

09/24/2019 Meeting

Climate Solutions Council: Adaptation, Information and Decision Support Committee

Action Items for Next Meeting

- Tom Armstrong and Cathy Whitlock (?) will provide definitions for key terms based on IPCC convention. These key terms will likely expand as we develop the plan.
- All attendees should update John Tubbs (JTubbs@mt.gov) if their information is incorrect on the Committee Membership table (below). We want to categorize this based on council members and agency/public parties.
- Exchange outline, including scope, timeframe, and content with other subcommittees so we can determine how well our ideas are lining up.
- Bring ideas for filling out or refining the outline on page 2. Specifically, what community/sector types to focus on, available resources or gaps.

Climate Adaptation, Information and Decision Support Committee

Councilmembers
