1. Enforcement cases assigned to the Hearing Examiner
  - a. **In the matter of violations of the Water Quality Act by Reflections at Copper Ridge, LLC, at Reflections at Copper Ridge Subdivision, Billings, Yellowstone County (MTR105376), BER 2015-01 WQ and In the matter of violations of the Water Quality Act by Copper Ridge Development Corporation at Copper Ridge Subdivision, Billings, Yellowstone County (MTR105377), BER 2015-02 WQ.** On April 17, 2015, Copper Ridge Development Corporation and Reflections at Copper Ridge, LLC, filed a Notice of Appeal and Request for hearing with the Board.
  - i. **District Court Case:** This matter is before the District Court on judicial review following an intermediate agency ruling. DEQ began separate enforcement actions against Copper Ridge Development Corp. and Reflections at Copper Ridge, LLC, for violations of the Montana Water Quality Act. The enforcement actions were followed by separate administrative appeals. The cases were consolidated before a hearing examiner at Petitioners' request. Following an evidentiary ruling that would allow for the admission of certain photographs, Petitioners moved to separate the cases again because the evidence to be admitted pertained to only one Petitioner. The motion was denied. The hearing examiner also denied Petitioners' subsequent motion *in limine*. Petitioners then filed a petition for judicial review of the hearing examiner's intermediate rulings and named the Board and DEQ as Respondents. The Board filed a motion to dismiss on the grounds that it should not have been named in the petition since it was not a party to the underlying contested case hearing. The

motion was briefed and argued on October 7, 2020. On March 17, 2021, Judge Harada denied the Board's motion to dismiss. She determined that while the Board is not a required party, it may be named as a party on judicial review. She has not yet issued a decision on the underlying petition for judicial review.

The parties then, filed a second motion to extend the stay of the proceedings, seeking to extend the stay for 45-days. A Scheduling Order was issued on June 1, 2021 in which deadlines concerning discovery, expert witness disclosures and any dispositive motions were established.

On May 17, 2021, Hearing Examiner Simon issued an Order on Remand setting the remaining procedural deadlines in this case. The parties have until June 21, 2021 to file dispositive motions. If neither party files dispositive motions, the parties have until July 5, 2021 in which to file proposed hearing dates with Ms. Simon.

- g. **Montana Environmental Information Center, and Sierra Club v. Montana Department of Environmental Quality, Montana Board of Environmental Review, and Western Energy Co. The Board filed a motion to dismiss on the grounds that it should not have been named in the petition since it was the deciding agency, not a party to the underlying contested case proceeding. Judge Bidegaray denied the motion on March 12, 2020. The Montana Supreme Court denied the Board's petition for writ of supervisory control to have the Order reviewed before the case was fully decided by the District Court and remanded the case.

The petition for judicial review has been fully briefed, and the parties presented oral argument on December 16, 2020. Petitioners recently submitted supplemental authority, and the Respondents ( other than BER) responded. Montana DEQ and Western Energy Company (now on remand to the First Judicial District Court as Cause No. CDV 2012-1075). On September 10, 2019, the Montana Supreme Court reversed the First Judicial District Court on decisions of law and determined that DEQ properly interpreted rules implementing the Montana Water Quality Act (specifically ARM 17.30.637(4)). The Court recognized that DEQ has the flexibility to exempt ephemeral waters from certain water quality standards applicable to Class C-3 waters without BER reclassifying the waters. The Court also determined that DEQ lawfully permitted representative sampling of outfalls under Western Energy Company's MPDES permit. The Montana Supreme Court remanded the case back to the District Court for further proceedings to determine certain issues of material fact, specifically whether DEQ acted properly regarding a stretch of East Fork Armells Creek that is potentially

impaired and intermittent, whether it is necessary for DEQ to adopt a TMDL for impaired segments of East Fork Armells Creek, and whether the representative monitoring selected by DEQ is factually supported. The parties are currently proceeding under a scheduling order and have fully briefed pretrial motions.
