ANALYTICAL LABORATORIES FAMILIAR WITH THE MONTANA METHOD FOR VPH & EPH ANALYSES

DISCLAIMER: This list provides directory information on commercial firms that offer analyses of petroleum-contaminated soil and water samples. The companies on this list have indicated that they perform the Montana Modified Massachusetts Method-based Volatile Petroleum Hydrocarbon (VPH) and Extractable Petroleum Hydrocarbons (EPH) analyses according to Montana Department of Environmental Quality (DEQ) guidelines. This is also known as the Montana Method for VPH and EPH. DEQ does not necessarily endorse any listed companies. Using labs on this list does not imply or ensure superior data quality. We recommend that a prospective customer contact a number of companies for the best service and price. Listed companies reserve the right to evaluate the extent of their services on a case-by-case basis. This list is subject to change without notice.

Contact labs for proper procedures prior to sampling and shipping.
