Administrative Rules of Montana 17.56.101 DEFINITIONS

(3) “Active Tank” means, for the purpose of determining operating permit and compliance inspection requirements in subchapter 3 and closure requirements in subchapter 7, an underground storage tank that is being used, or is capable of being used for dispensing, depositing or storing a regulated substance and is not inactive as defined in (31).

(45) “Out of Service” means that the normal operation of the UST system is discontinued as characterized by the fact that no regulated substances are being deposited into or drawn from the system, and;

(a) leak detection or leak prevention procedures are not conducted in a manner normally associated with an in-service system of a similar type and purpose; or

(b) for emergency generator tanks, used oil tanks, heating oil tanks or hazardous substance tanks, the infrequent use of the UST system cannot be justified as part of its purpose.

(31) “Inactive Tank” means, for the purpose of determining operating permit and compliance inspection requirements in subchapter 3 and closure requirements in subchapter 7, an underground storage tank for which the department has received written notice, in accordance with ARM 17.56.701, that the tank is currently not being used for dispensing, depositing or storing a regulated substance.
