Subject: 2020 Report to the Governor on the Efficacy and Progress of the State's Capacity Development Strategy

Dear Governor Bullock,

Please find enclosed DEQ's 2020 "Report to the Governor on the Efficacy and Progress of the State's Capacity Development Strategy." This report is required every three years under the Safe Drinking Water Act. It discusses DEQ's capacity development program, its associated statutes and rules, and the efforts that DEQ has made over the past three years to achieve the goal of the program, which is to improve the technical, managerial, and financial capacity of public water systems in Montana.

Please contact me if you have any questions about this report.

Sincerely,

A handwritten signature in blue ink, appearing to read "S. McGrath", is written over a light blue circular stamp.
