

Modification, Repair, Lining, or Investigation Supplement D

Your application is not complete until **all** requested information is submitted. Please complete every item on this supplement to avoid delays in processing your request.

In addition to this form, please submit:

- Completed Permit Application for Underground Storage Tanks—Major Installation
- Sage Grouse Habitat Conservation Program Certification (letter)
- Permit fees

Tank #	THIS LINE FOR OFFICE USE ONLY			
Tag Number	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>

Design Checklist for proposed installation:

- Describe all in-tank leak detection equipment to be installed
 - ATG make/model Probe Series
 - How is the ATG is programmed (indicate all)?
 - 0.1 gph static test 0.2 gph static test 0.2 gph monthly CITLDS
 - Programmed test interval
- Describe all tank interstitial leak detection equipment to be installed
 - LD panel make/model Sensor series
- Describe all pressurized line leak detection equipment to be installed
 - LD panel make/model Sensor series
 - How is the LD panel programmed (indicate all)?
 - 0.1 gph annual test 0.2 gph monthly test 3 gph continuous test
 - Sound a continuous alarm De-energize the turbine Autodialer
- Make and model of all interstitial piping equipment
 - How do the liquid sensors stop the flow of fuel in the event of a leak?
 - Sound a continuous alarm De-energize the turbine
 - Close a solenoid at the tank top Autodialer
- Make and model of spill and overflow equipment being installed
- Make and model of any other equipment to be installed

Describe the project—what are you planning to do? (attach additional sheets if necessary). Include any special design issues and any information not included above.

Site Plan to include the following elements at a minimum:

- Facility name
- Designer name
- Scale or dimensions
- North arrow
- Dimensioned or scaled locations of major site features including:
 - Underground and above ground storage tanks
 - Buildings
 - Dispensers
 - Any other relevant structure or site feature related to proposed work
 - Property lines nearest proposed work location(s)
- Location(s) of proposed modification, lining, repair, or area of suspected release
- Typical cross-sections or detail drawings at each modification or repair location if excavation is necessary
- Any existing UST components affected by the proposed installation

A site plan is **not required** for the following modifications:

- Installation or modification of an ATG
- Installation of a leak detection probe
- Installation of a MLLD or PLLD

Sage Grouse Habitat Conservation Program Certification:

Is the proposed work located in core, general or connectivity sage grouse habitat, as designated by the Sage Grouse Habitat Conservation Program (Program) at <https://sagegrouse.mt.gov>. Yes No If yes, attach the documentation from the Program showing compliance with Executive Order 12-2015 and the Program's recommendations, if any. This process can take between 40-65 days.
