

SMART Schools Challenge

\$500 Mini-Grant Application

2022/2023

To jump-start SMART School projects, the Department of Environmental Quality will provide \$500 mini-grants to schools in support of project development and implementation. Applications will be processed on a “first-come, first-served” basis until funding is exhausted. To be considered for a mini-grant, the applying K-12 public school **MUST** also submit a corresponding SMART Challenge registration form in: Energy Efficiency, Upcycling, Alternative Transportation, Renewable Energy, Indoor Air Quality, Sustainable Agriculture, Living Classroom, Industrial Process/Public Infrastructure.
