

**PUBLIC NOTICE NO. MT-24-06
MAY 6, 2024**

PURPOSE OF PUBLIC NOTICE

The purpose of this notice is to state the Department's intention to issue a wastewater discharge permit to the facility listed in this notice. This permit is issued by the Department under the authority of 75-5-402, Montana Code Annotated (MCA); the Administrative Rules of Montana (ARM) 17.30.1301 *et seq.*, Montana Pollutant Discharge Elimination System (MPDES); and Sections 402 and 303 of the Federal Clean Water Act. The Water Protection Bureau has prepared a draft permit for the facility listed below. Copies of the draft permit, fact sheet, and environmental assessment are available upon request from the Water Protection Bureau or on the Department's website <https://deq.mt.gov/public/index>

APPLICANT NAME: **Cross Harbor Spanish Peaks Acquisitions (CHSP), LLC
25 Town Center Avenue
Big Sky, MT 59716**

FACILITY NAME: **Spanish Peaks Mountain Club Snowmaking**

FACILITY LOCATION: **Spirit Mountain, Andesite Mountain
Spanish Peaks Base Area
Madison and Gallatin County**

RECEIVING WATER: **North and South Unnamed Tributaries to
Middle Fork West
Gallatin River**

PERMIT NUMBER: **MT0032174**

Cross Harbor Spanish Peaks Acquisitions (CHSP), LLC has applied for an MPDES permit to discharge treated domestic wastewater as artificial snow on ski runs of the Spanish Peaks Mountain Club on Spirit Mountain, Andesite Mountain, and the Spanish Peaks base area. The source of the treated wastewater is the Big Sky County Water and Sewer District wastewater treatment facility. CHSP, LLC proposes to discharge up to 44 million gallons of

treated wastewater as artificial snow in two phases: 23 million gallons per year (MGY) in Phase 1 and an additional 21 MGY in Phase 2. Snowmaking will occur primarily during the early portion of the ski season. Natural snow will accumulate on top of and mix with the artificial snow. The wastewater will be disinfected to standards required for wastewater reuse. The permit includes additional effluent limitations to protect human health and the environment and the beneficial uses of the receiving waterbodies. The permit also requires significant surface water and snowmelt monitoring during the spring snowmelt and runoff season. Surface water and snowmelt monitoring must be conducted, and the results reported to DEQ every year of the permit term.

A nondegradation analysis was performed in development of the proposed permit and appropriate requirements have been included in the proposed permit to prevent significant changes in the receiving water quality.

PUBLIC COMMENT

Public comments are invited and **must be received by 11:59 p.m. on JUNE 6, 2024.** Comments may be directed to the DEQ Water Quality Division, Water Protection Bureau, PO Box 200901, Helena, MT 59620. **All comments received or postmarked by 11:59 p.m. on JUNE 6, 2024,** will be considered in the formulation of final determinations to be imposed on the permit. If you wish to comment electronically, you may e-mail DEQWPBPublicComments@mt.gov

During the public comment period provided by the notice, the Department will accept requests for a public hearing. A request for a public hearing must be in writing and must state the nature of the issue proposed to be raised in the hearing (ARM 17.30.1373).

The Department will respond to all substantive comments and issue a final decision within sixty days of this notice or as soon as possible thereafter. Additional information may be obtained upon request by calling (406) 444-5546 or by writing to the aforementioned address. The complete administrative record, including permit application and other pertinent information, is maintained at the Water Protection Bureau office in Helena and is available for review during business hours.
