

Chronology of Events

Event	Date
Initial discovery of problem or contamination	February 1984
Pre-NPL responses, Phase I Investigation	March 1984
NPL listing (proposed)	October 1984
Administrative Order of Consent for Emergency Removal Action (Docket No. CERCLA VIII-85-02)	May 1985
Removal action, Swamp Pond area	June- August 1985
Administrative Order of Consent for Remedial investigation/Feasibility Study (Docket No. CERCLA- VIII-85-07)	October 1985
Phase II Investigation	1987
Phase III Investigation	1988
Removal of Beach Sediments	May 1988
Remedial Investigation/Feasibility Study complete	September 1988
RCRA Impoundment Closure	1988
ROD signature	September 1989
Demolition Work Plan	1991
Demolition former operations	1991-1992
Consent Decree for Remedial Design/Remedial Action (Civil Action No. CV-91-32-M-CCL)	December 1991
Remedial Design/Remedial Action	1991 - 1992
Land Treatment Demonstration	December 1991
No Migration Petition	June 1992
Remedial design start, soil component	June 1992
Remedial design start, groundwater component	June 1992
Explanation of Significant Differences	June 1992
Remedial design complete, soils component	September 1992
Remedial design complete, groundwater component	1993
Site-wide groundwater monitoring implemented	1993
Removal Action, excavation of soil	April 1993
Wetlands Compensation Determination	July 1993
Construction Land Treatment Unit	August 1993
Groundwater Remedy Start	May 1994
Soils remedy start, Land Treatment Unit operations	May 1994
Construction completion date, Groundwater Treatment System	April 1994
Initial Five-Year Review	September 1996
Explanation of Significant Differences	July 1998
Clean Closure of RCRA Surface Impoundment	September 1998
Draft Technical Impracticability Evaluation for Groundwater Restoration submitted	December 1999
Land Treatment Unit Closure Work Plan	September 2001
Second Five-Year Review	September 2001
Land Treatment Unit Closed	October 2002
Technical Impracticability Demonstration Approved	February 2003
LTU Closure Certification	March 2003
Controlled Groundwater Designation	May 2003
Wetland Mitigation Release	November 2003
Draft Request to Modify Groundwater Treatment System submitted	September 2004
Natural Attenuation Demonstration	April 2006
Third Five-Year Review	September 2006

Groundwater Treatment System Shutdown Initiated for an Interim Period of two years	October 2007
Interim Monitoring Period commences	January 2008
