

## Libby Asbestos Superfund Oversight Committee (LASOC)

O&M Support of Property Owners Report

Report date from September 30, 2025 through December 31, 2025

### Background

The purpose of this document is to supplement the standardized “Site Funding and Budgets Report” (Budget Report) adopted by the Libby Asbestos Superfund Oversight Committee (LASOC) as a regular reporting tool to assist in the discharge of their duties. While the Budget Report presents consistent information about funding sources, and expenditures and budgets for the overall Libby Asbestos Superfund Site, it does not specifically report on the level of Operation and Maintenance (O&M) support that is directed to individual property owners. Further, the Budget Report was not intended to list other metrics such as the level of activities and incidents that are not direct financial parameters, but yet provide insight into the performance of the O&M program at the property owner level.

### Report Elements

#### Nature and Frequency of Notifications and Incidents

The Asbestos Resource Program (ARP) is the recipient of Property Evaluation Notifications (PENs) that triggers sharing of information and outreach to property owners, and may lead to incidents<sup>1</sup> where costs are incurred for services such as sampling and analyses, clean up, and material disposal. Such costs may be reimbursed to the owner or paid directly by DEQ, but regardless are an expense to the O&M program.

These elements are summarized in the following table:

**Table 1 - Nature and Frequency of Notifications and Incidents**

Type of Requests	Fiscal Year <sup>2</sup> (FY) to Date	O&M Total	Comments
PEN's Recieved by ARP	490	7,212	PENs include U-Dig Locate Requests
Information or Support Request Only	486	7,153	
Reimbursable Actions	4	59	Reimbursements made to property owners.
Non-Reimbursable Actions	0	17	Actions paid directly by DEQ/ARP, e.g., sampling and analysis, landfill costs, NOPEC/NOEC properties.
General Comments:			

### Funding Sources

Financial support to the property owner comes either through reimbursement of their expenses or by payment for services provided on their behalf (for example, laboratory testing and landfill costs). The funding source comes via DEQ (such as clean up reimbursements and paying for laboratory sampling), or through the ARP for landfill cost (a budgeted cost in the ARP MOA with DEQ). The following table identifies the funding sources for the categories of incidents shown above.

**Table 2 - Number of O&M Actions vs. Funding Source**

Cost Categories of O&M Actions	Incident Cost Category	Sampling and Analysis <sup>3</sup>	Abatement	Landfill Disposal <sup>4</sup>	Other	Total
Libby Asbestos Settlement (Fund 08230)	FY to Date	0	0	NA	0	0
	O&M Total	0	0	NA	0	0
Libby Asbestos Cleanup Trust Fund from Orphan Share (Fund 09033)	FY to Date	0	0	NA	0	0
	O&M Total	0	0	NA	0	0
Libby Asbestos Cleanup and Operations Account (Fund 02130)	FY to Date	0	0	NA	0	0
	O&M Total	10	7	NA	0	17
Libby Asbestos O&M Activities (Grant V-96841701) <sup>5</sup>	FY to Date	0	0	0	0	0
	O&M Total	11	29	22	0	62
Libby Asbestos O&M Activities (Grant V-00139600) <sup>6</sup>	FY to Date	1	3	3	0	7
	O&M Total	5	14	14	0	33
Totals	FY to Date	1	3	3	0	7
	O&M Total	26	50	36	0	112

General Comments:

General Comments:

<sup>1</sup> Reimbursable to owner or paid directly by DEQ/ARP<sup>2</sup> Fiscal Year is July 1 - June 30.<sup>3</sup> DEQ has a contract with EMSL for sample analysis through the EPA Grant. This contract produces monthly invoices and are not separated by property, thus, totals captured in this report are by invoice received and sampling actions done by a third party.<sup>4</sup> DEQ receives landfill tickets through the invoices produced by ARP. As these tickets are not property specific this report captures only when the landfill costs were included and the total landfill costs in that invoice. In addition, all landfill costs will be paid through the EPA grant.<sup>5</sup> EPA CA V-96841701 awarded to DEQ for O&M expenses for March 15, 2017 to March 1, 2024<sup>6</sup> EPA CA V-00139600 awarded to DEQ for O&M expenses for May 24, 2024 to September 30, 2026
