

2025 Nonpoint Source Pollution Reduction Application - Capacity Building/Education Outreach Projects

General Information

Project Name _____

Applicant Name _____

Is your organization registered with the Montana Secretary of State?

Explanation: Each applicant must be registered with the Montana Secretary of State to do business in the state of Montana. Registration with the Secretary of State may be completed via the following website: <https://sosmt.gov/business/>

Is your organization registered with the federal System for Award Management (SAM)?

Explanation: Each applicant is required to register with SAM. To register or check your organization’s status, go to <https://sam.gov/content/home>. If you get an “Unsupported Browser” error, copy, and paste the link into a Google Chrome browser window.

Your organization's Unique Entity Identifier number (UEI #)

Explanation: Each applicant is required to have a current UEI number. The UEI number replaces the old DUNS number. If your organization had a DUNS number, you should have received a notification from the federal government indicating that your DUNS number has been changed to a UEI number. If you did not receive this notification, or if you never had a DUNS number, you will need to go to the federal government’s System for Award Management (SAM - <https://sam.gov/content/home>) to obtain your UEI number. DEQ recommends starting this process early as it is very time-consuming, requires providing documentation-sometimes with follow-up requests for additional information, and can take up to 2 months to complete. If you need assistance, you may contact the federal help desk at 866-606-8220 Monday-Friday 8:00 a.m. through 8:00 p.m. EST.

Does your organization have adequate liability insurance for the risks associated with your project?

Explanation: Each applicant must have or obtain liability insurance coverage meeting the requirements stated in the Draft Sample Contract and/or requirements negotiated based on the appropriate level of risk associated with the project.

Primary Contact _____ Title _____

Address _____ City _____ State _____ Zip Code _____

Phone Number _____ Email _____

Signature

Explanation: This is the person who DEQ would routinely contact to discuss project progress, billing, etc.

Signatory _____ Title _____

Address _____ City _____ State _____ Zip Code _____

Phone Number _____ Email _____

Signature

Explanation: This is the person who can legally sign contracts and other binding documents on behalf of the applicant (e.g., a board chair)

Note: The primary contact and the signatory must both sign the application. Signatures must be either signed electronically, or wet-signed, scanned and emailed.

Project Description

Project Type

Is this a Capacity Building Project, or is it an Education and Outreach Project?

Explanation: DEQ supports education and outreach efforts that focus on changes in behavior that will prevent or reduce nonpoint source pollution. Our goal is to encourage adoption of Community Based Social Marketing concepts to produce measurable, sustainable change. We also want to support activities that improve local capacity to develop and implement on-the-ground projects to prevent or reduce nonpoint source pollution. In so doing, we are making a distinction between capacity building projects, and education and outreach projects. The selection you make above will be used to determine which questions on the Scoring Sheet reviewers will use to evaluate your project.

Activity Location

List the watershed(s) where your proposed work will happen.

Activity Description

Describe your project goals and your proposed activities. Explain why the proposed work is an appropriate next step towards preventing or reducing nonpoint source pollution.

Budget Form

Please fill out the Capacity Building and/or Education Outreach Project Budget Template (Excel file). Cells highlighted in yellow may be edited to fit the needs of your particular project. DEQ uses a template to construct nonpoint source grant contracts. The Budget Template contains tasks and typical deliverables that match up with the grant contract template. Please see the Example Contract and Scope of Work template for a more detailed look at typical task requirements and deliverables.

Capacity Building Projects

(only complete this page if you selected "Capacity Building Project" on the top of page 2; otherwise, leave this page blank)

Need and Opportunity

Describe your organization's need for increased capacity, and how the proposed project activities will help you meet those needs. Describe the local interest and opportunities for using the capacity you create to prevent or reduce nonpoint source pollution.

Measurement and Sustainability

Describe how you will measure the increase in capacity. Describe how will sustain the capacity you generate on into the future.

Timeline

Describe your anticipated project timeline

Education and Outreach Projects

(only complete this page if you selected "Education and Outreach Project" on the top of page 2; otherwise, leave this page blank)

Behavioral Change

Identify the behavior you will be working to change. What is the behavior? From a nonpoint source pollution perspective, why is the change in behavior important? What are the existing barriers to changing the behavior? How will your proposed activities address the identified barriers? How will you measure the extent of the behavioral change?

Timeline

Describe your anticipated timeline

Environmental Justice

Environmental justice can be defined as: The fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income, with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies. This goal will be achieved when everyone enjoys:

- The same degree of protection from environmental and health hazards, and
- Equal access to the decision-making process to have a healthy environment in which to live, learn, and work

DEQ is committed to carrying out the nonpoint source pollution reduction projects in an environmentally just manner. We encourage applicants to apply the principles of environmental justice in their development and implementation of nonpoint source pollution prevention projects. Below are a few examples of how applicants might apply these principles. DEQ will award additional points in the scoring form for projects that address environmental justice.

- Project planning included consultation with Tribal Nations
- Project will benefit socially or economically disadvantaged communities
- Project will occur in a community that has not previously received nonpoint source pollution reduction grant funding
- Project will address nonpoint source pollution in a community that has been disproportionately burdened by impacts from legacy pollution (e.g., SuperFund sites, legacy mine waste, etc)

Please use this section to highlight connections your project may have to addressing environmental justice.

Project Partners and Roles

Identify the partners that will be working on the project, and their roles.

Project Administration

Each contract will have a Project Administration Task. Take the requirements (listed below) into consideration when planning logistics and budget for your project. Project administration includes bookkeeping, invoicing, interim/annual/final report preparation, office supplies, rent, communications, etc. Nonpoint source funding applied to this task must not exceed 10% of the total amount of funding requested, or \$3,000, whichever is lower. Like all other tasks, payment is by reimbursement for actual expenses incurred.

Report Format:

- *Contractor shall submit each Attachment B Billing Statement, Status Report and Final Report using the most current reporting guidance and templates provided by the DEQ project manager.*
- *Contractor shall ensure each Status Report and Final Report contains adequate documentation to justify accompanying reimbursement requests and match reporting, to the satisfaction of the DEQ project manager.*
- *Contractor shall ensure that the Final Report is a standalone document describing all contract activities and containing copies of all contract deliverables (even if the deliverables were previously submitted).*

Reporting Schedule:

- *Status Reports: Due June 15th and December 15th of each year the Contract is in effect.*
- *Draft Final Report: Contractor shall submit a complete draft Final Report for DEQ review and comment at least 15 days prior to the contract expiration date.*
- *Final Report: Contractor shall submit a Final Report, addressing DEQ comments on the draft Final Report, on or before the Contract expiration date.*
- *Attachment B Billing Statements: Contractor shall submit an Attachment B Billing Statement with each Status Report, or Final Report submitted to DEQ while the Contract is in effect. To maintain cash flow, Contractor may submit interim Attachment B Billing Statements as frequently as monthly during the term of the Contract. However, each interim Attachment B Billing Statement must be accompanied by an Interim Report.*

Additional Information

Use the space below to include anything additional for the review panel to consider. Attach additional items and information that could help reviewers better understand your project. Please be conscious of reviewers' time, as they may not have time to read lengthy studies and reports. Please do not attach copies of TMDL documents or watershed restoration plans.
