RE: June – July 2015 Progress Report
Stimson Lumber Company, Bonner Cooling Pond Removal Project
Administrative Order on Consent, Docket No. SF-10-0001

Messrs. Large and Martin:

Pursuant to Section 81A of the referenced Administrative Order on Consent (AOC), this letter is submitted on behalf of Stimson Lumber Company as a monthly progress report for the preceding period of June 2015 through July 2015.

Compressor Building: Results from borings within the Compressor Building indicate PCB contamination underneath the building. However, a review of the test data indicates some gaps in coverage in and around the building. DEQ has approved Stimson submitting plans for additional borings and providing all data when the area is fully characterized.

Respectfully Submitted,

STEVEN A. PETRIN
Environmental Manager
