

INSTRUCTIONS FOR
Form NOT: Notice of Termination Pesticide General Permit (MTG870000)

Section A – Permittee (Owner/Operator) Information

The Department assigns a permit tracking number (NOI number) as soon as a NOI is submitted. The NOI number is provided to the permittee on a letter of acknowledgement. Include this number on the NOT form.

Provide the owner/operator name and contact information. The permittee owner/operator name is the same as the applicant owner/operator name as provided in Section C of the NOI, and is the entity legally responsible for compliance with the Pesticide General Permit (PGP).

Section B – Basis for Termination

The owner/operator must briefly describe the reason(s) for requesting termination under the Pesticide General Permit.

Please note that the owner/operator will need to submit a new NOI to the Department if they intend to apply pesticides to or over the water in amounts greater than the threshold after requesting the termination.

Section C – Certification

The NOT form certification must be completed by the owner/operator signatory. The requirement for a signatory, described on the form, is required under ARM 17.30.1323.

There is no fee associated with the NOT form. However, the permittee is responsible for paying the annual fee for the last year of permit coverage. If the fee is not paid prior to termination, the Department will issue an invoice to the owner/operator.
