# I. INTRODUCTION

This annual report adheres to the Operating Agreement negotiated between the State of Montana and the Environmental Protection Agency (EPA) concerning the administration of the Drinking Water State Revolving Fund (DWSRF). The annual report summarizes DWSRF activities for the state fiscal period beginning July 1, 2017, and ending June 30, 2018 (State Fiscal Year (SFY) 2018).

The DWSRF program was established as a result of the 1996 Amendments to the Federal Safe Drinking Water Act (SDWA), which provided the authority for EPA to make capitalization grants to states. The grants, in conjunction with state matching funds, are used to provide financial assistance for the construction of drinking water projects and support administration of the state program.

In anticipation of the 1996 Amendments to the Federal SDWA, the 1995 State Legislature, under Title 75, Chapter 6, Part 2, Montana Code Annotated, passed the enabling legislation, entitled the Safe Drinking Water Treatment Revolving Fund Act, giving authority to the Montana Department of Environmental Quality (DEQ) and Montana Department of Natural Resources & Conservation (DNRC) to adopt administrative rules to implement the program. Legislation also provided the ability to generate state matching funds through the sale of state General Obligation Bonds (GO Bond Authority). Amendments to the Drinking Water State Revolving Fund Act were passed in the 1997, 1999, 2001, 2003, and 2005 Legislative Sessions. The 1997 amendments changed the title of the Act from "Safe Drinking Water Treatment Revolving Fund Act" to "Drinking Water State Revolving Fund Act" and also made other changes consistent with the Federal Act. During the 1999 Legislative Session, the 1999 amendment clarified the transfer language between the DWSRF and Water Pollution Control State Revolving Fund (WPCSRF) programs and added GO Bond Authority. The 2001 amendment authorized the program to advance funds to projects funded, in part, by the federal government when federal funding was approved but not appropriated. This provides interim financing until those federal funds become available. The 2003 amendment increased GO Bonding Authority by \$10 million, raising the total to \$30 million. The 2005 amendment authorized the issuing of Revenue or Grant Anticipation Notes (GAN) as well as authorized limited principal forgiveness to disadvantaged communities.

## II. EXECUTIVE SUMMARY SFY18

During SFY18 Montana applied for the Federal Fiscal Year (FFY) 18 capitalization grant. This grant was awarded July 24, 2018.

Since the inception of the DWSRF, Montana has issued six GO Bonds, five Bond Anticipation Notes (BAN), and four Revenue Anticipation Notes (RAN). These proceeds have been used as state match for loans, set asides, and program administration. Montana issued its first GO Bond in October 1998 (SFY99), its second GO Bond in April 2000 (SFY00), its third GO Bond in June 2001 (SFY01), its fourth GO Bond in June 2003 (SFY03), its fifth GO Bond in May 2005 (SFY05), and its sixth GO Bond in May 2010 (SFY10). The total amount of bonds, BANs, and RANs issued to date is \$33,395,000, with other state funds generated, match is \$42,896,668. A summary of these bond issues is provided in **Exhibit 1**. (Montana is planning for its sixth BAN late in calendar year 2018.)

**Exhibit 1**, Sources of DWSRF Funds through SFY18, provides a complete tabulation of capitalization grant awards received through June 30, 2018; projected state match; binding commitments for loan projects

through SFY18; and GO Bonds, BANs, and RANs, and other state match issued for total state match. The combination of capitalization grants and bond proceeds provided the needed funds for DWSRF projects, set asides, and program administration during SFY18. In addition, DNRC provided a portion of their program administration services as an in-kind contribution in the amount of \$-0- for SFY18.

During SFY18, the DWSRF program executed 22 project loan agreements totaling \$26,778,203, (not including Bond Anticipation Notes –BAN). For a detailed breakdown of all DWSRF loan agreements signed and key dates of project activity that occurred in SFY18, refer to **Exhibit 2**: DWSRF Capitalized Grant Closed Loans for SFY18, and **Exhibit 3**: DWSRF Recycled Closed Loans for SFY18.

Detailed information concerning use of DWSRF funds, accomplishments of the program, and adherence with the stated goals of the program is provided on the following pages.

### III. GOALS OF THE DWSRF

The following sections describe the goals of the DWSRF program as identified in the SFY18 Intended Use Plan (IUP) and discuss how these goals were achieved through the activities performed by DNRC and DEQ personnel throughout the course of SFY18.

#### LONG-TERM GOALS

- 1. To continue building and maintaining a permanent, self-sustaining SRF program that will serve as a cost-effective, convenient source of financing for drinking water projects in Montana.
  - Projects funded during SFY18 met all program requirements governing financial capability to assume debt. Twelve of 21 loans received an interest rate of 2.50% on their loans (well below market rates), and 6 of the 21 received principal forgiveness. In addition, three projects received an interest rate of 2.50% under the refinancing criteria, and one community received an interim loan at 1.25% to pay for engineering. These factors illustrate that the assistance is affordable. Refer to **Exhibits 2** and **3**. A copy of the cash flow with all the activity through SFY18 is included in this report as **Appendix A**.
- 2. To provide a financing and technical assistance (TA) program to help public water supplies achieve and maintain compliance with federal and state drinking water laws and standards for the protection and enhancement of Montana's public drinking water.
  - To promote the availability of these DWSRF program services during SFY18, DWSRF staff presented information at a variety of events. This included an infrastructure workshop at the annual Montana Rural Water Systems Conference in Great Falls, and one-on-one meetings with community leaders.
  - Please also refer to the project descriptions and discussion of set-asides provided in **Section V**: Details of DWSRF Activity.

#### **SHORT-TERM GOALS**

1. To continue implementation and maintain the DWSRF program in Montana.

Since the approval of its DWSRF loan program and first capitalization grant award, Montana has been awarded 20 more capitalization grants; issued matching GO Bonds, BANs, and RANs; utilized the provision to transfer funds between the WPCSRF and DWSRF; and generated other revenue from loan repayments and interest investments. The amount of closed loans through June 30, 2018, now totals \$320,105,918. Please see **Appendix D** project list and location map.

2. To fund projects that address specific and immediate requirements of the SDWA, including the Disinfectant/Disinfection Byproducts (DBP), Long Term 2 Enhanced Surface Water Treatment, and Arsenic Rules, Montana anticipated funding at least nine projects to address water treatment in SFY18.

The anticipated projects for water treatment listed in the SFY18 IUP were for the Town of Denton, City of Ronan, City of Big Timber, Yellowstone Boys & Girls Ranch WSD, the Town of Whitehall, the Town of Flaxville, the City of Laurel, Glendive, and the City of Great Falls. Ronan Denton, and Great Falls closed loans and their projects are at various stages of design or construction. The other projects listed above are expected to close a loan in SFY19.

3. To fund projects that promote regionalization and/or achieve consolidation of two or more existing public water supplies, thereby improving water quality. Montana expected to fund five consolidation projects in SFY18.

Three consolidation project loans were closed during SFY18 for the Upper/Lower River Road WSD (Great Falls), the Dry Redwater Regional System, and the Town of Froid (in conjunction with connecting to the Dry Redwater Regional System). The Dry Prairie Regional Water System is expected to close additional DWSRF loans later in SFY19.

4. To fund projects that address replacement of aging infrastructure. Montana anticipated funding at least 8 projects of this type in SFY18.

Six new projects (8 loans) were funded in SFY18 to replace aging infrastructure. These projects were the Ramsay WSD, the City of Three Forks, the Town of Fromberg, the City of Conrad, the Lockwood WSD, and the City of Malta. They totaled \$3,753,100 and were funded from the 2015 and 2016 grants, along with bond proceeds, and recycled funds.

5. To fund projects that develop system sustainability through financial capacity by refinancing existing debt. One refinancing loan was expected in SFY18.

Three loans were closed in SFY18 to refinance debt previously incurred. In addition, several loans are anticipated in SFY19 for this purpose.

6. To ensure the technical integrity of DWSRF projects through the review of planning, design plans and specifications, and construction activities.

DEQ's trained technical staff continues to use the DWSRF Handbook of Procedures and knowledge gained from many years of operating both SRF programs to ensure that this objective is met. The Handbook of Procedures is used as a guide to ensure that all state and federal laws governing the technical aspects of each project are satisfied. Steps were taken to update the Handbook of Procedures and streamline checklists and processes. A final revised edition was submitted to EPA in September 2001. This effort was completed in early SFY02. It was again reviewed and updated during SFY06, with some minor revisions made in 2007 and 2008. Another review was completed in SFY16. It was crosschecked with the WPCSRF handbook for consistency, and was submitted to EPA later in SFY17.

Staff attend training seminars and workshops to maintain and improve technical, financial, and programmatic knowledge. In SFY18 Anna Miller, Bill Herbolich, and Mark Smith, attended the Council of Infrastructure Financing Authorities (CIFA) National Workshop; Anna Miller, Diana Hoy, Robert Ashton, Marc Golz, and Mark Smith attended the Montana Rural Water Systems Conference; Gary Wiens, Robert Ashton, Marc Golz, and Mark Smith attended Montana's American Water Works Association (AWWA) Conference; and Anna Miller and Mark Smith attended the CIFA Legislative Conference.

- 7. To provide outreach to communities and utilize the set-aside funding by:
  - a. providing TA to water suppliers who request help with their system operation and maintenance (O&M) procedures
  - b. providing financial and managerial assistance as part of capacity development education to those water supplies who request this type of help
  - c. assisting communities with the next phase of implementation of their Source Water/Wellhead Protection Plans
  - d. emphasizing that Public Water Supply Program (PWSP) staff perform sanitary surveys; facilitate SDWA compliance of the Long Term 2 Enhanced Surface Water Treatment, Stage 2 Disinfectant/Disinfection By-Products, Groundwater, and Arsenic Rules
  - e. ensuring that 95% or more of the state's community and non-transient non-community water systems continue to have certified operators

Please see discussion of individual set-aside activities and accomplishments in **Section V**: Details of DWSRF Activity (F: Set-Asides).

8. To ensure the financial integrity of the DWSRF program through the review of the financial impacts of the set-asides and disadvantaged subsidies and individual loan applications and the ability for repayment.

See **Appendix A**: Cash Flow Model SFY18.

9. To ensure compliance with all pertinent federal, state, and local safe drinking water rules and regulations.

To the best of our knowledge, the DWSRF program has ensured Public Water Supply Supervision (PWSS) compliance through the projects that have been funded and the various set-aside activities. Close coordination with the PWSS program has been essential in this effort.

#### IV. FINANCIAL REPORTS

The Montana Legislative Audit Division (LAD) has completed their audit work for SFY17. Financial statements were presented to the Legislative Audit Committee (LAC). A qualified opinion was issued for the financial statements. A copy of the report was submitted to EPA Region VIII.

DEQ and DNRC engaged LAD to audit SRF financial activity beginning in SFY98. This decision was based on a new audit requirement conveyed in a directive from the Office of Water, Inspector General's Office, and the Office of Management and Budget.

The SFY18 unaudited financial statements for DWSRF, including footnotes, are included as **Appendix B**. The SFY18 audit should be complete by May 2019.

# V. DETAILS OF DRINKING WATER STATE REVOLVING FUND (DWSRF) ACTIVITY

#### A. LOAN ASSISTANCE

It should be noted that for reporting purposes, beginning in SFY11, binding commitment dates and amounts are now identical to loan closing dates and amounts in an effort to simplify the reporting process.

During SFY18 the DWSRF program closed 22 loans. Eighteen new loans initiated construction, and 10 projects were completed. The rate of construction with respect to fund disbursements at fiscal year-end was approximately 96.4% (\$308.5 million in disbursements and \$320.2 million in loans). The overall fund utilization rate is approximately 88.4%(\$320.2 million in loans; \$362.3 million in available funds. Re. EPA).

### **Project Bypass**

If it is determined by DEQ that a project or projects are not ready to proceed or that the project sponsors have chosen not to use the DWSRF funds, other projects may be funded in an order different from that indicated on the priority list. If DEQ chooses to bypass higher-ranked projects, it should follow the bypass procedure.

Montana bypassed 104 projects on its priority list with the funding of the City of Three Forks loan, ranked 116. Eleven other communities (20 loans) closed loans. The higher-ranked projects were not ready to proceed at the time, or perhaps were being financed by other funding entities. They were bypassed to fund lower-ranked projects that were ready to proceed with construction or that had

already been constructed and desired refinancing to improve financial capacity. Refer to **Exhibit 2**: DWSRF Capitalized Grant Closed Loans for SFY18, and **Exhibit 3**: DWSRF Recycled Closed Loans for SFY18. Notification of bypass describing proposed projects to be funded and assurance of available funds for all anticipated loan applications was sent to bypassed communities. No responses were received. No emergency projects were funded in SFY18. The status of top-ranking individual projects on the priority list that were bypassed is discussed below.

- 1. Town of Denton. The system has negotiated a compliance schedule with DEQ, which included applying for other state grant funding in 2017. An application to RD has been submitted. A SRF loan was closed SFY18 for engineering services.
- 2. *Crow Tribe*. The system has obtained alternative federal grant funding sources for source water treatment. SRF Funding may still be desirable for distribution improvements, but that project will need to be re-ranked on the priority list and needs to be removed.
- 3. Carter-Choteau Co. WSD. An SRF loan was closed in SFY13 and a water treatment project was completed. The WSD has also completed phase 2 of the project which consists of booster pump station improvements in SFY16. This project was inadvertently left on the priority list and needs to be removed.
- 4. *Eureka*. Construction of a new membrane filtration plant is complete. The plant is on-line, treating water, and in the first-year performance warrant period.
- 5. *City of Ronan.* An SRF loan to construct a treatment plant building addition and to install filtration equipment was closed in SFY17. Construction is under way and nearing substantial completion.
- 6. *Eureka*. This is an inadvertent duplicate of project No. 4 above and needs to be removed from the priority list.
- 7. South Winds WSD. An SRF loan to construct a water system improvements project was closed in SFY16, and construction was completed in SFY17. The next phase, consisting of water (and sewer) main replacement, is scheduled to begin in Late SFY 2019.
- 8. *Upper/Lower River Road WSD*. Phase V improvements of this project closed a Bond Anticipation Note early in SFY17, and construction was completed. Long term SRF loan was closed early in SFY18, and the project can now be removed from the priority list.
- 9. *Big Timber*. Construction of a new membrane filtration plant started in June 2018. Completion is expected in 2019.
- 10. *Town of Pinesdale*. An SRF loan was closed in SFY17 and construction on a water treatment plant is complete. Performance certification has been received and the project has been closed out. It can be removed from the priority list.
- 11. & 13. Town of Neihart. A preliminary engineering report (PER) has been submitted for the project and the system is pursuing other grant funding. An SRF loan application may be submitted in the future, but the exact status of the project is unknown.

- 12. Yellowstone Boys and Girls Ranch WSD. Engineering plans and specifications for this project was approved by DEQ, and an SRF loan was closed in SFY17. Construction is nearly complete.
- 13. See # 11.
- 14. Whitehall. A PER has been submitted and the town is pursuing grant funds for the project. An SRF Loan Application is expected in 2019.
- 15. *Town of Flaxville*. The town has been working with DEQ to resolve the system's nitrate problems through streamlining existing treatment processes. An SRF loan for additional treatment equipment may still be needed in the future.
- 16. *Town of Philipsburg*. An SRF loan was closed in SFY15 and construction of a treatment building, and UV disinfection system has been completed. This project can be removed from the priority list.
- 17. Dry-Redwater Regional Water Authority. Construction has begun on an extensive distribution system using an interim water supply. An SRF Loan was closed in SFY 2018. An additional loan to fund subsequent phases is expected to close in 2019.
- 18. *Rocky Boys/North Central Regional Water System*. Design is almost completed on the next phase of this project. Other sources of funding, along with an SRF are expected to close in SFY19.
- 19. *City of Laurel.* Treatment plant improvements including a new intake, have completed construction. An SRF Loan was closed in SFY17. An additional SRF Loan for the next phase of improvements is anticipated in SFY19.
- 20. Central Montana Regional Water Authority. The authority is awaiting federal authorization and then will proceed with trying to obtain federal funding. An SRF loan is also anticipated in the future to provide additional funding.

## **Disadvantaged Communities**

Communities seeking a DWSRF loan that meet the disadvantaged community criteria described in the IUP may receive an additional subsidy on their SRF loans beyond the standard below-market rate financing. This includes communities that will meet the disadvantaged criteria based on projected rates as a result of the project.

In SFY18 Montana closed 14 loans with 8 communities meeting the disadvantaged criteria. Some of the loans had a 2.50% interest rate. Some loans were forgiven. One of the loans had an extended term of more than 20 years. The closed loans for disadvantaged communities totaled \$4,436,175 and some had 50%, or up to a maximum of \$500,000, in principal forgiveness for \$1,550,550. In SFY19, we will have several loans with communities that may qualify for disadvantaged assistance.

## **Small Systems**

**Table 1** shows the breakdown of the population served by DWSRF loans in SFY18. We had 22 loans with 13 communities for a total of \$26,778,203601,7. Twelve communities (20 loans) are small systems that serve a population of less than 10,000 people. Small systems represent 31% of the loans we made in SFY18.

Table 1. Population Served by Drinking Water State Revolving Fund (DWSRF) Loans in SFY18

| Public Water Supply        | Population | Loan Amount |
|----------------------------|------------|-------------|
| Conrad                     | 2500       | \$500,000   |
| Conrad Refinance           | 2500       | \$897,000   |
| Cut Bank Refinance         | 2900       | \$866,312   |
| Denton Engineering         | 201        | \$182,000   |
| Dry Redwater Regional      | 152        | \$75,000    |
| Froid B                    | 185        | \$174,000   |
| Froid C                    | 185        | \$174,000   |
| Fromberg A                 | 438        | \$171,800   |
| Fromberg B                 | 438        | \$171,800   |
| Fromberg C Refinance       | 438        | \$481,000   |
| Lockwood                   | 6797       | \$2,000,000 |
| Malta D                    | 2000       | \$690,000   |
| Ramsay A Refinance         | 97         | \$143,000   |
| Ramsay B                   | 97         | \$59,750    |
| Ramsay C                   | 97         | \$59,750    |
| Ronan A                    | 2100       | \$500,000   |
| Ronan B                    | 2100       | \$650,000   |
| Three Forks                | 1964       | \$100,000   |
| Upper/Lower River Road WSD | 41         | \$145,000   |
| Upper/Lower River Road WSD | 41         | \$143,075   |
| Total                      | •          | \$8,183,487 |

## **Summary of Loan Assistance**

In SFY18, the DWSRF maintained steady performance by executing 22 project loan agreements for a total of \$26,778,203. We project in SFY19 that we will execute in excess of \$33,300,000 in loan agreements. See **Exhibit 4**: DWSRF Projected Loan Agreements for SFY19.

#### **B. FIRST-ROUND FUNDED LOANS**

First-round loans are financed with capitalization grants and state match. The DWSRF has financed the projects listed in **Exhibit 2**: DWSRF Capitalized Grant Closed Loans for SFY18.

#### C. RECYCLED FUNDED LOANS

Recycled loans are financed with loan repayments from first round money and funds from transfers from the WPCSRF program. The DWSRF has financed the projects listed in **Exhibit 3**: DWSRF Recycled Closed Loans for SFY18. There were three loans made that used recycled funds in SFY18.

#### D. Source of Funds

Two sources of funds are used to capitalize the DWSRF: (1) the Federal Capitalization Grant, which provides 80% of the DWSRF loan funds, and (2) the state match, funded through the sale of GO Bonds,

RANs, and BANs which provides 20% of the DWSRF loan funds. State legislation originally authorized the sale of up to \$10 million in GO Bonds to match federal grant funds. In the 1999 and 2003 Legislative Sessions, an additional \$10 million of GO Bonds were authorized each time for state match, bringing the total authorized to \$30 million. This amount is adequate to cover funds currently authorized for the program. GO Bonds, plus RANs and BANs, for a total of \$42,896,668 have been issued by the DWSRF program to use as state matching funds through SFY17. See **Exhibit 1**: Sources of DWSRF Funds through SFY18. In SFY18, in-kind services of \$0 have been provided to the DWSRF program by DNRC as match to federal grant funds and were used for program administration. Also, \$11,282,486 of funds, have been transferred from the WPCSRF to the DWSRF for loans to date. See **Exhibits 5** and **5A** for a history of transferred funds between the two SRF programs.

The State of Montana adds a Loan Loss Reserve and an Administrative surcharge to its interest rate. The Loan Loss Reserve funds are used to fund the required reserve for the DWSRF program bonds issued. Amounts over that required reserve are transferred to the principal account to be used for loans or to the debt service account to pay down the debt. The Administrative surcharge is used to fund administrative program costs not covered by the capitalization grants.

#### **SFY18**

Loan Loss Reserve funds collected: \$300,814

Loan Loss Reserve funds transferred to Principal Account: \$0

Loan Loss Reserve funds transferred to Debt Service Account: \$634,545

Administrative funds collected: \$818,284

# E. FEDERAL FUNDS DRAWN BY THE DRINKING WATER STATE REVOLVING FUND (DWSRF) PROGRAM

**Exhibit 6**, SFY18 summary of DWSRF Letter of Credit to Automated Standard Application for Payments (ASAP) Draws, shows project disbursement requests totaling \$7,108,752, Administrative Set-Aside disbursement requests totaling \$404,204, and Non-Administrative Set-Aside requests totaling \$1,587,466. Federal Draws for SFY18 totaled \$9,100,422.

#### F. SET-ASIDES

**Exhibit 7**, DWSRF budget and draws by set-asides, displays the financial summary of non-project activities. DEQ is no longer required to provide a 1 to 1 match for the State Program Management set-asides, which fund Public Water Supply (PWS) Administration, Source Water Protection (SWP), Operator Certification, and Capacity Development. All of the set-aside activities for SFY18 are discussed below.

# **Drinking Water State Revolving Fund (DWSRF) Administration**

The DWSRF sets aside the maximum 4% from the capitalization grants for program administration. Administration activities that occurred in SFY18 include:

DEQ-DNRC contractual activities

- review and assistance during planning, design, project bidding, and construction
- loan origination work, administering repayments
- preparation of bond issuance with state's bond counsel firm of Dorsey & Whitney
- financial modeling
- DWSRF program auditing
- legislatively appointed advisory committee activities
- public comment processes

### **Small Systems Technical Assistance**

Montana has set aside 2% (the maximum allowed) of its FFY97, FFY98, FFY99, and FFY03 DWSRF loan grants for small systems TA. In addition, DEQ has reserved authority for the 2% allocation from the FFY00 and FFY01 grants. No additional funds were set aside from the FFY02 grant and the FFY15 grant. An additional \$135,000 from the FFY04 grant, \$125,000 from the FFY05 grant, \$20,000 from the FFY06 grant, \$95,000 from the FFY07 grant, \$90,000 from the FFY08 grant, \$125,000 from the FFY19 grant, \$211,000 from the FFY10 grant, \$117,500 from the FFY11 grant, \$143,000 from the FFY12 and FFY13 grants, \$80,000 from the FFY14 grant was set aside, there were no additional funds added from the FFY15 grant, \$68,000 from the FFY 2017 grant, and \$75,000 from the FFY 2018 grant for a total of \$2,140,726.

This set-aside is used for contracted services and administration of contracts to meet Montana's goal of providing TA to water supplies with their system O&M procedures. A contract was awarded in 1999 to Midwest Assistance Program (MAP) of Montana to provide O&M TA. The O&M TA contract was re-bid in 2005 and was again awarded to MAP. In April 2013 another request for proposals was issued and a new contractor, Rural and Tribal Environmental Solutions (RATES), was selected to perform TA services. The new contract may be renewed, at the discretion of DEQ, for up to a total of 7 years. Since implementation, the contractor has made approximately 2,206 site visits to small public water supplies for a total cost of approximately \$1,773,880. Evaluations of this service, conducted annually by DEQ, indicate the program is successfully helping small public water suppliers to effectively maintain and operate their water systems. Contracted technicians help water system operators develop or enhance technical capabilities that assist them with meeting the capacity development requirements of the 1996 Amendments to the Federal SDWA.

An evaluation of the contract by DEQ DWSRF staff in April and May 2018 determined that a TA contract should be continued and the contract with RATES was extended through June 30, 2019. The contracted services are provided to systems serving a population of 10,000 or less. Approximately 0.10 Full-Time Equivalent (FTE) is needed to provide contract oversight related to this set-aside in SFY18, with a SFY19 TA contract of \$170,385.

## **Public Water Supply Supervision (PWSS) Set-Aside: Administration**

This set-aside funded salaries, benefits, and operating expenses for 9.30 environmental science specialists and 1.27 administrative personnel (partial FTE of bureau chief, field section supervisor and fiscal) assigned to the Helena, Billings, and Kalispell Offices. The positions are funded through the set-aside grants SFY16, SFY17. The SFY17 grant monies were split between capacity development and PWS. The capacity development monies funded salaries, benefits and operation expenses for 3.60

environmental science specialists and 0.15 administrative personnel. The PWS monies funded salaries benefits and operating expenses for 5.7 environmental science specialists and 1.12 administrative personnel. The environmental science specialist positions assist in capacity development by providing TA to water suppliers, performing sanitary surveys, operator training, and attend critical board meetings. These positions also provided direct assistance to water suppliers in implementation of the Lead and Copper Rule, Phase 2/5 rules, Revised Total Coliform Rule, Consumer Confidence Report Rule, Long Term Enhanced Surface Water Treatment Rules, Filter Backwash Rule, Disinfection/Disinfection By-Products Rule, Radionuclide Rule, Long Term 2, Stage 2 DBP Rule, Groundwater Rule, and the State's ground water chlorination rule. PWS staff conducted 533 sanitary surveys and participated in 421 Technical Assistance functions. These included site visits, phone discussions which included an activity report, inventory updates, and proctoring exams in field offices. The PWS set-aside also funded database development and maintenance expenses associated with implementation, and maintenance of SDWIS/state database, development of an electronic sanitary survey report, associated state-specific Oracle modules, and contracted sanitary surveys for public water supplies. Program staff are participating in the development of SDWIS Prime. All of these activities help the PWSS Program achieve its over-all goal of facilitating SDWA compliance by public water systems.

#### Public Water Supply Supervision (PWSS) Source Water Protection (SWP)

Section 1452(g) (2) (B) of the SDWA allows Montana to set aside a portion of the capitalization grant to "administer or provide technical assistance through source water assessment programs." Set-aside funds were used in SFY18 to administer the SWP Program and provide TA to local communities developing SWP plans. The specific goals achieved that were established in the IUP and set-aside work plan in SFY18 were:

- Spatial datasets describing significant potential contaminant sources to drinking water supplies
  continue to be refined and available to PWS operators and the public. DEQ established new
  web-based services and access to multiple data sets formerly available through the Montana
  State Library. DEQ's access page is available at http://svc.mt.gov/deq/dst/#/home.
- Access to the SWP water sources and protection areas in GIS format is now available through DEQ Data Services Web Page. The Source Water Delineation Reports (SWDARs) and the maps included in the reports are also available from DEQ Data Services Web Page (http://svc.mt.gov/deq/dst/#/app/swp). The GIS data layers and the SWDARs are valuable resources for public water supplies as they assess new and existing potential threats to their source water and as they interact with DEQ in planning new water sources and extensions to their systems.
- Staff presented at the spring and fall Montana Environmental Training Center Water Schools in Billings, Kalispell, and Bozeman as part of continuing outreach and education efforts for Public Water Supply operators. Presentations covered how to access the online Source Water Protection data at DEQ, basics of groundwater flow and protection principles, and a review of the information contained in a SWDAR.
- Updates and additions to the Montana SWP webpage continued through the period.
   Information focuses on issues related to wells, septic systems, and providing quick access to

web-based mapping tools. Factsheets intended for distribution to the public covering a wide range of source water protection topics were updated.

- Montana requires a preliminary source water assessment for agency review to be provided by
  the developer of proposed PWS sources. In SFY18, staff reviewed 54 preliminary source water
  assessments. These reviews help ensure wells are developed with low susceptibility to potential
  contaminant sources (passive protection) rather than needing long-term active SWP planning.
  Pre-development review remains the most cost-effective form of SWP.
- Staff continued to track and advise on groundwater contamination investigations posing risk to
  East Helena drinking water sources. This Superfund site is managed by other programs at DEQ;
  SWP Program involvement is intended to assure the drinking water sources are considered and
  protected. The East Helena site is a former lead smelter with separate plumes of arsenic and
  selenium moving toward multiple PWS sources.
- Provide technical assistance on water quality protection-
  - Work continued on the effort to assess potential threat to PWSs from railroads and petroleum pipelines.
  - SWP staff provided detailed hydrogeologic information and interpretation for other DEQ programs related to source water concerns related to proposed development and unauthorized subsurface waste disposal.
  - SWP staff mapped wildfire boundaries to identify potential wildfire impacts to PWSs, either
    from direct impacts to infrastructure or delayed impacts from burned watersheds. SWP staff
    continued an ongoing project to assess threats posed by future wildfires, based on
    landscape analysis.
  - SWP staff are engaged in internal analysis to determine effectiveness of SWDARs and SWP program. This information may be used to revise source water delineation techniques.
  - SWP staff provided GIS and hydrogeologic analysis to support emergency response to flooding in Lewis & Clark County.

## **Capacity Development**

The 1996 Amendments to the Federal SDWA allow states to use SRF funds to establish authority to enforce capacity requirements and implement a capacity development strategy. This ensures that all new and existing community and non-transient non-community PWS systems have the necessary technical, financial, and managerial capability to comply with all of the primary requirements of the SDWA. The act also requires that systems demonstrate adequate capacity in these areas as a condition of approval for DWSRF loans.

The state could have lost substantial portions of initial capitalization grants if it did not develop and implement strategies to assist existing water systems with capacity development. In 2000 DEQ avoided the first of these withholding provisions by obtaining approval of the state's Capacity Development Strategy for Existing PWS Systems. Subsequent withholding provisions of future capitalization grants can

be avoided by adhering to the approved strategy and complying with the requirements for reporting capacity development improvements to the EPA.

The strategies are a methodology used to identify and prioritize public water systems in need of improving technical, financial, and managerial capacity (a complete copy of the capacity development strategies can be obtained from DEQ). Part of these strategies includes providing assistance to those systems by using set-aside funding. The State of Montana has more than 1,900 public water supplies. Given the large number of systems and a shortage of DEQ staff with the requisite financial and managerial experience, the department has chosen to provide necessary services through a contractor. The department entered into a contract with MAP in March 2001 to provide these assistance services. During the 11 years of this contract, MAP provided in-depth financial and managerial services to 211 different public water systems.

In April 2012 a new request for proposals was issued and three proposals were received. Of these, RATES was successful and was selected to provide financial and managerial assistance services. This new contract, which took effect in September 2012, may be renewed annually, at the discretion of DEQ, for up to a total of 7 years. During SFY18, RATES spent 1195 hours performing 81 site visits at a cost of \$71,700.

These activities achieved the outputs specified in the state's IUP and set-aside work plan by providing assistance to public water systems in need of financial and managerial support. The success of these efforts is documented by the summary reports submitted by the contractor and the consistently favorable response to questionnaires sent to public water systems receiving aid.

## **Public Water Supply Supervision (PWSS) Operator Certification**

This set-aside is used for personal services and operating expenses for staff in the Operator Certification Program. Set-aside funds are used to pay portions of the salary and benefits for full-time program staff positions, administrative staff (partial FTE of bureau chief, IT analyst, rules manager and financial specialist) and program operating expenses.

In the past year, the program had approximately 1,699certified operators, including operators for approximately 732 community systems and 267 non-transient non-community systems. These water and wastewater operators hold 3,240 certifications. This program has conducted or been present at 6 operator certification trainings throughout the state. At these trainings and in the main office, they have proctored 302 exams. Certification program activities include public outreach, collection and processing of applications, collection and processing of exams and certification fees, training, administration of exams, monitoring of continuing education credits, compliance monitoring, and assistance with formal enforcement activities. Annual compliance for SFY18 for non-transient non-community systems ran on average for 12 months at 97.75% to 99.86% average for Community PWS systems in each category having correct certified operators. This achieves Montana's IUP goal of 95%. Compliance levels have increased in the past year and there was a slight drop in certified operators at the end of SFY18.

# **Local Assistance and Other State Programs - Source Water Delineation and Assessment and Wellhead Protection**

The goals established in the IUP and set-aside work plan achieved in SFY18 are:

- Staff met with Montana Rural Water staff to assist drafting and reviewing SWP plans. All of these community water system plans were generated by Montana Rural Water.
- SWP staff continued coordination with DEQ PWS Program in an effort to identify PWS water sources with significant vulnerability intended to result in targeted TA.
- SWP staff completed susceptibility analyses to assess potential for proposed open cut operations to impact PWS sources.
- Source Water Delineation and Assessment Reports continued to be accessible through DEQ's
  Data Search Tools web application. A mapping component allows users to select a PWS location
  and download the Source Water Report and mapping for that PWS to their personal computer.
  These reports and the mapping data are used routinely by others seeking hydrogeologic and
  potential contaminant source information.
- Staff provided MEPA analysis assistance to both the Water Pollution Control State Revolving
  Fund and the Drinking Water State Revolving Fund Programs by reviewing potential
  contaminant sources within wastewater and drinking water infrastructure improvement project
  areas. In SFY18, staff completed 24 site assessments for potential contaminants. This effort
  provides an opportunity for review and update of a communities' source water assessment
  report.

# VI. GRANT CONDITIONS AND CERTIFICATIONS

The State of Montana agreed to the following conditions outlined in the Operating Agreement. These conditions are discussed in more detail throughout the body of this report. To the best of our knowledge, DEQ and DNRC have abided by all requirements of state and federal law in the administration of the DWSRF program.

- (a) Assurance that the State has the authority to establish a Fund and operate the DWSRF program in accordance with SDWA.
  - The State of Montana's authority was re-certified and included with our application for and award of the FFY17 capitalization grant.
- (b) Assurance that the State will comply with State Statutes and regulations.
- (c) Assurance that the State has the technical capability to operate the program.
- (d) Assurance that the State will accept capitalization grant funds in accordance with a payment schedule.
  - Please see Exhibit 7: DWSRF Budget vs. Draw by Category SFY18.
- (e) Assurance that the State will deposit all capitalization grant funds in the Fund or Set-Aside Account.

- (f) Assurance that the State will provide an amount equal to at least 20% of the capitalization grant (State match) in the Fund.
- (g) Assurance that the State will deposit net bond proceeds, interest earnings, and repayments into the Fund.
- (h) Assurance that the State will match capitalization grant funds the State uses for 1452(g)(2) set-asides.
- (i) Assurance that the State will use Generally Accepted Accounting Principles.
- (j) Assurance that the State will have the Fund and set-aside account audited annually in accordance with Generally Accepted Government Auditing Standards.

Please see Appendix B.

- (k) Assurance that the State will adopt policies and procedures to assure that borrowers have a dedicated source of revenue for repayments (or in the case of privately owned system, demonstrate that there is adequate security).
- (I) Assurance that the State will commit and expend funds as efficiently as possible, and in an expeditious and timely manner.
- (m) Assurance that funds will be used in accordance with the IUP.

Please see **Appendix C** (DWSRF IUP and project priority list, SFY18).

(n) Assurance that the State will provide EPA with an Annual Report.

The submission of this annual report will fulfill the State of Montana's responsibility to submit a report.

- (o) Assurance the State will comply with all Federal crosscutting authorities.
- (p) The State agrees that it will conduct an environmental review and a determination will be executed and distributed using a state process consisting of the same level of environmental detail required under the State Environmental Review Process for the DWSRF program.
  - All construction projects that received assistance during SFY18 were reviewed and approved using the Montana Environmental Policy Act (MEPA). It was determined that no Environmental Impact Statements were necessary. A Categorical Exclusion was either granted or an Environmental Assessment was prepared and a Finding of No Significant Impact was issued for all projects.
- (q) The use of set-asides for Administrative Expenses, Small Systems Technical Assistance, State Program Management (PWSS, SWP, Capacity Development, and Operator Certification), Local

Assistance and Other State Programs (Source Water Delineation) will be identified each year in the IUP and established in accordance with the DWSRF program guidelines.

- (r) Specific Requirements under Title XIV
  - 1. In accordance with Section 1420(a) of the SDWA, the State has the authority to ensure that all new community water systems and new non-transient non-community water systems commencing operation after October 1, 1999, can demonstrate technical, managerial, and financial capability with respect to each national primary drinking water regulation in effect.

EPA has reviewed and approved Montana's capacity development authority and strategies. Administrative Rules that implement Montana's strategies became effective on September 10, 1999.

2. The State currently has a water and wastewater treatment plant operator certification program within DEQ's Permitting and Compliance Division.

In addition, the following conditions were given with the Capitalization Grant Award. To the best of our knowledge, DEQ and DNRC have abided by these requirements as well.

- The loan recipients agree to ensure that all space for conferences, meetings, conventions, or training funded in whole or in part with Federal funds complies with the Hotel and Motel Fire and Safety Act of 1990.
- Per EPA Order 1000.25 Recycled Paper, DEQ uses recycled paper for printing reports to be delivered to EPA.
- During SFY18 loan recipients comply with all Federal requirements concerning Disadvantaged Business Enterprises (DBE) Utilization either by project specification or submitting appropriate reports during construction (Minority Business Enterprises/Women Business Enterprises (MBE/WBE) Utilization under Federal Grants).

The state's fair share goal for DBE participation is 5% for SFY17 (2% MBE; 3% WBE). Refer to **Exhibit 8** for the summary of the DWSRF loans - MBE/WBE for contracts awarded during SFY18.

#### VII. CURRENT STATUS AND FUTURE ACTIVITIES

The DWSRF continues to use US Bank as its trustee to manage funds and accounts established under the program. To date this arrangement has been very beneficial. DNRC has Internet access to US Bank accounts, which makes monthly reconciliation of WPCSRF and DWSRF accounts more timely. D.A. Davidson and Co. and Piper Jaffray Inc. continue to act as the DWSRF bond underwriters and financial advisors. Dorsey & Whitney will continue to act as DWSRF bond counsel for the GO Bonds issued in future fiscal years.

DEQ has completed work on the DWSRF project database, which may ultimately include links with the WPCSRF program, the PWSS program, and fiscal services in both DEQ and DNRC. The databases again facilitated federal reporting during SFY18.

The following schedule (**Table 2**) indicates the key dates for continuation of the DWSRF loan program in SFY19.

Table 2. Drinking Water State Revolving Fund (DWSRF) Loan Program Schedule for SFY19

| SFY19            | A 29  |  |  |  |  |  |  |  |
|------------------|---|--|--|--|--|--|--|--|
| <b>Key Dates</b> | Activity  |  |  |  |  |  |  |  |
| July 2018        | Held DWSRF Bi-monthly Meeting   |  |  |  |  |  |  |  |
| September 2018   | Attended All States Meeting   |  |  |  |  |  |  |  |
| October 2018     | Hold DWSRF Bi-monthly Meeting   |  |  |  |  |  |  |  |
| November 2018    | Attend Fall CIFA Conference   |  |  |  |  |  |  |  |
| December 2018    | Hold DWSRF bi-monthly meeting   |  |  |  |  |  |  |  |
| Spring 2019      | Hold infrastructure financing workshops to promote and market DWSRF program |  |  |  |  |  |  |  |
| February 2019    | Hold DWSRF Bi-monthly Meeting   |  |  |  |  |  |  |  |
| April 2019       | Hold DWSRF Bi-monthly Meeting   |  |  |  |  |  |  |  |
| May 2019         | Attend Spring CIFA Conference   |  |  |  |  |  |  |  |
