Wilmington, DE 19890

RE: State of Montana VW Settlement – Semiannual Report
Reporting period April 1 – December 31, 2020

Dear Mr. Crane,

On October 2, 2019, Montana received approval of its first request for disbursement of Trust Assets, commencing Montana’s reporting obligations to the Trustee. As per section 5.3 Beneficiary Reporting Obligations of the Environmental Mitigation Trust Agreement, each Beneficiary shall submit to the Trustee a semiannual report describing the following:

1. The progress implementing each Eligible Mitigation Action during the six-month period leading up to the reporting date (including a summary of all costs expended on the Eligible Mitigation Action through the reporting date), and
2. The status (including actual or projected termination date), development, implementation, and any modification of each approved Eligible Mitigation Action.

Please contact Neal Ullman of my staff if you have any questions about this report. He can be reached at 406-444-6582 or neal.ullman@mt.gov.

In accordance with Section 5.3 of the Volkswagen Environmental Mitigation Trust Agreement for State Beneficiaries, I attest that the information contained in this report is true and correct and that the submission is made under penalty of perjury.

Sincerely,

George Mathieu
Deputy Director
Montana Department of Environmental Quality
Beneficiary: Montana Department of Environmental Quality

Eligible Mitigation Action Title: Class 4-8 School Bus, Shuttle Bus, or Transit Bus

Reporting Period Covered: 04/01-12/31/2020

*Total administrative expenses includes $1,422.29 of administrative expenses incurred in September 2019 in accordance with Montana’s mitigation plan.*

**Narrative:** The Montana Department of Environmental Quality (DEQ) posted a Request for Applications in January 2019 for the Clean Transit Bus program, offering up to $2,500,000 to provide reimbursement funding for eligible transit bus replacement projects. The purpose of this program is to support the overall goal of the Volkswagen Environmental Mitigation Trust (EMT), reduction of mobile source NOx emissions, while also achieving the goals outlined in Montana’s Volkswagen EMT Beneficiary Mitigation Plan, and the Class 4-8 School Bus, Shuttle Bus, or Transit Bus Eligible Mitigation Action. The program is to fund the replacement of 2009 engine model year or older class 4-8 transit buses with new all-electric, diesel hybrid, compressed natural gas (CNG), or propane transit buses.

In 2019, the Clean Transit Bus program received two applications in two grant rounds for a total of $2,000,000 to fund the replacement of four diesel transit buses with electric-powered transit buses and associated charging infrastructure. As of this semiannual report, a contract has been signed with one of the applicants, the Missoula Urban Transportation District (MUTD), to replace two diesel transit buses with electric-powered transit buses and to purchase charging infrastructure.

DEQ’s contract with MUTD requires that the mitigation action be completed by August 21, 2021.
Beneficiary: Montana Department of Environmental Quality
Eligible Mitigation Action Title: Light Duty Zero Emission Vehicle Supply Equipment
Reporting Period Covered: 04/01-12/31/2020

**Narrative:** The Montana Department of Environmental Quality (DEQ) posted a Request for Applications in August 2019 for the Charge Your Ride program, offering up to $300,000 to provide reimbursement funding for installation of electric vehicle charging stations. The purpose of this program is to support the overall goal of the Volkswagen Environmental Mitigation Trust (EMT), reduction of mobile source NOx emissions, while also achieving the goals outlined in Montana’s Volkswagen EMT Beneficiary Mitigation Plan, and the Light Duty Zero Emission Vehicle Supply Equipment Eligible Mitigation Action. The program is to fund the installation of Level 2 and Level 3 electric vehicle charging stations.

In 2019 and 2020, the Charge Your Ride program made 15 grant awards for the installation of 22 dual-port Level 2 stations, five single-port Level 2 stations, and three Level 3 fast-charging stations for a total of $288,656. As of this semiannual report, a contract has been signed with nine of the applicants and one, Gallatin Import Group, been successfully completed.

DEQ’s grant agreements requires that the mitigation actions be completed by September 30, 2021.

**Narrative:** The Montana Department of Environmental Quality (DEQ) posted a Request for Applications in October 2019 and April 2020 for the Clean School Bus program, offering funding to provide reimbursement funding for eligible school bus replacement projects. The purpose of this program is to support the overall goal of the Volkswagen Environmental Mitigation Trust (EMT), reduction of mobile source NOx emissions, while also achieving the goals outlined in Montana’s Volkswagen EMT Beneficiary Mitigation Plan, and the DERA Option Eligible Mitigation Action. The program is to fund the replacement of model years 1996-2019 diesel-powered C and D type school buses with new, battery-electric school buses or school buses with low NOx engines and replace model years 1996-2009 diesel-powered C and D type school buses with propane and cleaner diesel buses.

The Clean Transit Bus program received 18 applications in two grant rounds to fund the replacement of 18 diesel school buses with six low NOx certified propane buses, two propane buses, and 10 cleaner diesel buses. As of this semiannual report, a contract has been signed with all 18 of the applicants and three have been successfully completed.

DEQ’s contracts requires that the mitigation actions be completed by August 31, 2021.
