a. In the matter of the notice of appeal and request for hearing by Western Energy Company (WECO) regarding its MPDES Permit No. MT0023965 issued for WECO’s Rosebud Mine in Colstrip, BER 2012-12 WQ.

The permit appeal is stayed pending judicial review. On September 10, 2019, the Montana Supreme Court issued its opinion reversing the First Judicial District Court in Montana Environmental Information Center and Sierra Club v. Montana DEQ and Western Energy Company. The Montana Supreme Court reversed the District Court on decisions of law and determined that DEQ properly interpreted rules implementing the Montana Water Quality Act (specifically ARM 17.30.637(4)). In so doing, the Court recognized that DEQ has the flexibility to exempt ephemeral
waters from the water quality standards applicable to Class C-3 waters without the Board of Environmental Review reclassifying the waters. The Court also determined that DEQ lawfully permitted representative sampling of outfalls under Western Energy Company’s MPDES permit. The Montana Supreme Court remanded the case back to District Court for further proceedings to determine certain issues of material fact, specifically whether DEQ acted properly in regard to a stretch of East Fork Armells Creek that is potentially impaired and intermittent, whether it is necessary for DEQ to adopt a TMDL for impaired segments of East Fork Armells Creek, and whether the representative monitoring selected by DEQ is factually supported. Judge Reynolds assumed jurisdiction of the case and the parties are proceeding in accordance with his scheduling order.
