I. INTRODUCTION

This annual report adheres to the Operating Agreement negotiated between the State of Montana and the Environmental Protection Agency (EPA) concerning the administration of the Water Pollution Control State Revolving Fund (WPCSRF). The annual report summarizes WPCSRF activities for the state fiscal period beginning July 1, 2021 and ending June 30, 2022 (SFY22).

The SRF program was established as a result of the 1987 Amendments to the Federal Clean Water Act that provided the authority for EPA to make capitalization grants to states. The grants, in conjunction with state matching funds and other general obligation bonds, are used to provide financial assistance for the construction of water pollution control projects, and to support administration of the state program.

Legislative History

The 1989 State Legislature, under Title 75, Chapter 5, Part 11, Montana Code Annotated, passed the enabling legislation entitled the Montana Wastewater Treatment Revolving Fund Act, giving authority to the Montana Department of Environmental Quality (DEQ) and the Department of Natural Resources and Conservation (DNRC) to adopt administrative rules to implement the program. Legislation also provided the ability to generate state match funds, through the sale of State General Obligation (GO) Bonds. Amendments to the Wastewater Treatment Revolving Fund Act were passed in the 1991, 1995, 1997, 1999, 2001, 2003, 2005, 2009, 2011, and 2015 Legislative Sessions.

The 1997 amendments changed the title of the act from "Wastewater Treatment Revolving Fund Act" to the "Water Pollution Control State Revolving Fund (WPCSRF) Act," and added non-point source projects to the project definition. During the 1999 Legislative Session, the 1999 amendment clarified the transfer language between the Drinking Water State Revolving Fund (DWSRF) and WPCSRF Programs and added GO Bond Authority. During the 2001 Legislative Session the definition of non-point source project was expanded. The 2003 Legislative Session added \$10 million to the program bond issuance authority. The 2005 Legislative Session allowed the program to issue Revenue Anticipation Note financing. The 2009 Legislative session added language allowing loan terms to be extended for up to 30 years in certain situations. Additionally, the 2009 legislature gave the WPCSRF program the authority to forgive principal for ARRA-funded projects. The 2011 Legislative session added language to allow principal forgiveness for base (non-ARRA) SRF funding. The 2015 legislature passed language allowing additional extended loan terms to all borrowers, limited to the useful life of the project improvements.

II. EXECUTIVE SUMMARY SFY22

In July 2021, DEQ received its FFY 2021 Capitalization Grant in the amount of \$7,779,000. DEQ also applied for the FFY 2022 Base Capitalization Grant in the amount of \$5,681,000 and the FFY 2022 Supplemental Capitalization Grant in the amount of \$8,738,000. However, those grants were not awarded before the end of SFY2022. There were no transfers between the DWSRF and WPCSRF programs in SFY22.

Through SFY22, Montana has been awarded 33 capitalization grants for a total of \$237,915,765. There were transfers in SFYs 2006, 2009 and 2010 of DWSRF cap grant funds to the WPCSRF program that totaled \$13,000,000. Including the three transfers, the total capitalization grant funds received by the WPCSRF program are \$250,915,765. These federal grant funds were appropriated by Congress to the State of Montana from FFY1989 through FFY2021 (See Exhibit 1).

Since the inception of the WPCSRF, Montana has issued twelve GO Bonds, five Revenue Anticipation Notes (RANs), and twelve Bond Anticipation Notes (BANs), the proceeds of which are used as state match for loans and program administration. The total amount of bonds and notes issued to date is \$112,220,000. A summary of these issued bonds is provided in Exhibit 1. There was a bond anticipation note issued in December 2021 for \$3,800,000 and a bond anticipation note issued in June 2022 for \$1,600,000. Montana is planning for its thirty-first GO Bond in state fiscal year 2023.

Exhibit 1, Sources of WPCSRF Funds through SFY22, provides a complete tabulation of capitalization grant awards received through June 30, 2022, state match, binding commitments for loan projects and program administration for SFY1991 through SFY2022, and GO bonds, BANs and RANs issued for state match. The combination of capitalization grants, bond proceeds, recycled funds, excess loan loss reserve fees and administrative surcharge fees provided the funds for WPCSRF projects and program administration during SFY22. In addition, DNRC occasionally provides a portion of their program administration services as an in-kind contribution. However, in SFY22, DNRC had no in-kind contribution.

The program executed 15 WPCSRF assistance agreements (with 9 different communities) in SFY22 for \$28,774,500 (See Exhibits 2 and 3). It is important to note that some of the projects funded in SFY2022 included 2 (or more) assistance agreements – one for principal forgiveness and one regular SRF loan. Larger projects may be funded with multiple regular SRF loans. Relevant dates and project information have been entered into the EPA Office of Water State Revolving Fund database.

In the SFY 2023 Intended Use Plan (IUP) and Project Priority List (PPL) there are 24 projects listed under the base cap grant funds and 14 projects listed under the supplemental cap grant funds (attachment III and IIIA), which have the potential to execute financial assistance agreements during SFYs 23 and 24. Exhibit 4 (base cap grant) and Exhibit 4A (supplemental cap grant), WPCSRF Projected Financial Assistance Agreements SFY23/24, provides a summary of projected construction starts for these projects.

WPCSRF project activity continues with the review of facility plans for potential projects. In SFY22, approximately ten facility plans were received. It is anticipated that several of the projects that are completing the facility planning phase will commit to WPCSRF loans in SFY23.

In SFY22, there were no transfers from the DWSRF program to the WPCSRF program. A history of transfers and transfer authority is shown in Exhibit 5.

Detailed information concerning use of WPCSRF funds, accomplishments of the program and adherence with the stated goals of the program is provided on the following pages.

III. GOALS AND OBJECTIVES OF THE WPCSRF

The Intended Use Plan (IUP) identifies the long and short-term goals and objectives of the State in managing the program. The State continued to achieve satisfactory progress toward meeting these goals and objectives during SFY22.

LONG-TERM GOALS

The long-term goal of the State Water Pollution Control Revolving Fund is to maintain, restore, and enhance the chemical, physical, and biological integrity of the state's waters for the benefit of the overall environment and the protection of public health. The environmental benefits report for loans closed in SFY22 are typically provided in Appendix C of this document. However, the OWSRF database currently does not have a print option for these reports and therefore they could not be provided. The environmental benefits reports will be included in future annual reports when the capability for printing these reports is provided. Additionally, please see Exhibit 8 for a list of projects that received WPCSRF funding in SFY22.

1. Provide affordable financial assistance for eligible applicants concurrent with the objective of maintaining a long-term, self-sustaining WPCSRF Program.

Projects funded in fiscal year SFY22 met all program requirements governing financial capability to assume debt. Of the 15 loans closed in SFY22, seven received an interest rate of 2.5%, five projects had interest rate of 1.75%, and three received principal forgiveness (see Exhibits 2 and 3). A copy of the cash flow projections with all the activity through SFY22 is included in the report as Appendix A. The cash flow spreadsheets are updated on a quarterly basis to track the activity of the program, which continues to look at the variables to determine the impact they would have on the long-term fiscal health of the WPCSRF.

2. Fulfill the requirements of pertinent federal, state and local laws and regulations governing water pollution control activities, while providing the state and local project sponsors with maximum flexibility and decision-making authority regarding such activities.

The WPCSRF Handbook of Procedures and Montana's Operating Agreement, updated in SFY00, is used as a guide to ensure that all state and federal laws governing the technical aspects of each project are satisfied. The program is in the process of updating the handbook to reflect current practices and regulations.

The input of the state's bond counsel and the local borrowers' counsel is used to ensure that laws regarding the issuance of debt have been satisfied.

Short-Term Goal

The short-term goal of the WPCSRF is to continue to improve the quality of the state's waters (surface and groundwater), meet the wastewater treatment needs of the state, and eliminate any public health hazards related to the discharge of inadequately treated wastewater.

The types of wastewater and non-point source projects that the WPCSRF has financed address this goal. Brief descriptions of these projects are presented in Exhibit 8. Project construction and completed projects in operation move the WPCSRF toward attaining this goal.

SHORT-TERM OBJECTIVES

1. Maintain and promote the WPCSRF Program, which provides low interest financing (up to 100% loans) for eligible municipal wastewater facilities and eligible non-point source projects.

Program staff from DEQ and DNRC continued holding bi-monthly coordination meetings in SFY22. From the inception of the WPCSRF through the end of SFY22, the WPCSRF has closed 524 loans at "below market interest rates". The WPCSRF Loan Program has implemented affordability and hardship criteria based on existing "target rate" analyses developed by other Montana funding agencies, to assist in making infrastructure projects affordable. In addition, in accordance with WRRDA, affordability criteria also include unemployment rates and growth rates.

WPCSRF Staff presented SRF loan information at one infrastructure funding workshop held in March 2022 as well as one-on-one meetings with community leaders. With the addition of non-point source projects and interim financing, the program funds a diverse group of projects. A brochure has been developed for the program, along with a display board for use at conferences to promote the program.

The program's marketing has been successful, as demonstrated by commitment agreements totaling approximately 360% of the cumulative amount of the federal capitalization grants.

2. Ensure the technical integrity of WPCSRF projects through the review of planning documents, design plans and specifications, construction activities and development of a sound operation and maintenance program, including advanced operator training and treatment facility optimization assistance targeted to nutrient removal.

The trained technical staff of the WPCSRF Program continues to use the Handbook of Procedures and knowledge gained from 33 years of WPCSRF Program operation to ensure that this objective is met. Peer reviews are held on each project at the planning and design phases to ensure consistency in the application of technical and regulatory concepts.

Staff attends training seminars and workshops to maintain and improve technical, financial, and programmatic knowledge. In SFY22, Anna Miller of the DNRC attended the Council of Infrastructure Financing Authorities (CIFA) National Workshop in Salt Lake City in October 2021. Anna Miller and Mike Abrahamson, from the DEQ, attended the CIFA 2022 Legislative Conference in Washington, D.C. in April 2022.

Technical training for WPCSRF engineering and operations staff in SFY22 included: Montana Rural Water Conference; MWEA/MAWWA Joint Conference; Montana Storm Water Conference; PFAS Transport, Fate, and Remediation Virtual Training; SRF 101 Workshop; SRF 201 Workshop; Water Environment Federation's Technical Exhibition and Conference; and

various technical webinars presented by Water Environment Federation (WEF) and the Environmental Protection Agency (EPA) and equipment vendors. Attendees included Matt Waite, Steve Lipetzky, Jackie Kuhl, Michele Marsh, and Mike Abrahamson.

3. Ensure compliance with all pertinent federal, state, and local water pollution control laws and regulations.

The WPCSRF program has complied with all federal, state, and local laws during SFY22. This objective is also addressed under long-term objectives (refer to Goals Section III. 2).

4. Obtain optimum turnover of the funds for the State in the shortest reasonable time.

The State continues to directly market the program to communities needing wastewater and non-point source funding. WPCSRF is using its first-round funds, bond proceeds and recycled funds for non-point source and other eligible projects.

In SFY99, WPCSRF changed its policy and expanded the uses of funds by offering a low-cost interim financing option for communities. These loans have a reduced interest rate and are short-term (3 years maximum). They are utilized when grant or loan monies from another funding agency are not available at the onset of construction. In SFY22, the WPCSRF program provided interim financing for three projects at 1.75%.

5. Simplify the administrative and regulatory requirements of the program, without sacrificing project quality, to make the financial assistance readily accessible.

The Water, Wastewater and Solid Waste Action Coordinating Team (W2ASACT) is a consortium of Montana infrastructure financing agencies, nonprofit organizations and other entities that address issues relating to water, wastewater, and solid waste projects. DEQ and DNRC are members of this organization. In previous years, W2ASACT has developed an interagency project database, uniform preliminary engineering report format, a common environmental checklist and a uniform application form. During SFY22, funding agencies within W2ASACT coordinated an infrastructure workshop in conjunction with the Montana Rural Water Conference in Great Falls, MT, to which communities and consultants were invited. Additional discussions were held with U.S. Dept. of Agricultural Rural Development program personnel in order to coordinate funding on co-funded projects using WPCSRF funds.

IV. FINANCIAL REPORTS

The Montana Legislative Audit Division (LAD) completed their audit work of the SFY21 financial statements and presented their audit report to the Legislative Audit Committee (LAC). A qualified opinion was issued for the financial statements and a copy of the report was submitted to EPA Region VIII.

A copy of the SFY22 unaudited financial statements, including footnotes, is included as Appendix B to this annual report. The DNRC will use LAD to complete the audit of the SFY22 financial statements. The LAD will include this audit as part of the Montana statewide audit. We are not sure

of the date the audit will be available.

V. DETAILS OF WPCSRF ACTIVITY

A. WPCSRF SFY22 PROGRAM ACTIVITY

In SFY22, the program closed 15 loans on 9 projects, resulting in binding commitment agreements in excess of approximately 360% of the federal capitalization grants (cumulatively), based on grant payments received four quarters earlier. Exhibit 6, SFY22 Summary of WPCSRF Federal Letter of Credit, Automated Standard Application for Payment (LOC-ASAP) Draws shows administrative disbursement requests for \$333,320 and loan disbursement requests for \$5,134,161 for a total of \$5,467,481 drawn on the Federal Letter of Credit, (LOC-ASAP) during SFY22. State match for these draws, to be used as match on future grants, was \$2,526,325 (See Exhibit 6). Disbursements for \$31,423,500 were drawn on recycled dollars in SFY22.

The State of Montana adds a Loan Loss Reserve and an Administrative Surcharge to its interest rate for each loan. The Loan Loss Reserve funds are used to fund the required reserve for the Water Pollution Control SRF program bonds issued. Amounts over that required reserve are periodically transferred to the principal account to be used to fund loans. The Administrative Surcharge is used to fund administrative program costs not covered by the capitalization grants. As reported in the Intended Use Plans and in the annual NIMS reports, these surcharges are also applied to the match requirements for the capitalization grants. The amount of funds collected and transferred to the principal account in SFY22 are as follows:

Loan Loss Reserve funds collected: \$729,370.14.

Loan Loss Reserve funds transferred to Principal Account: \$0

Administrative fees collected: \$1,160,104.80

In addition to funding administrative program functions, the Administrative Surcharge funds were used to fund other water pollution control activities eligible under the Clean Water Act. These activities included partial funding of a wetland coordinator position at Montana DEQ, personal services and operating expenses for a wastewater technical assistance provider within DEQ, funding for advanced training workshops and site visits for operators aimed at reducing nutrient pollution through advanced operational concepts and optimization of operations in lagoons and mechanical treatment facilities, and funding of wastewater operator training through the Montana Water and Wastewater Operators Initiative (MW2OI), which provides specific education to water and wastewater operators in Montana. In addition, basic legal and fiscal services within DEQ that were associated with the WPCSRF program were also funded with special administrative surcharge funds. The total expenditures for these activities in SFY22 were \$802,153. Special Administrative Surcharge funds in excess of those needed for these activities and administrative functions are transferred periodically to the principal account.

Administrative expenses for SRF staff at DEQ and DNRC totaled \$912,349 for SFY22.

Exhibit 8 shows the WPCSRF projects that received funding in SFY22. This includes projects that executed financial assistance agreements in SFY22, and those projects initiated in prior years that continued with construction.

Exhibit 9 shows a map of all WPCSRF projects, along with a tabulation of corresponding loans.

B. FIRST-ROUND FUNDED LOANS

First-Round loans are financed with capitalization grants and state match. All of these projects are treated as equivalency projects funded from the 2019, 2020, and 2021 capitalization grants. The WPCSRF has closed loans for the following projects in SFY22 using first round funds: Belgrade, Missoula Caras Park, Polson (PF only), Roberts /Carbon Co. (PF only), and Twin Bridges. Please see Exhibits 2 and 8 for tabulated information regarding these projects, including amounts of forgiven principal. Exhibit 3 shows the RDB 24 project which provides funds for agricultural irrigation projects to meet the green project reserve requirement for the 2021 capitalization grant.

C. SOURCE OF FUNDS

Two sources of funds are used to capitalize the WPCSRF: (1) the Federal Capitalization Grant, which provides 83.33% of the WPCSRF first round loan funds; and (2) the state match, funded through the sale of GO bonds, which provides 16.67% of the WPCSRF loan funds for first-round projects. State legislation originally authorized the sale of up to \$10 million in GO bonds to match federal grant funds. In the 1995 Legislative session, an additional \$5 million of GO bonds was authorized. The 1999 Legislative session authorized an additional \$15 million for state match. The 2003 session added another \$10 million, and the 2021 session added \$30 million, bringing the total outstanding bonding authority to \$70 million. This amount is adequate to cover the federal funds currently authorized for the program. Through SFY22, \$112,220,000 of GO bonds, RANs and BANs have been issued by the WPCSRF program to use as state matching funds for past, current, and future grants (see Exhibit 1).

Due to the varied demand for WPCSRF loans, Montana has issued GO bonds on an as-needed basis, rather than on an annual basis, to minimize the effects of carrying negative charges to the program.

WPCSRF Anticipated Activity in SFY23

The following schedule indicates the key dates for continuation of the Water Pollution State Revolving Fund Program for SFY23.

SFY23 Estimated Key Dates	Activity
August 2022	WPCSRF Bi-Monthly Meeting
October 2022	WPCSRF Bi-Monthly Meeting
November 2022	CIFA Workshop, St. Louis MO
December 2022	WPCSRF Bi-Monthly Meeting
February 2023	WPCSRF Bi-Monthly Meeting

March 2023	Montana Rural Water Systems Annual Conference
April 2023	WPCSRF Bi-Monthly Meeting
April 2023	CIFA Legislative Workshops, Washington, DC
May/June 2023	Prepare 2024 Intended Use Plan/PPL
June 2023	WPCSRF Bi-Monthly Meeting

VI. GRANT CONDITIONS AND CERTIFICATIONS

The State of Montana agreed to the following conditions outlined in the Operating Agreement and Capitalization Grant Award. The following narrative discusses these requirements and how they were addressed by the State. To the best of their knowledge, DEQ and DNRC have abided by all requirements of state and federal law in the administration of this program.

- A. Drug Free Workplace Act of 1988 -- The DEQ on April 17, 1989, adopted procedures to comply with this Act.
- B. EPA Order 1000.25, Recycled Paper -- DEQ is using recycled paper for printing reports to be delivered to EPA.
- C. Minority Business Enterprises/Women Business Enterprises (MBE/WBE) Utilization Under Federal Grants -- During SFY22, loan recipients were required to comply with all federal requirements concerning Disadvantaged Business Enterprises (DBE) utilization by project specification, bid submittals and submitting appropriate reports during construction. The state's fair share goal for DBE participation is 5%. Refer to Exhibit 7 for the summary of the WPCSRF Loans-MBE/WBE for contracts awarded during SFY22. While DBE solicitation was part of each bid package and contractors did make a "good faith effort" there were no certified DBE companies utilized during SFY22.
- D. Payment Schedule -- The State has accepted payments in accordance with the payment schedule (if any) listed in the grant. The WPCSRF continues to use cash-flow projections to help manage program funds. The State has gained knowledge in managing the WPCSRF program in the past 33 years and continues to use this experience to provide disbursement projections.
- E. Cash Flow Analysis was prepared for the WPCSRF program in SFY22. (See Appendix A WPCSRF State of Montana Cash Flow Model). Cash flow projections are also prepared two to four times per year to predict the balance of the loan fund resulting from current and future projects, and their anticipated draws.

- F. Funding Local Debt Reserves -- Use of WPCSRF funds for funding debt reserves was restricted by a special condition of the original capitalization grant. Through negotiations with EPA, this condition was amended allowing loan funds to be used to establish debt reserves, which is an underwriting criterion established for Montana's program.
- G. Assistance for Section 319 Projects – In SFY98 WPCSRF implemented a combined approach to the project priority ranking system that includes NPS projects. Montana continues to coordinate with other state programs to incorporate section 319 activities and goals. The WPCSRF has added eligible 319 projects to the IUP/PPL and has funded some of these projects. Projects are ranked based on water quality impacts identified on the 303(d) list, but projects are no longer prioritized by watershed. Point and Non-point source projects are ranked similarly and are included in a single, comprehensive priority list.
- H. Davis Bacon – The WPCSRF program has required that all 212 projects receiving SRF funds (for loans closed after 10/31/09) incorporate Davis Bacon requirements in the project specifications. In addition, the loan recipients were required to collect weekly payrolls, conduct interviews to ensure that Davis Bacon wage requirements were met, and then certify, along with the prime contractor, that the requirements were met at the end of the project. Project inspections by WPCSRF staff included Davis Bacon follow-up.
- I. Green Reserve Requirements - The WPCSRF program has meet the green reserve requirements of all capitalization grants, categorically.
- J. Review of projects for Title II requirements, eligibility, federal cross cutters, etc. has been done in accordance with the WPCSRF Handbook of Procedures, which was designed to ensure adherence to all applicable Federal laws and regulations. All projects funded during the period of this report have met Title II requirements.
- K. An audit report governing WPCSRF activity for SFY22 will be prepared and submitted to the Region VIII EPA Office. The Montana Legislative Audit Division plans to complete their SFY22 audit report in the spring of 2023.
- L. Environmental Benefits – Beginning in SFY06, the program has performed environmental benefits reporting for all projects by assessing core environmental measures using EPA's on-line reporting form. The environmental benefits report for loans closed in SFY22 are typically provided in Appendix C of this document. However, the OWSRF database currently does not have a print option for these reports and therefore they could not be provided. The environmental benefits reports will be included in future annual reports when the capability for printing these reports is provided.
- M. American Iron and Steel (AIS) – In FFY14, Congress added the requirement that all SRF funded projects for wastewater collection and treatment must incorporate

American Iron and Steel, with some noted exceptions, into the project. The WPCSRF program has met this requirement by notifying all engineering consultants of the requirement and included language in all project specifications requiring AIS. All project specifications were reviewed by WPCSRF engineers for compliance prior to approval of the specifications. Project owners, contractors and equipment manufacturers are required to certify to AIS compliance.

- N. Architectural and Engineering Procurement – In FFY14, Congress added the requirement that SRF funds in the amount equivalent to the federal grant must meet the federal requirements for architectural and engineering (A&E) procurement. Although Montana’s state A&E procurement requirements are very similar to the federal requirements, they are not identical. Therefore, the federal requirements will be followed on an equivalency basis. That is, for the amount equal to the federal capitalization amount.
- O. Affordability - In FFY14, Congress added the requirement that affordability criteria include median household income, unemployment rates and growth rates. The unemployment and growth rates are now factored into the overall decision matrix used in the selection of which projects receive principal forgiveness.

VII. CURRENT STATUS AND PROPOSED IMPROVEMENTS

The WPCSRF continues to use US Bank as its trustee to manage funds and accounts established under the program. To date, this arrangement has been very beneficial. D.A. Davidson and Co. and Piper Jaffray Inc. continue to act as the WPCSRF bond underwriters and financial advisors. Dorsey & Whitney will continue to act as WPCSRF bond counsel for the general obligation bonds issued in future fiscal years.

EXHIBIT 1: SOURCES OF WPCSRF FUNDS THROUGH SFY 22

Grant Number, Award Date & Year Funds Appropriated	State Fiscal Year Activity	Cap. Grant Amount	Projected State Match	Project and Admin. Commitments by Fiscal Year		Actual State Match GO Bond Issues	Other State Match
1. CS300001-90-1 7/28/90; 1989	1991	\$4,577,200	\$915,440	\$10,179,953	1	\$ 2,595,000

EXHIBIT 8: FINANCIAL ASSISTANCE PROVIDED IN SYF22

Total Amount Spent in SFY22	Project Name	Project Description	Categories
\$1,659,109.00	Absarokee Wastewater Treatment Improvements	Improve existing lagoons with new blower and aeration system, a new MBBR and SAGR system for ammonia removal, and new UV disinfection.	II
\$17,559,584.00	Belgrade WRF Upgrade	Upgrade to increase trunk main and WWTF treatment capacity. Project includes new headworks facility, oxidation ditch, IP bed, and solids storage lagoons.	II, IVB
\$718,090.00	Bigfork Bay Collection System Improvements	Replacement of existing collection system along Bigfork Bay that includes new low-pressure sewer main and grinder pumps. Project will rehabilitate an existing lift station with a new above-grade package submersible lift station and new force main.	IIIB
\$5,300,734.00	Bozeman Davis Lane Lift Station/Norton East Ranch	This project consists of the installation of 7,400 lineal feet of 27-inch gravity sewer; 2,690 lineal feet of 36-inch gravity sewer; 3,800 lineal feet of dual force main; and a large lift station.	IVB
\$220,942.00	Caras Park Phase 2 Storm Water Infiltration	The Phase 2 project will allow for storm water, which is pretreated by a Hydro-Dynamic Separator, to be infiltrated to the Missoula aquifer, further reducing pollutant and water temperature discharge to the Clark Fork River.	VI
\$7,593.00	Cascade Wastewater Improvements	The project consists of replacement of old sewer mains, rehabilitation of the pump station, and removal and disposal of sludge from the lagoon.	I, IIIB
\$532,715.00	Choteau Wastewater System Improvements	Gravity sewer main replacement project.	IIIA
\$1,242,924.00	DNRC Nonpoint Source Projects	These projects are for installation of center pivots to replace flood irrigation/wheel lines.	VIIa
\$32,002.00	Great Falls TIF CMATP Stormwater Project	Stormwater Improvements project at the Great Falls CMATP site (industrial/commercial site) north of Black Eagle. Includes collector piping, inlet structures, energy dissipation structure and grass swell outfall for sediment removal prior to discharge to a dry wash approximately 1.5 miles from the Missouri River.	VI
\$44,016.00	Hardin Wastewater Improvements, Phase 1	Removal and replacement of approximately 2,600 feet of sewer main and 16 manholes along Lessard Avenue, 13th St East and the extension of 10th Street East.	IIIB
\$224,503.00	Harlowton Wastewater Improvements	The project consists of sludge removal from the first two lagoon cells with land application for disposal, UV disinfection, and replacement of the existing lift station pumps and controls.	I
\$1,621,934.00	Helena Westside Phases 1 & 2 Sewer Extensions	Extension of sewer service to the west side of Helena, that is currently served by on-site wells and drain fields. The project consists of approximately 12, 402 feet of new 8-inch sewer main and 48 new manholes.	IVA

Total Amount Spent in SFY22	Project Name	Project Description	Categories
\$2,005,386.00	Kalispell Regional Stormwater		VI
\$520,000.00	Plains WWTP Relocation	The project consists of relocation of the existing lagoon to a location further away from the Clark Fork River and consisting of a new three-cell aerated lagoon, with influent screening and UV disinfection.	I
\$787,718.00	Plentywood Collection System - Phase 2	Replacement of 6,500 LF of sewer main; the replacement of 42 manholes; the rehabilitation of 12,000 LF of sewer main using CIPP; rehabilitation of 50 manholes; and replacement of approximately 1,300 LF of 6" force main.	IIIB
\$1,550,000.00	Polson Collection System Improvements	Replacement of approximately 1,225 feet of 8-inch sewer main; 2,850 feet of 10-inch sewer main, and appurtenant work.	IIIA
\$225,170.00	RAE WSD Infiltrator and Force Main	Existing Sewer District adding new infiltration gallery under groundwater discharge permit with new force main to connect to existing SBR treatment facility.	I
\$236,429.00	Red Lodge Sewer Main Replacement	Replacement of approximately 1,435 feet of sewer collection main.	IIIA
\$420,500.00	Roberts - Carbon County Force Main Replacement	Replacement of approximately 1,250 lineal feet of existing cast iron force main between the treatment lagoon and the irrigation storage lagoon with new 8-inch HDPE DR-9 pipe, and installation of a new magnetic flow meter and plug valves.	IIIB
\$96,528.00	Sidney Phase 3	Construct new headworks, influent lift station, and outfall line and structure to the Yellowstone River.	I
\$2,405,380.00	Thompson Falls - WW Improvements	<u>Loan 1</u> - Design collection system expansion and lagoon improvements. <u>Loan 2</u> - Extend collection system to unsewered areas that are served by on-site systems, improve existing collection systems in areas with high I&I, expand the capacity of the existing aerated lagoon system, and lagoon covers, replace aeration system, add a polishing cell, and add UV disinfection.	II, IVA
\$60,758.00	Townsend WWTP Improvements	The project consists of a new lift station with new wet well, valve vault, and appurtenances; Sludge removal from Cells #1 and #4; new headworks and UV buildings; new lagoon piping and aeration; new non-potable water supply at the WWTP; and eight blocks of CIPP lining.	I

Total Amount Spent in SFY22	Project Name	Project Description	Categories
\$448,186.00	Twin Bridges Stormwater Improvements	Twin Bridges is improving stormwater facilities by installing new inlets and laterals at several intersections that will connect to existing MDT system on Main Street. Project also includes new infiltration structures at select locations throughout Town to address those areas that currently don't drain adequately during a storm event.	VI
\$88,850.00	Vaughn Wastewater System Improvements	The project consists of a new lift station utilizing the existing wet well, sludge removal and disposal, installation of a new aeration system and blowers, construction of a submerged activated growth reactor (SAGR), new UV disinfection system, and a new UV/Blower Building.	I
\$833,493.00	Whitefish WWTF Improvements 2020	Upgrading of Existing Partial Aerated Lagoon Facility to Aqua Aerobics Aqua Nerada System.	II
\$38,842,544.00	Total Disbursed Funds in SFY22

**MONTANA STATE WATER POLLUTION CONTROL AND
DRINKING WATER STATE REVOLVING FUND PROGRAMS
NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2022 -UNAUDITED**

1. Organization of the Programs

The State of Montana Water Pollution Control State Revolving Fund (WPCSRF) program was established pursuant to Title VI of the Federal Water Quality Act of 1987. This federal act established the WPCSRF program to replace the construction grants program. It provides a flexible financing source to loan money at reduced interest rates to finance the construction of publicly owned water pollution control facilities, non-point source pollution control projects, and estuary management plans. Instead of making grants to communities that pay for a portion of building wastewater treatment facilities, the WPCSRF provides for low interest rate loans to finance the entire cost of qualified projects or to refinance debt obligations on projects. The State of Montana first incurred expenditures in the WPCSRF program in state fiscal year (SFY) 1992.

The State of Montana Drinking Water State Revolving Fund (DWSRF) program was established pursuant to the 1996 Amendments to the Federal Safe Drinking Water Act. This federal act established the DWSRF program for states to make loans to community water systems and non-profit non-community water systems. Instead of making grants to communities that pay for a portion of building drinking water treatment facilities, the DWSRF provides for low interest rate loans to finance the entire cost of qualified projects or to refinance debt obligations on projects that began after July 1, 1993. The State of Montana first incurred expenditures in the DWSRF program in SFY 1997.

WPCSRF and DWSRF loan agreements allow up to 30 years for repayment. All repayments of interest and principal must remain in the revolving funds. Both programs are capitalized through Environmental Protection Agency (EPA) grants. States are required to provide at least 16.67 percent of the federal capitalization grant as matching funds for WPCSRF, and at least 20 percent for DWSRF, in order to receive a grant. The State of Montana issues General Obligation (GO) Bonds, Revenue Anticipation Notes (RANs), and Bond Anticipation Notes (BANs) to provide the required state matching funds. RANs and BANs are funded through INTERCAP Loans from the Montana Department of Commerce, Board of Investments.

The programs are jointly administered by the Engineering Bureau of the Department of Environmental Quality (DEQ) and the Conservation and Resource Development Division of the Department of Natural Resources and Conservation (DNRC). The State Revolving Fund (SRF) programs do not have any full-time employees. Both funds are charged for time spent on SRF activities by department employees. The charges include salaries and benefits of the employees, operating expenses and indirect costs.

2. Summary of Significant Accounting Policies

A. SRF Program Fund Structure

Both programs use Special Revenue and Debt Service funds, as appropriate, to report the financial position and the results of operations. A Special Revenue Fund accounts for the proceeds of specific revenue sources that are restricted to expenditures for specified purposes. A Debt Service Fund accounts for resources accumulated for payment of principal and interest on general long-term obligation debt, BANs and RANs. Montana maintains State Special Revenue and Federal Special Revenue Funds. The SRF program revenues and expenses include transactions from each Special Revenue Fund. Special Revenue and Debt Service Funds are considered governmental funds.

A fund is a separate accounting entity with a self-balancing set of accounts. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions and activities.

The financial statements are intended to present the financial position and changes in financial position of only that portion of the financial reporting entity of the state of Montana that is attributed to the transactions of the program.

B. Basis of Accounting

The accompanying financial statements have been prepared in conformity with Generally Accepted Accounting Principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). Also exhibited are supplementary financial schedules prepared on a regulatory basis of presentation as requested by the EPA for the WPCSRF and DWSRF program. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus. Current financial resources mean that, generally, only assets and current liabilities are included on the balance sheet. Operating statements of governmental funds present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets.

Governmental funds use the modified accrual basis of accounting. The modified accrual basis is the accrual basis adapted to the governmental fund-type measurement focus. Under the modified accrual basis of accounting, revenues are recorded when received in cash unless susceptible to accrual. Revenues are susceptible to accrual if they are measurable, available and earned within sixty days after the end of the fiscal year to finance expenditures of the fiscal year. Revenues are unearned if material and received before the normal time of receipt or if received for a particular activity and the expense for that activity has not been incurred prior to fiscal year-end. Expenditures are recognized when the related fund liability is incurred, with the following exceptions:

- 1) principal and interest on long-term debt are recognized when due;
- 2) prepayments are accounted for as expenditures in the period of acquisition;
- 3) inventory items are considered expenditures when purchased.

The Loans Receivable and Allowance for Loan Forgiveness balances reside in the Special Revenue funds for each program. The net of these balances represents the total amount considered collectible.

C. Valuation

The book value of bonds is the “amortized” cost, which represents the original cost, adjusted for premium and discount amortizations where applicable. If bonds are purchased at more than the par value, the difference is called a premium. If they are purchased for less than par value, then the difference is called a discount. Premiums and discounts are amortized/accreted using the straight-line or scientific method to the call, average life, or maturity date of the securities. If the same investment has been purchased several times, the average of the purchase prices is the book value. All investment portfolios presented on the Combined Balance Sheet are recorded at fair value based on quoted market price.

3. Cash, Cash Equivalents and Investments

Cash and Cash Equivalent

Cash and cash equivalents consist of funds deposited with US Bank National Association (US Bank) as trustee, and the State of Montana Treasury and include investments categorized as cash equivalents. Cash equivalents are defined as short-term, highly liquid investments with original maturities of three months or less. Cash and cash equivalents are reported at cost. Cash and cash equivalents, as identified in the Combined Balance Sheet, are as follows:

Held by Trustee:

First American Government Obligation	\$76,060,757
--------------------------------------	--------------

Investments

An Indenture of Trust specifies the eligible investments meeting defined rating and risk criteria in which the state may invest. The state invests funds through its trustee bank, US Bank.

Eligible investments are limited, generally, to obligations of, or guaranteed as to principal and interest by the United States of America, or by any agency or instrumentality thereof. A primary investment objective is to purchase investments that mature, or are subject to redemption, on or prior to the date or dates that the department anticipates that money will be required to make funds available for loans or to make bond payments.

In accordance with the permitted investments as defined in the Indenture of Trust, the cash equivalent funds, invested at the direction of the issuer and held by US Bank, as trustee, are held in a Treasury Obligations Money Market Fund that invests exclusively in short-term U.S. Treasury obligations and repurchase agreements secured by U.S. Treasury obligations. The U.S. Treasury

obligations in which the fund invests include U.S. Treasury bonds, notes, and bills, and are backed by the full faith and credit of the United States government.

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization.

The SRF minimizes credit risk by limiting securities and types of investments to the Indenture of Trust. Obligations of the U.S. Government or obligations explicitly guaranteed by the U.S. Government are not considered to have credit risk and do not require disclosure of credit quality per GASB Statement No. 40.

Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The investment policy as defined in the Indenture of Trust, and contract with the trustee, does not require collateralization for cash and securities held by the trustee. Securities are registered with the Federal Reserve Bank under “U.S. Bank as trustee for the State of Montana Department of Natural Resources and Conservation.”

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The investment definition for the programs, as specified in the Indenture of Trust, does not explicitly address interest rate risk. However, the investment definition implicitly limits interest rate risks by emphasizing liquidity, holding investments to maturity, and narrowly defining the eligible investments. In general, a shorter average maturity for fixed-income securities held in the money market funds means less sensitivity to interest rate changes.

4. Loans Receivable

Montana operates both SRF programs as direct loan programs. Most loans made to communities through the WPCSRF program are funded 83.33 percent by federal EPA capitalization grants, and 16.67 percent by state match. The WPCSRF program also made recycled loans that were disbursed from loan repayment funds. Most loans made by the DWSRF program are funded 80 percent by federal EPA capitalization grants and 20 percent by state match. The DWSRF program also made recycled loans that were disbursed from loan repayment funds. Loan funds are disbursed to the local borrower agencies by the trustee bank as the local borrower agencies expend funds for the purposes of the loan and request reimbursement from the program. Interest is calculated from the date that funds are disbursed. Typically, after the final disbursement has been made, the payment schedule is certified in the loan agreement and adjusted for the actual amounts disbursed. No provision for uncollectible accounts has been made as all loans are current in terms of compliance with the repayment schedules, and management believes that all loans will be repaid according to the terms of the loan agreements.

The EPA federal funds for capitalization grant loans issued during SFY 2022 have a loan forgiveness component. If the community meets certain requirements, a portion of the loan is forgiven. The State of Montana recorded the forgivable loans in a federal special revenue fund as Loans Receivable with an offset to Allowance for Loan Forgiveness. When a community has met the requirements, the loan receivable and allowance balances are zeroed out. During SFY 2022, the program forgave \$600,000 in loans in the WPCSRF and \$2,715,830 in loans for the DWSRF programs.

The drawn and outstanding principal balance of all loans guaranteed by the WPCSRF program as of June 30, 2022, is \$304,333,318 with an allowance for loan forgiveness of \$5,294,650 resulting in a net loans outstanding balance of \$299,316,886 which includes \$278,218 presented as advances to other funds. The advances are inter-fund loans within DNRC used for the non-point source private loans program.

The drawn and outstanding principal balance of all loans guaranteed by the DWSRF program as of June 30, 2022, is \$191,564,711 with an allowance for loan forgiveness of \$4,280,112 resulting in a net loans receivable balance of \$187,284,599.

Loans mature at various intervals through July 1, 2061. The scheduled principal payments on loans and advances to other funds maturing in the years following SFY 2022 are as follows:

<u>SFY ending June 30:</u>	<u>WPCSRF Amount</u>	<u>DWSRF Amount</u>
2023	\$ 18,589,291	\$ 12,716,390
2024	20,643,300	14,335,666
2025	20,282,500	13,630,024
2026	18,133,541	12,929,305
2027	18,176,000	12,326,097
2028 and thereafter	<u>203,214,036</u>	<u>121,347,117</u>
Total	\$ 299,038,668	\$ 187,284,599

As of June 30, 2022, the WPCSRF and DWSRF programs had authorized loans to public entities of the State of Montana that in the aggregate exceeded \$751.6 and \$438.7 million, respectively. The outstanding balances of the largest loans in each portfolio are as follows:

<u>Water Pollution Control State Revolving Fund</u>		
<u>Local Agency</u>	<u>Authorized Loan Amount</u>	<u>Outstanding Balance</u>
City of Glendive	\$ 16,226,870	\$ 14,081,000
City of Kalispell	14,470,000	5,210,000
Four Corners WSD	11,300,000	10,646,000
City of Havre	10,437,710	7,589,000
Butte-Silver Bow County III	10,268,000	8,175,000
Butte-Silver Bow County I	10,000,000	7,622,000

City of Whitefish	10,000,000	9,208,000
Butte-Silver Bow County II	10,000,000	7,795,000
City of Whitefish*	9,575,000	5,968,149
City of Bozeman	9,573,000	5,032,000
Total	\$ 111,850,580	\$ 81,326,149

* Still drawing funds.

Drinking Water State Revolving Fund

<u>Local Agency</u>	<u>Authorized Loan Amount</u>	<u>Outstanding Balance</u>
City of Billings II	\$ 17,300,000	\$ 3,773,000
City of Missoula*	12,462,000	414,626
City of Bozeman A	10,000,000	5,769,000
City of Great Falls A	10,000,000	7,752,000
City of Great Falls B	10,000,000	8,161,000
City of Bozeman B	9,552,000	5,960,000
City of Great Falls C	8,600,000	7,204,000
City of Havre II	8,401,000	840,000

City of Glendive B	7,000,000	6,652,000
TOTAL	\$ 100,888,000	\$ 52,708,626

* Still drawing funds.

5. Interest Receivable on Loans

The interest receivable on loans represents interest owed by borrowers as of June 30, 2022, for the July 1, 2022, payment. It represents the six months of interest accrued from the previous loan payment date of January 1, 2022. Interest receivable balances in the WPCSRF include \$405,594 in the Special Administration fund and \$2,458,016 in the Debt Service and Loan Loss Reserve funds. Interest receivable in the DWSRF includes \$246,352 in the Special Administration fund and \$1,536,149 in the Debt Service and Loan Loss Reserve funds. Interest receivable does not include interest payments received through June 30, 2022, that were due July 1, 2022. Interest payments received through June 30, 2022, amounted to \$1,056,375 for the WPCSRF and \$560,121 for the DWSRF.

6. Short-term Debt

The state may issue notes in anticipation of a Bond issuance. During SFY 2022, four bond anticipation notes (BAN) were issued. The proceeds of Drinking Water 2021A, Drinking Water 2022A, Wastewater 2021B, and Wastewater 2022B will be used to fund water improvements and rehabilitation.

The following schedule summarized the activity for the year ended June 30, 2022:

BANS	Begin Bal	Additions	Reductions	Ending Bal
Drinking Water-2019D	\$ 148,838	\$ -	\$ 148,838	\$ -
Drinking Water-2020N	1,662,500	1,537,500	3,200,000	-
Drinking Water-2021A ¹	-	3,100,000	1,200,000	1,900,000
Wastewater-2021B	-	3,800,000	3,800,000	-
Drinking Water-2022A ²	-	50,000	-	50,000
Wastewater-2022B ³	-	50,000	-	50,000
Total	<u>\$ 1,811,338</u>	<u>\$ 8,537,500</u>	<u>\$ 8,348,838</u>	<u>\$ 2,000,000</u>

¹ DW 2021A has not been fully drawn. Balance yet to draw \$800,000.

² DW 2022A has not been fully drawn. Balance yet to draw \$2,150,000.

³ WW 2022B has not been fully drawn. Balance yet to draw \$1,550,000.

7. Bonds Payable

WPCSRF general obligation bonds payable at June 30, 2022, were as follows:

Series 2020J

Payable during the year ending June 30,	Interest Range (%)	Principal	Interest	Total
2023	0.2%-2.1%	\$ 1,520,000	\$ 327,214	\$ 1,847,214
2024		1,525,000	321,038	1,846,038
2025		1,535,000	312,421	1,847,421
2026		1,540,000	301,965	1,841,965
2027		1,555,000	288,654	1,843,654
2028-2032		8,040,000	1,123,056	9,163,056
2033-2037		6,355,000	422,331	6,777,331
2038-2041		1,175,000	58,514	1,233,514
Total Cash Requirements		<u>\$ 23,245,000</u>	<u>\$ 3,155,193</u>	<u>\$ 26,400,193</u>

WPCSRF GO 2015C was refunded early in FY 2021 by GO 2020J.

Refunded Bonds

On October 20, 2020, the State of Montana issued revenue refunding bonds and new money in the amount of \$19,825,000 and \$5,040,000 respectively. These bonds are known as General Obligation Bonds (Water Pollution Control State Revolving Fund Program, Refunding and Match), Taxable Series 2020J. The current refunding of General Obligation Bonds (Water Pollution Control State Revolving Fund Program), Series 2015C, in the par amount of \$19,320,000 resulted in an economic gain of \$ 1,528,715 and the present value of savings from cash flows of \$4,768,553.

8. Fund Balance

All the fund balances in the WPCSRF and DWSRF programs are restricted. The classification of Fund Balance Restricted is used in the SRF program because the use of resources is restricted by parties outside the state, such as EPA and the bond holders.

9. Program Capitalization

The WPCSRF and DWSRF programs are capitalized by grants from the EPA and matching funds from the State of Montana. All grant funds drawn are recorded as revenue. As of June 30, 2022, the state match requirement in the WPCSRF program is approximately \$43,745,000 but the state has matched additional funds of approximately \$80,193,000. As of June 30, 2022, the state match requirement in the DWSRF program is approximately \$59,425,000, but the state has matched additional funds of approximately \$7,045,000.

10. Federal Capitalization Grant Revenue

Actual draws of federal funds can differ from the amount of federal capitalization grant revenue reported on the Combined Statement of Revenues, Expenditures and Changes in Fund Balances. This occurs because state accounting policy requires federal special revenue funds reflect a zero-fund balance at fiscal year-end (except for “A” accruals). Consequently, at fiscal year-end, if a positive fund balance exists, unearned revenue is recorded and if a negative fund balance exists, an accounts receivable is established, and revenue is recorded to zero the fund balance.

The following is a reconciliation of federal revenues reported on the financial statements to federal cash actually drawn during the state fiscal year:

<u>WPCSRF</u>	
Federal Revenue - Combined Statement	\$5,467,481
Adjustment Due From Federal Govt SFY 2022	-
Other Adjustments	-
Total Federal Draws	\$5,467,481

<u>DWSRF</u>	
Federal Revenue - Combined Statement	\$6,833,374
Adjustment Due From Federal Govt SFY 2021	67,282
Adjustment Due From Federal Govt SFY 2022	(51,664)
Other Adjustments	-
Total Federal Draws	\$6,848,992

11. Interest Income on Investments

This revenue represents interest earnings on investments within the funds and amortized (premiums) and accreted discounts recognized monthly and at the disposal of government securities. All assets of the funds are fully invested by the trustee, to the degree possible, in

investment vehicles. The investments range from U.S. Treasury obligation money market funds to long-term government securities. In some funds, interest income is earned in one fund but transferred to another fund in accordance with terms of the bond indenture.

12. Investment Gains/ (Losses)

This revenue represents amortized (premiums) and accreted discounts recognized monthly and at the disposal of government securities.

13. Investment Appreciation/(Depreciation) Income

This revenue represents the appreciation or depreciation of the investments reported from the Cash Value to the Market Value at June 30, 2022.

14. Interest Income from Loans

This revenue represents interest earnings from loan repayments made by borrowers. In SFY 2013, the SRF programs offered borrowers who issued revenue and general obligation bonds the chance to restructure their interest rates. Depending upon the term remaining to repay their loans, the new interest rates are between 1.25% and 3% as compared to current rates of 2.5%. Loans must be in compliance with the program and bond requirements. The total interest rate can be comprised of a percentage for loan interest rate, Loan Loss Reserve surcharge and Special Administration surcharge. For SFY 2022, the interest incomes for each of these components were as follows:

	<u>WPCSRF</u>	<u>DWSRF</u>
Loan Interest	\$ 6,300,326	\$ 3,653,159
Loan Loss Reserve	703,254	380,493
Special Administration	<u>1,098,714</u>	<u>679,296</u>
Total Interest Income	\$ 8,102,294	\$ 4,712,948

15. Program Administration and Set-Aside Funds

This expenditure represents costs incurred by DEQ and DNRC to administer the SRF programs. They are reflected in special revenue funds (both federal grant funds and state funds are used). Program Administration appears under the Resource/recreation/environment function in the State of Montana Annual Comprehensive Financial Report (ACFR).

The DWSRF program includes program administration as well as several “sub-programs”, called set-asides, which states can elect. The following details what percentage of capitalization grants a State may use for administration and set-asides:

- up to 4 percent of its grants to administer the DWSRF and provide technical assistance to public water systems;
- up to 2 percent of its grants to provide assistance to small public water systems;
- up to 10 percent of its grants for state program management activities, including administration of the state public water system supervision program, administration of the

source water protection program, and development and implementation of the capacity development and operator certification programs;

- up to 15 percent of its grants to assist in the development and implementation of local drinking water protection initiatives and other State programs.

DWSRF Program Administration/Set-Asides Detail:

Administration - EPA Grants	\$ 440,040
Administration - State Funds	645,314
Technical Assistance	117,858
State Program Management	868,539
Local Assistance	266,723
Total Administration and Set-Asides	\$2,338,474

In the WPCSRF program, there are no set-aside funds available.

WPCSRF Program Administration Detail:

Administration - EPA Grants	\$ 333,320
Administration - State Funds	868,778
Total Administration	\$1,202,098

16. Other Financing Sources and Uses

The BAN (InterCap) Transfers represent the non-cash transfer from the BAN proceeds State Special Revenue account (fund) to the Debt Service account (fund). This transfer is required to move the BAN (InterCap) liability to the fund that will service the debt.

The Debt Service Sweep represents loan interest amounts received that exceeds the debt service requirements. The balances remaining in Debt Service accounts are transferred to the Investment accounts in State Special Revenue funds. Both funds are required by the SRF program. This occurs after payments are made to the bondholders on January 15 and July 15 of each year. In the Arbitrage Certificate, this activity is termed a Debt Service Sweep.

The Loan Loss Reserve Sweep represents cash in excess of the reserve requirement that is transferred from the Loan Loss Reserve accounts to the Principal or Debt Service accounts per the trust indentures. The Loan Loss Reserve funds are not required by the SRF program, but the state elected to have these funds to account for these transactions separately. These transfers are only visible on the Regulatory Basis Financial Statements. The entries are eliminated on the GAAP Basis Financial Statements.

The Special Administration Account Transfer represents the transfer of funds from the Special Administration accounts to the Principal accounts per the trust indenture. This transfer is only visible on the Regulatory Basis Financial Statements. The entries are eliminated on the GAAP Financial Statements.

The Federal Capitalization Grant Transfers represent the transfer of EPA grant funds from federal special revenue funds to the Loan Accounts in state special revenue funds to fund loans that will be repaid. These transfers are only visible on the GAAP Financial Statements. The entries are eliminated on the Regulatory Basis Financial Statements.

The Investment Earnings Transfers represent the transfers of the balances of earnings to various accounts within each SRF program per the trust indenture.

The Investment Fund (Account) Transfers represent the transfers of funds from the Investment accounts to the Principal and Debt Service accounts as needed within each SRF program per the trust indenture.

17. Related Party Transaction

Per Title 85, Chapter 1, part 6, MCA, Renewable Resource Grant and Loan Program, the department is eligible to issue GO bonds for the purpose of making private sale loans. DNRC has applied and received “recycled loan funds” from the SRF program for the non-point source private loan program. The loans are GO private sale bonds. The current loans in repayment have a balance of \$278,218, have interest rate 2.5% and are repaid over 15 years. These loans are presented as Advances to Other Funds on the balance sheets.

Total Liabilities and Fund Balances	\$ 347,413,163	\$ 1,889,085	\$ 3,075,147	\$ 1,320,753	\$ 209,864,491	\$ 1,722,805	\$ 1,874,081	\$ 200,492	\$ 567,360,017

This schedule is prepared on a regulatory basis of presentation, rather than a GAAP (1) basis, as requested by the Environmental Protection Agency (EPA) for the Water Pollution Control and Drinking Water State Revolving Fund (SRF) Programs. This presentation separates certain regulated Revolving Fund (within the Fund) and Non-Revolving Fund (outside the Fund) activity by fund type. All proceeds from the EPA Capitalization Grant, corresponding state matching funds, and loan principal and interest repayments must be deposited into the Revolving Fund under Title VI of the Clean Water Act and Title XIV of the Safe Drinking Water Act. Other proceeds, including Administration and Origination Fees and Loan Loss Reserves are deposited into the Non-Revolving Fund and may be used for other water quality purposes under the federal acts mentioned above.

(1) Generally Accepted Accounting Principles (GAAP).
