not the County's decision. And so when the County made the disapproval of the application, there is no binding decision at this point as to Mr. Payne's application, if you follow. Right? There is no -- When they said no, that doesn't mean that the application died at that point. The application died at the Department denied it, and therefore we have to challenge the

Department's decision. It is like a Catch-22 situation. It is a crazy scheme. That I'll say.

CHAIRMAN MILES: Thank you. Further discussion by the Board?

MR. JONES: Madam Chair, could I be permitted to address a couple of quick points?

CHAIRMAN MILES: Okay.

MR. JONES: Madam Chair, members of the Board. I would just like to note initially -- I know this has been dragging on much longer than anyone intended -- but I'd just like to take a step back here, and I guess remind the Board and remind all of us of what documents we're actually dealing with, what we're considering here.

Mr. Brown raises what he calls a strenuous objection to some things that I said earlier, and perhaps that was a little bit too far, which is why I tried to preface it by saying I think it gets into very dangerous territory, when you're on motion to dismiss a legal issue, to start talking about factual things. And now in light of Mr. Brown's objection, I really think we need to clarify this.

What's in the record in front of the Board right now is really just a couple of

exhibits. You have the proposal for decision from the Hearing Examiner, and you have the -- correct me if I'm wrong, Mr. Brown -- but we have the denial letter from Mr. Christensen, and we have the County's resolution.

So when Mr. Brown makes strenuous objections to say, "Well, DEQ is trying to put facts in the record that aren't there," Mr. Brown was putting quite a few facts that aren't in the record.

What's in front of the Board is exactly what's in those two things: The denial letter, etc., and so --

CHAIRMAN MILES: Excuse me. Ben, I don't recall seeing the actual resolution from the County.

MR. REED: I believe it was in the initial appeal that was filed by Payne Logging; is that correct, Mr. Brown?

MR. BROWN: Yes, it's attached to our original brief.

CHAIRMAN MILES: We don't have that.

MR. REED: I think that's correct, Madam

Chair.

CHAIRMAN MILES: I just wanted to let

you know that. We've not seen that.

MR. JONES: Yes, Madam Chair. Thank you for clarifying that. So just to take a step back there. There is nothing in front of this Board that would substantiate -- there were no depositions taken in this case. There is nothing at all to substantiate one way or another whether the County did some sort of lawful or unlawful action about whether they held a hearing or whatever. All that's in front of the Board, and all that we consider, and all that's appropriate for me to say or Mr. Brown to say is what's in those things that are in front of the Board.

And I would note -- which is the denial letter. And I would note -- and this is in the proposal for decision -- in terms of facts asserted in the appeal that must be taken as true. As Mr. Reed said in his proposal for decision, "Facts asserted in the appeal must be taken as true. However, the Hearing Examiner is under no duty to take as a legal conclusion or allegations that have no factual basis or are contrary to what has already been adjudicated."

Members of the Board, nothing has been adjudicated here. It is simply a question of

CHAIRMAN MILES: Any discussion by the Board?

BOARD MEMBER TWEETEN: This is Chris.

Can everybody hear me?

CHAIRMAN MILES: Yes.

BOARD MEMBER TWEETEN: Obviously from the tenor of my questions, I think you can tell I've got some problems with this statute that is being applied by the Department and frankly by the parties.

Principally I think the way the statute is crafted may in fact violate MAPA, and may also be a violation of the due process clause, because assuming that there was no public notice, and an opportunity for the public to comment, and an opportunity for the County Commissioners to take evidence -- which seems likely to me since, as I recall the dates that were recited, the Commissioners received the notice from the Department late in August, and then within a matter of days issued its decision to oppose the

application.

It seems unlikely that there was extensive formal notice to the County, and an opportunity for the County citizens to be heard, particularly an opportunity for Payne to make its arguments in front of the County Commissioners.

That doesn't show in the record as to whether that was done or not.

So I think that there are certainly some significant issues that Payne raises in this case that are deserving of our attention, and my inclination at this point, without having studied the matter deeply, is that the statute requires both a hearing before the County, and then a County resolution of opposition before Subsection (3) of 516 comes into play, and the Department is allowed to rely on the County's opposition as a ground to disapprove the application.

And unless it affirmatively appears in the record that both of those have happened, I'm not sure it is a good idea for us to be affirming the decision, given the state of the record that's in front of us now, because we don't know whether that was done or not. It is not apparently clear in the record as to exactly what happened in front

of the County Commissioners because none of that, it seems that none of that has been put into evidence.

CHAIRMAN MILES: Chris, I'm not sure that we are the entity that's supposed to determine whether that resolution was, as you said, whether the whole process met the requirements of the statute.

The Department received a resolution in opposition, and I do believe this is a new facility when you're talking about moving boundaries. I don't buy the argument that it is exempt from even consideration as to whether a resolution even applies. But I'm not sure we're the entity that can determine if the County did the right process, and I guess I'm moving toward the more simplistic thing, that the Department had a resolution from the County, and the language is very clear that they can't give a permit to the new facility.

BOARD MEMBER TWEETEN: I think that that's certainly an attractive option here, and just kick the matter to the District Court, and let the District Court sort all of this stuff out.

One of the problems I see with that,

though, is that the District Court under MAPA is essentially bound by the state of the record that was in front of -- I think our decision is the one that's going to be in front of the Court for consideration on judicial review of our decision, and none of those facts are in the record at all.

So if the Court is willing to agree with the view that if DEQ receives a resolution of opposition, whether faulty or not, DEQ has no choice but to deny the application, I guess that's one thing; but where that leaves Payne I guess is another question, because a writ of mandate -- or a writ of prohibition is clearly delayed because the action has already taken place, and you can't ask for an injunctive order from the Court in the nature of a writ of prohibition to stop the County because the County has already acted and DEQ has already acted.

A writ of mandate may be, I suppose, might be the way to go. I suppose Payne could have filed suit against the County immediately after the resolution was adopted to oppose this, but I don't think Payne knew that at that time, that that was going to be their sole remedy here, and there would not be any sort of remedy

56 available under MAPA once the County's resolution

2 was passed.

I just think it's a thorny problem.

Perhaps the District Court will look at all of this, and send it back to DEQ with instructions to remand it to the County, and let the County do whatever the Court decides is necessary.

But I think if the Board were to lay out particular concerns with the statute, and indicate its intention to overturn what the Department does, it certainly frames that issue up better for the District Court to look at on review.

So I guess I'm leaning in favor of the option of agreeing, at least in part, with some of Payne's arguments, and remanding the case to DEQ for consideration under the statute as properly read, which means that the County has to hold a public hearing with respect to the application, and its position with respect to the application, if the County wants its position to be given the extensive deference that the statute requires DEQ to give it.

Once the County makes a decision, there should be some documentation in the record that what the County did was legal before DEQ gets to

rely on it to deny the application. That's the direction I'm leaning in anyway.

CHAIRMAN MILES: Michele, did I hear you start to say something, or Marietta?

BOARD MEMBER REINHART-LEVINE: Madam

Chair, I do have some comments. I agree with Mr.

Tweeten and Mr. Brown regarding the statutory

construction, that the County may conduct a public

hearing to determine whether the facility will

significantly affect the quality of life of

adjoining landowners, and adopt a resolution.

I see that once the County goes down that road, it has the duty to do both "A" and "B," and the Department can't grant a license to a governing body that has opposed under Subsection (2)(b), which is married to 2(a).

But I also think that the parties are overlooking Subpart (4), and I don't think that Subpart (3) gets DEQ off the hook for Subpart (4). Subpart (4) is still mandatory, and there is no escape valve to escape Subpart (4). It says, "In making its decision, the Department shall consider the effects of the proposed facility on adjoining landowners and land usage."

Mr. Jones has admitted that the

Department has not done that, and it is clear from Mr. Christensen's letter to Mr. Payne that the Department has not considered the effects of the proposed facility on adjoining landowners. The letter from Mr. Christensen to Mr. Payne says that the main reason for the denial or the termination of the application was because the Commissioners opposed the change until full compliance with the motor vehicle regulations are achieved. There is no findings regarding the impacts on adjoining landowners or land uses.

So it would be my recommendation that we deny the Department's 12(b)(6) motion to dismiss, and remand to the Department to make the required findings under the statute, which I don't think it has done in regards to Subpart (3), or the mandatory requirements of Subpart (4).

With that, I'll turn it back over to you, Madam Chair. Thank you.

CHAIRMAN MILES: Further discussion?

BOARD MEMBER TWEETEN: Madam Chair, if I might. This is Chris again. I'm not sure I read the statute the same way that Ms. Reinhart-Levine does frankly.

Subsection (3) is a prohibition on the

Department. It says just, "The Department may not grant a license to a facility that the governing body has opposed under Subsection (2)(b)." Four says, "In making its decision to grant or deny a license application --" and I read decision to refer to a decision on the merits. "In making its decision, the Department shall consider the effect of the proposed facility."

Four is not, by its terms, applicable to the County's review under two. It says, "In making its decision, the Department shall consider." But I'm not sure I can read that statute to impose on the County a mandatory duty to consider the effect on landowners.

Now, if the County votes to approve or support the application, then certainly the Department has to make the requisite finding under four before it can itself approve the application. I think that's the way these statutes fit together, is that if the County opposes, then assuming that the County has held a public hearing, and that its consideration of the issue is otherwise lawful, if the County opposes, then the DEQ must rubber stamp that decision.

And I think the Legislature's intent

there was to place the discretion in the hands of County Commissioners as opposed to DEQ, other intention to the contrary, not appearing to me from the statutes. But if the governing body votes to approve, then I think DEQ's action under Subsection (3) and (4) are triggered, and particularly under (4), MAPA requires the Department to have a hearing; and then I think the Department has to take up the question basically from the get go as to whether the Department finds that the application meets those criteria.

I think the Department's review in that case is a fail safe for situations in which the operative facility moves for a license for an expansion or a new license, I guess, in the first instance, and the County decides it wants to approve it. In that case DEQ would have to make the further finding that there are no adverse impacts on the adjoining landowners.

But if the County's decision is to oppose, I think the Legislature pretty clearly said, "DEQ, once the county's decision is to oppose, you can't grant the license," and that it seems to me that the Applicant's remedy is to sue the County, and make the County stand behind its

decision to oppose.

So I think to me that's the way the statute is supposed to work. So I'm not sure I agree that under the circumstances of this case, the County needs to conduct a hearing to make the finding required under four, because I think the statute is the record by three. So I'll just say that --

CHAIRMAN MILES: I believe Michele wasn't saying that the County needed to do that.

Michele, weren't you saying the State needed to do that?

BOARD MEMBER REINHART-LEVINE: I'm not saying that the County is supposed to do that.

The language of four is, "In making its decision to grant or deny a license application, the Department shall consider the effects of the proposed facility on adjoining landowners and land uses."

Here the Department has denied a license application, so in order to deny it, it shall consider those effects in its denial. I don't think four is limited to only decisions where the Department grants the application. I think the Department is required to follow Subpart (4) even

in situations where Subpart (3) also applies.

There is nothing that says that if Subpart (3)

applies, that the Department can ignore Subpart

(4). That's not in the statute.

So I think that the Department has to cover its bases, and it has to address three and four, and it has to address four whether it grants or denies the application. It has to consider those effects, and it has not done so here, and I think that it needs to to cover its bases.

BOARD MEMBER TWEETEN: Let me just,

Madam Chair --

CHAIRMAN MILES: I'd like to weigh in on that, too, but go ahead.

BOARD MEMBER TWEETEN: I think actually that Ms. Reinhart-Levine and I agree with respect to what disposition of this the Board should make. I agree that it needs to be remanded to DEQ for further consideration, and I would certainly concur in that disposition if it were voted by the Board.

I might want to write a concurring opinion with respect to the Board's disposition in which I might explain a different reading of the statutes, and how they to apply to achieve the

same result. But I think certainly Ms.

Reinhart-Levine and I will be voting the same way with respect to the disposition. We just might want to advance different grounds for that

decision.

CHAIRMAN MILES: I'm not sure that I would agree, and respectfully disagree with what Michele has talked about. I don't think that four really comes into play if the County has passed a resolution in opposition, and the statute is very clear that DEQ cannot grant a license in that case.

I guess the question for me is: Is
there error on the part of DEQ? That's really the
question in front of me. I don't see that there
is error on the part of DEQ, and I would be
inclined to dismiss this, and then let this go
back to the local level and, if you will, pursue
the issue there. That's my proposition.

MR. REED: Madam Chair, I just had one comment, which is that -- and I would pose this as a question to Mr. Tweeten because of his superior knowledge of the case law.

I was looking through Montana case law, and it seems to me that one of the extensions of

Payne's argument was that -- put it perhaps more simply than Mr. Brown might put it -- what Payne is asking is for the Department to be the arbiter of whether the County's behavior was constitutional or not, and I don't think that the Department can stand in the shoes of the entity that should be doing that, which I believe in Montana should be the District Court Judge.

And so I think that under the current statutory scheme, which might cause --

MR. JONES: Madam Chair, I'm going to have to object. The Hearing Examiner should play no role in consideration of his own order during this process. Thank you.

MR. REED: I think that's probably reasonable. But I would ask that if Mr. Tweeten can explain that for the record, just to have a little clarity.

CHAIRMAN MILES: Did you hear that, Chris?

BOARD MEMBER TWEETEN: Yes, I did. I think the final determiner or issue of constitutional law is certainly the Montana Supreme Court, or failing an appeal to that, then the District Court would have that jurisdiction.

But I do think there is authority for the proposition that under MAPA, an agency can in the first instance talk about and consider whether the Constitution provides for or allows the kind of relief that the Applicant is asking for. So I don't think there is a jurisdictional bar against the consideration of constitutional issues by an agency, but I think it's clear that an agency --

CHAIRMAN MILES: Chris, I'm sorry.

We're having a hard time hearing you. Just kind of the last couple of sentences.

BOARD MEMBER TWEETEN: I agree with Ben that the District Court has jurisdiction over constitutional questions -- there's no doubt about that -- but I think there is room under MAPA for the agency to have some discretion about those questions as well. Certainly those questions are raised by the parties.

I think the Agency has an obligation to weigh in with respect to those questions because of the decision on appeal, then those would be undecided issues; and I suppose short of a finding that the agency has no jurisdiction whatsoever over constitutional questions, I'm not sure that's what the law is. I think the agency can certainly

Yes, we got that.

consider them, but I think the Court's determination will certainly govern over anything that the Agency says about that. Is that better?

Thank you.

I want to turn it -- Mr. O'Connor indicated he wanted to comment.

CHAIRMAN MILES:

BOARD MEMBER O'CONNOR: Yes, Madam

Chair. I just wanted to support your statement

there. It seems to me like we don't have anything

in front of us that tells us that the DEQ is

responsible for the decision the County made, and

then has to go back and review that decision. It

seems to me like that's more up to the Courts, the

District Court or something.

CHAIRMAN MILES: I think we need to wrap this up. We either need a motion, or a decision to defer action on this, and take some of these items under consideration.

BOARD MEMBER TWEETEN: Madam Chair, let me try a motion here.

I move that the Board reverse the

Department's decision, and remand this matter to

the Department for further consideration in light

of an opinion to be written that garners the

support of a majority of the Board.

CHAIRMAN MILES: I'm not sure I understood that.

BOARD MEMBER TWEETEN: Let me tell you what I'm suggesting. What I'm suggesting is that the majority -- I'm asking the majority of the Board to agree on the resolution that the matter be remanded. And I think, as I said, Michele and I agree on the fact that there should be a remand, we just don't necessarily agree on what the Department ought to do once it's remanded.

My suggestion, just to see where we all stand, is to ask how many of the Board members now are in favor of remanding to DEQ as opposed to denying this appeal, and as the final decision of the Board, letting them just head on to District Court. I think those are the two choices we've got in front of us in terms of the resolution right now. We either remand to DEQ, or we affirm DEQ's decision and let Payne take this into another forum, if that's what Payne decides to do.

So I'm moving, as a sort of shot across the bow here, a trial run, if you will, that we take a vote amongst the members of the Board with respect to the question of should this be

remanded; and if we get a majority of the members present agreeing to a remand, then anybody on the Board who wants to write some sort of suggested disposition for the Board to make ought to be encouraged to do so, and then we'll take those up at the next meeting and decide what the majority of the Board thinks the criteria should be on remand.

I think it is awkward at least, if not outright confusing, to suggest that we adopt both a disposition and a rationale, based solely on the discussions that we've had here without the opportunity for the Board members to see anything in writing other than Ben's proposed decision, which I don't think is congruent with at least the reasoning that Michele and I have with respect to whether there should be a remand or not.

If the majority of Board members present decide, no, we don't want to remand it, we'll just confirm it. And Ben's draft is probably a pretty good place for a final disposition by the Board.

Does that make more sense?

CHAIRMAN MILES: I'm just not sure how we do a vote on this.

MR. REED: Madam Chair, I might suggest

that one option, one obvious option that Mr.

Tweeten didn't mention, is that since this is simply my affirmation of the Department's motion to dismiss, what could most easily happen is the Board could simply reverse my proposed order or disregard, move to disregard my proposed order, and allow the matter to continue to hearing.

It seems to me that that way the Board or the Hearings Officer in question could require subsequent briefing and elucidation of the facts from the parties, which might make the Board's way forward in this a little bit more clear.

BOARD MEMBER TWEETEN: Madam Chair, I would support that as well if it's a middle ground that we can get a majority to agree on.

CHAIRMAN MILES: What would the motion be?

BOARD MEMBER TWEETEN: The motion would be to deny the -- We've got two motions in front of us, as I understand. We've got a motion to dismiss filed by the Department which Ben recommends that we grant, but I understood that there was a cross motion for summary judgment on behalf of Payne. Am I wrong about that?

MR. BROWN: Judgment on the pleadings.

MR. REED: It is a motion for judgment on the pleadings, 12-C.

BOARD MEMBER TWEETEN: So we would have to act on both of those. Now, the judgment on the pleadings is denied by the Department, as I understand it then, because the Department granted the motion to dismiss, or the Department dismissed anyway.

MR. REED: Mr. Tweeten, I believe that my proposed order denied Payne's motion for judgment on the pleadings as moot, and granted the Department's motion.

BOARD MEMBER TWEETEN: I see. Okay. So what we would do then is reverse -- we would adopt a motion to reverse -- or to decline to follow the proposed decision, and set the matter for a more detailed evidentiary hearing in front of the Board or in front of the Hearing Examiner.

CHAIRMAN MILES: Is that your motion?

BOARD MEMBER TWEETEN: Sure. I'll
substitute that for my motion.

CHAIRMAN MILES: Is there a second?

BOARD MEMBER REINHART-LEVINE: This is

Michele. I second that motion.

CHAIRMAN MILES: Is there further

discussion?

(No response)

CHAIRMAN MILES: Would you just clarify one more time, Chris. So that is rejecting the proposal for decision, and moving this matter to a full hearing before the Board?

BOARD MEMBER TWEETEN: Well, the question then would be -- and we would probably have to take this up in a second motion -- whether to remand it to the Hearing Examiner for further proceedings, or whether the Board wants to conduct all of the future proceedings including the hearing, if there is one, itself.

So I think what I would suggest is that we remand it to the Hearing Examiner for the purpose of conducting a hearing on all issues, and then he can make a proposed decision -- I guess Andres would make a proposed decision with respect to the outcome after the matter was fully heard, and then that would put the burden on the parties to bring in front of the Hearing Examiner all arguments and all evidence that may be relevant to the outcome. If the party fails in its burden to bring up something up, then it would be out of luck with respect to the future proceedings in

front of the Board.

CHAIRMAN MILES: So that is two separate motions, or do you want to just wrap that all into one, that we reject the proposal --

BOARD MEMBER TWEETEN: Let me do that.

This is a second substitute motion. I move that the Board reject the Hearing Examiner's proposed decision. Second, I move that the Board remand this matter to the Hearing Examiner for the purposes of conducting future proceedings with respect to all possible issues that the parties may wish to raise with respect to the appropriateness of the Department's action on the application.

CHAIRMAN MILES: Is there a second?

BOARD MEMBER REINHART-LEVINE: Second.

This is Michele.

CHAIRMAN MILES: Is there any further discussion?

(No response)

CHAIRMAN MILES: Since there is people on the phone, Hillary, would you take a roll vote.

MS. HOULE: Absolutely, Madam Chair.

For the Board members participating on the phone,
can you please say your name, and which way you

1	are voting on Mr. Tweeten's motion. Then once
2	we're done with that, then I'll take roll from
3	Board members present. Thank you, Madam Chair.
4	So I'll start down the line with those
5	on the phone.
6	BOARD MEMBER REINHART-LEVINE: Hillary,
7	do you want to just call out our name?
8	MS. HOULE: That's what I was going to
9	do. Sorry, Michele. Ms. Canty, can you please
10	give me your vote.
11	BOARD MEMBER CANTY: This is Marietta.
12	I vote for Chris Tweeten's motion.
13	MS. HOULE: Ms. Reinhart-Levine, can you
14	please give me your vote.
15	BOARD MEMBER REINHART-LEVINE: I vote
16	aye.
17	MS. HOULE: Mr. Tweeten.
18	BOARD MEMBER TWEETEN: I vote yes, which
19	is both aye and for.
20	MS. HOULE: Thank you for the
21	clarification. Madam Chair.
22	CHAIRMAN MILES: With all due respect,
23	no.
24	MS. HOULE: Mr. O'Connor.
25	BOARD MEMBER O'CONNOR: I'll vote no as

1	well.
2	MS. HOULE: Dr. Byron.
3	BOARD MEMBER DR. BYRON: I'll vote aye.
4	CHAIRMAN MILES: The motion carries.
5	The matter is remanded to Mr. Haladay for further
6	proceedings. Thanks, everybody. I think we'd
7	better take a very short break. Thank you very
8	much for the discussion. That turned out to be a
9	little more complicated than we anticipated. Ten
10	minutes.
11	(The proceedings were concluded
12	at 12:55 p.m.)
