

# Asbestos Control Program

## Review & Issuing of Permits

**10 Day wait** –for all Demolition Acknowledgments and Asbestos Project Permits with quantities as stated below, the clock starts the day after both the application and fees have been received.

160 square feet or greater

260 linear feet or greater

35 cubic feet or greater

**5 Day wait** – for Asbestos Project Permits with quantities as stated below and all Transport and Disposal only Permits (T&D), regardless of the quantity, the clock starts the day after both the application and fees have been received.

10 - 159 Square Feet

3 - 259 Linear Feet

3 – 34 Cubic Feet

- For projects with quantities that do not meet the permitting requirement (i.e. 9 sq. ft, 2 ln. ft., 2 cu. ft. or less) do not require an Asbestos Project Permit. If a client chooses to permit regardless of quantity or residential status the Administrative Rules of Montana (ARM) and the conditions of the permit apply to the project.
- Projects with associated fees of \$3,000.00 or less will be issued in 7 calendar days but are only effective after the NESHAP's 10 working day wait period unless they meet the above 5 day requirement.
