

# New Definitions

**"Annual base amount"** means the amount of regulated asbestos-containing material, up to 25,000 square, 25,000 linear, or 25,000 cubic feet or any combination thereof, that an annual asbestos project permit holder may disturb or remove under an annual asbestos project permit during the year the annual permit is in effect.

**"Asbestos unit measurement (AUM)"** means each unit of asbestos-containing material that may be disturbed or removed either in square, linear, or cubic feet or any combination thereof.

**"Cubic foot"** means a unit of volume for three-dimensional materials, such as insulation, equal to one foot in length, width and height. This measurement may only be used when the depth of the material exceeds three inches or cannot be otherwise calculated.

**"Homogenous materials"** means materials that are uniform in color, texture, and age.

**"Layered homogenous materials"** means materials in which the elements making up the composition are in the form of layers. This term may only be applied to flooring systems, wallboard systems, or roofing systems.

**"Linear foot"** means a unit of length equal to one foot and may only be used for pipe measurement.

**"Square foot"** means a unit of area for two-dimensional materials, such as flooring, equal to the area of a square that is one foot in length and width.
