

Montana Generation and Transmission Working Group Webinar
October 13, 2020 1:00-3:00
Addressing Resource Adequacy in the Northwest and the Role of Montana Resources

AGENDA

Panel 1: Addressing Resource Adequacy in the Northwest

Panelists:

- Gregg Carrington, NWPP
- Joe Stimatz, NWE
- Brian DeKiep, NWPPCC
- Diego Rivas, NW Energy Coalition

Goal: Discuss resource adequacy purpose, goals, projections and analysis for the region and how the region's utilities are planning to meet resource adequacy needs over the next decade and the effect that resource adequacy programs could have on Montana resources/projects

Panel 2: The Role of Montana Generation in Regional Resource Adequacy

Goal: Provide an overview of the status of proposed MT generation projects with a focus on how developers and regional utilities are valuing MT wind's (and others, as appropriate) contribution to regional capacity constraints and future resource needs.

Panelists:

- Jeff Fox, Renewable NW
- Spencer Grey, NIPPC
- Kevin Yates, Clearway
