**Subject:** [EXTERNAL] Malteurop North America Source Testing

Ms. Wilson,

Due to the economic slowdown from the COVID-19 pandemic, Malteurop North America have ceased production at the Great Falls Plant. Product will not be running through the Silo Complex and BF01 and BF02 will not be operating. Therefore Bison requests to postpone and reschedule the testing campaign when Malteurop is back to full production.

At this point, Malteurop estimates that start up of production will commence sometime in June or July 2020. Source testing would be scheduled soon after start up. Feel free to contact me if you have any questions.

Sincerely,

**Conor Fox, QI**
