| 28 | | | | | |
| 29 | | | | | |
| 30 | | | | | |
| 31 | | | | | |

Notes: (1) If a visible increase in turbidity 10 stream widths downstream of the suction dredge is observed, operation of the dredge must decrease or cease. Operator should note actions taken to get into compliance. (2) If visible oil film noted, operator should note actions taken to prevent further release of oil & grease.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.
