

About The Annual Spring Schools

The **Billings** Spring Water School will be a two and one-half day event designed for both entry-level and experienced operators and managers. It will feature an array of water and wastewater related topics, ranging from wells and lagoons to process control of water treatment and activated sludge facilities to on-site and industrial wastewater systems. Preventive maintenance, safety, and current regulations are a few other examples of topics. Certified operators can earn **free CECs**. An exam review session will run concurrently with the training sessions with the opportunity to take an exam on the last day.

The **Missoula** Spring Water School will be a two and one-half day event that will only provide an exam review session with the opportunity to take an exam on the last day. **CECs will not be offered at this school.**

Certification Review Sessions

YOU MUST STUDY BEFORE YOU COME TO REVIEW

Attendance at Spring School is not required to take an exam. However, along with home-study, the exams should be much easier after a couple of days of intense review at the schools. These sessions are designed to **supplement an individual's study. Please bring your study materials with you!**

Topics will include:

- **Scientific Terms**
- **Lagoons**
- **Mechanical Wastewater Systems**
- **On-site & Industrial Wastewater**
- **Mathematics**
- **Groundwater**
- **Surface Water Treat.**

NO CECs are offered for the review sessions.

Applicants not certified are not required to obtain CEC
