

NOTICE OF PUBLICATION OF CATEGORICAL EXCLUSION
CITY OF BOULDER PHASE 2 WATER SYSTEM IMPROVEMENTS

May 14, 2025

The Montana Department of Environmental Quality has reviewed the above-named project. This proposed project consists of the installation of a new ground-level 450,000-gallon pre-stressed, AWWA D110 Type III, concrete water storage tank, backup generators for two existing wells, installation of fencing at the well and storage tank sites, and installation of fire hydrants at select locations in the city.

The new water storage tank will be constructed adjacent to the city's two existing storage tanks. The generators will be installed at Well 1 and Well 4. The well location areas and the areas where new fire hydrants will be located were addressed in a previous Environmental Assessment adoption and Finding of No Significant Impact for the City completed January 8, 2024.

Pursuant to ARM 17.40.318, the Department has concluded that the proposed project meets the Categorical Exclusion criteria of the National Environmental Policy Act (NEPA) and the Montana Environmental Policy Act (MEPA). The Categorical Exclusion may be revoked if the project is not initiated within the time-period specified in the planning documents, a new or modified application is submitted, or new evidence demonstrates serious local or environmental issues exist, or state, local, tribal, or federal laws are violated. The documentation for the Categorical Exclusion is available for public review at the following locations:
