Powder River FSA

**2008 Map Set for Production Records**

SEP 16 2008

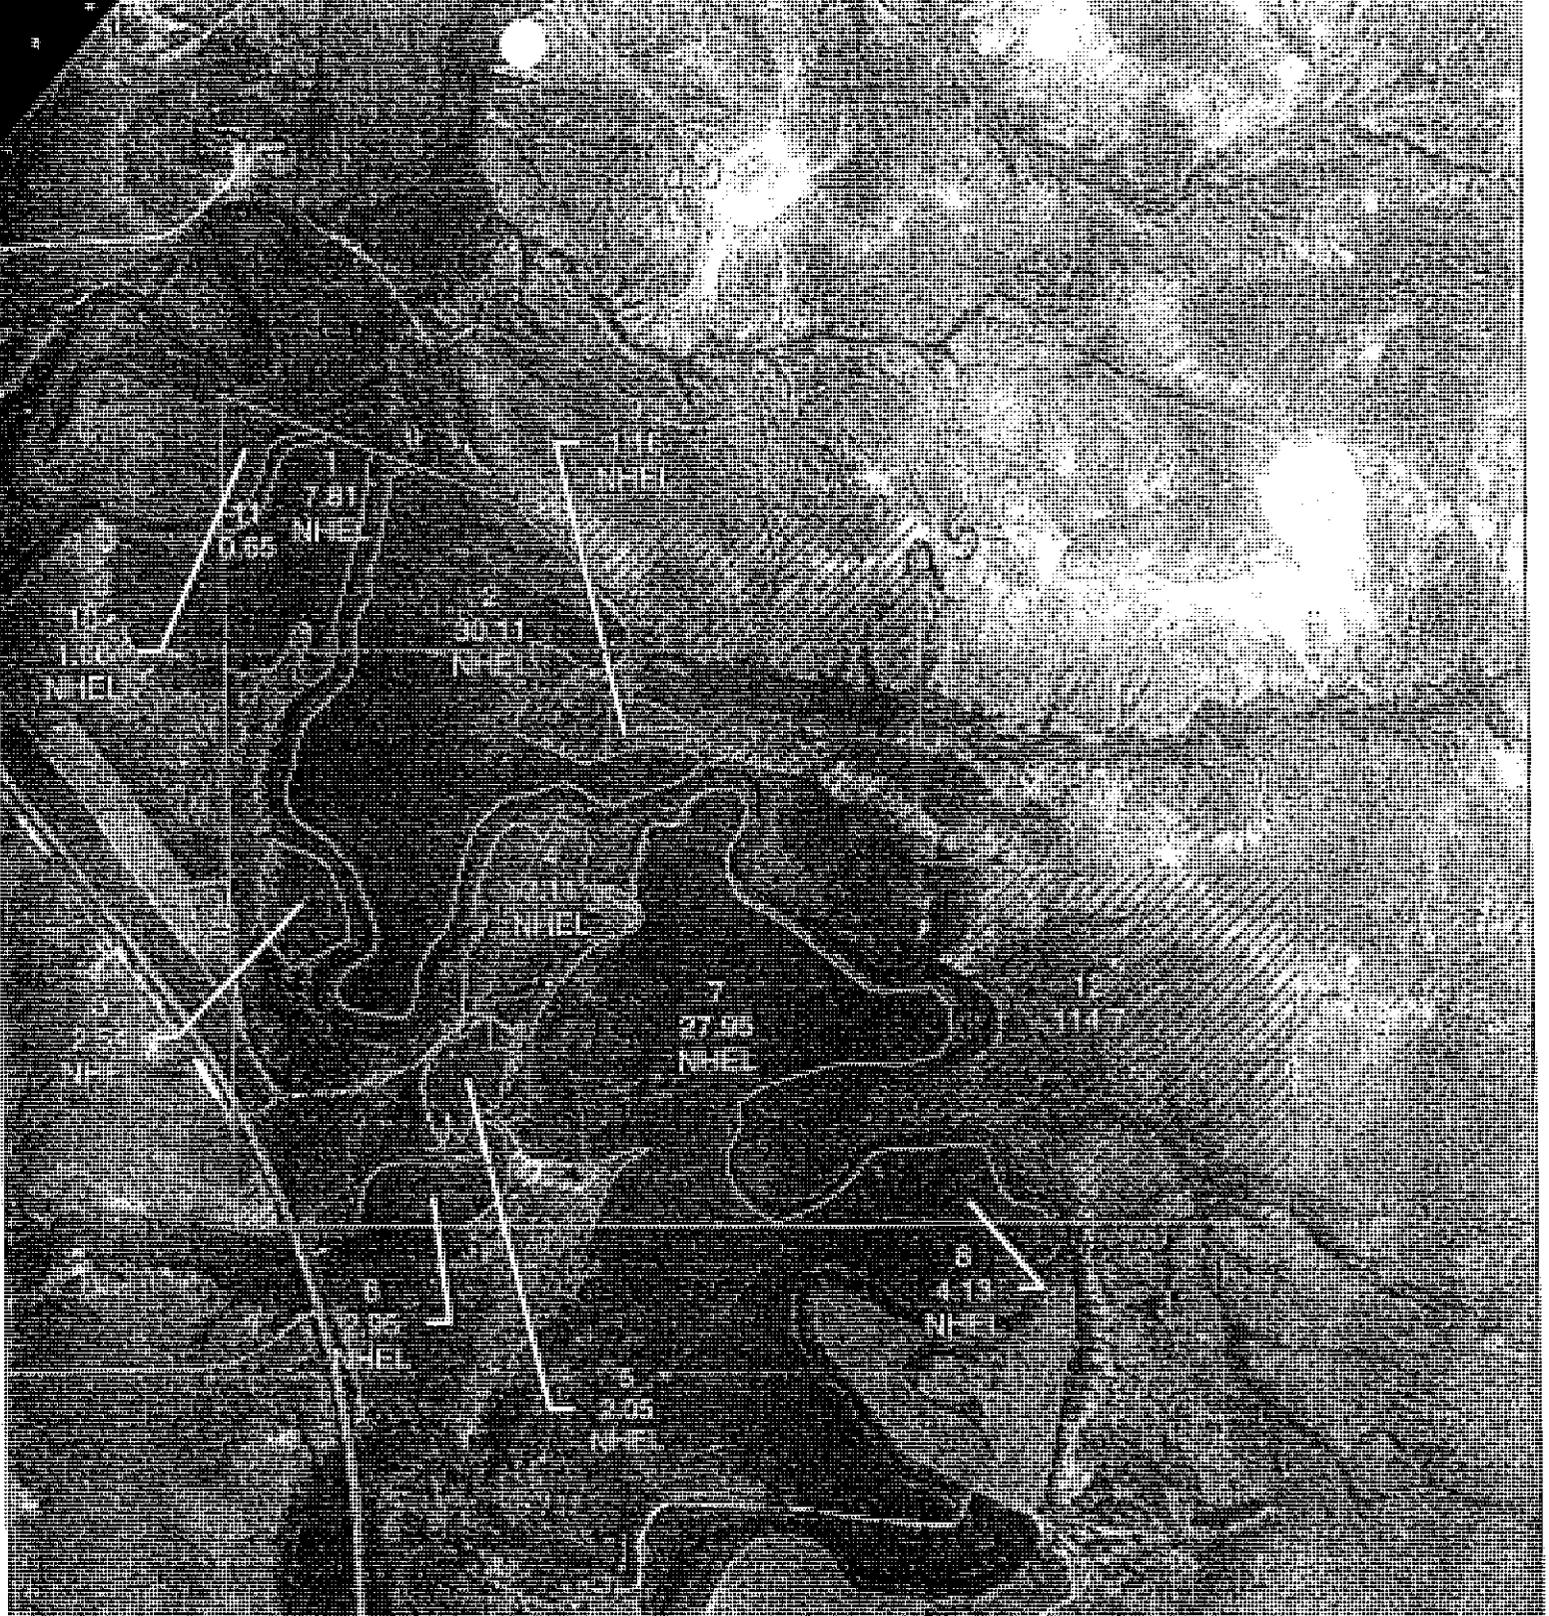

The attached map set is to be used to keep an accurate record of all hay production on a field by field basis for the 2008 crop year. This includes small grain crops harvested as hay, grass hay crops, and crops containing alfalfa. It should include any crops for which you harvest for hay. Broadus, MT

Please complete the map set during the time in which you are harvesting your hay crops. As soon as harvesting is completed (including any second cutting of crops) please return the completed map set(s) to the Powder River FSA Office. At that time, we will make a copy for your records and/or for your insurance company at your request. Procedure has been established for conducting random spot checks on the production you are reporting, so please be accurate and complete. You also have the option to request a measurement service to have your production measured by this office. There is a fee associated with the measurement service.

**Producer Certification:** I certify that the information I have furnished as reflected on these map sets is complete and accurate for the commodity(ies), unit and year shown on my acreage report. I understand that these map sets may be reviewed or audited and that information inaccurately reported or failure to retain records to support the information on these map sets (for a minimum of 3 years), may result in a recomputation of the approved APH yield. I also understand that failure to report completely and accurately may result in a loss of program benefits and in liquidated damages and/or criminal or civil false penalties (7 CFR 1437.15; 18 U.S.C. 1006 and 1014; 7 U.S.C. 1506; 31 U. S. C. 3729 and 3730).

Average Bale Wt. 1100#s

**Powder River County Committee has made the determination that in order for these production records to be verifiable, this production report must be completed on a field by field basis and that it must be submitted to this office no later than October 1, 2008.**

## 2006 Map Set for Production Records

The attached map set is to be used to keep an accurate record of all hay production on a field by field basis for the 2006 crop year. This includes small grain crops harvested as hay, grass hay crops, and crops containing alfalfa. It should include any crops for which you harvest for hay.

Please complete the map set during the time in which you are harvesting your hay crops. As soon as harvesting is completed (including any second cutting of crops) please return the completed map sets to the Powder River FSA Office. At that time, we will make a copy for your records and/or for your insurance company at your request. Procedure has been established for conducting random spot checks on the production you are reporting, so please be accurate and complete. You also have the option to request a measurement service to have your production measured by this office. There is a fee associated with the measurement service.

Please remember to sign and date the map sets and also include your average bale weights. You must also sign this page when returning the production record map set.

**Producer Certification:** I certify that the information I have furnished as reflected on these map sets is complete and accurate for the commodity(ies), unit and year shown on my acreage report. I understand that these map sets may be reviewed or audited and that information inaccurately reported or failure to retain records to support the information on these map sets for a minimum of 3 years, may result in a reestimation of the approved APM yield. I also understand that failure to report completely and accurately may result in a loss of program benefits and in mandated damages and/or criminal or civil false penalties (7 CFR 1437.15-16 U.S.C. 1006 and 1014, 7 U.S.C. 1566, 31 U.S.C. 3123 and 3150).

### 2008 Map Set for Production Records

The attached map set is to be used to keep an accurate record of all hay production on a field by field basis for the 2008 crop year. This includes small grain crops harvested as hay, grass hay crops and crops containing alfalfa. It should include any crops for which you harvest for hay.

Please complete the map set during the time in which you are harvesting your hay crops. As soon as harvesting is completed (including any second cutting of crops) please return the completed map set(s) to The Powder River FSA Office. At that time we will make a copy for your records and/or for your insurance company at your request. Procedure has been established for conducting random spot checks on the production you are reporting so please be accurate and complete. You also have the option to request a measurement service to have your production measured by this office. There is a fee associated with the measurement service.

**Producer Certification:** I certify that the information I have furnished as reflected on these map sets is complete and accurate for the commodity(ies), unit and year shown on my acreage report. I understand that these map sets may be reviewed or audited and that information inaccurately reported or failure to retain records to support the information on these map sets (for a minimum of 3 years) may result in a re-computation of the approved APH yield. I also understand that failure to report completely and accurately may result in a loss of program benefits and in liquidated damages and/or criminal or civil false penalties (7 CFR 1432.15, 12 U.S.C. 1006 and 1010, 7 U.S.C. 1506-31 U.S.C. 3729 and 3730).

## 2010 Map Set for Production Records

The attached map set is to be used to keep an accurate record of all hay production on a field by field basis for the 2010 crop year. This includes small grain crops harvested as hay, grass hay crops, and crops containing alfalfa. It should include any crops for which you harvest for hay.

Please complete the map set during the time in which you are harvesting your hay crops. As soon as harvesting is completed (including any second cutting of crops) please return the completed map sets to the Powder River FSA office. At that time, we will make a copy for your records and/or for your insurance company at your request. Procedure has been established for conducting random spot checks on the production you are reporting, so please be accurate and complete. You also have the option to request a measurement service to have your production measured by this office. There is a fee associated with the measurement service.

**Producer Certification:** I certify that the information I have furnished as reflected on these map sets is complete and accurate for the commodities, unit and year shown on my acreage report. I understand that these map sets may be reviewed and audited and that information inaccurately reported or failure to retain records to support the information on these map sets for a minimum of 3 years, may result in a re-estimation of the approved APH yield. I also understand that failure to report completely and accurately may result in a loss of program benefits and in liquidated damages and/or criminal or civil false penalties (7 CFR 1437.15-16 U.S.C. 1006 and 1014.) U.S.C. 1506; 31 U.S.C. 3729 and 3730).

USDA FSA maps are for FSA Program administration only. This map does not represent a legal survey or reflect actual ownership; rather, it depicts the information provided directly from the user's data or the 2005 ortho rectified imagery for Montana. The purchaser accepts the data 'as is' and assumes all risks associated with its use. The USDA FSA and its agency assumes no responsibility for actual or consequential damage incurred as a result of any user's reliance on this data outside of FSA Programs.

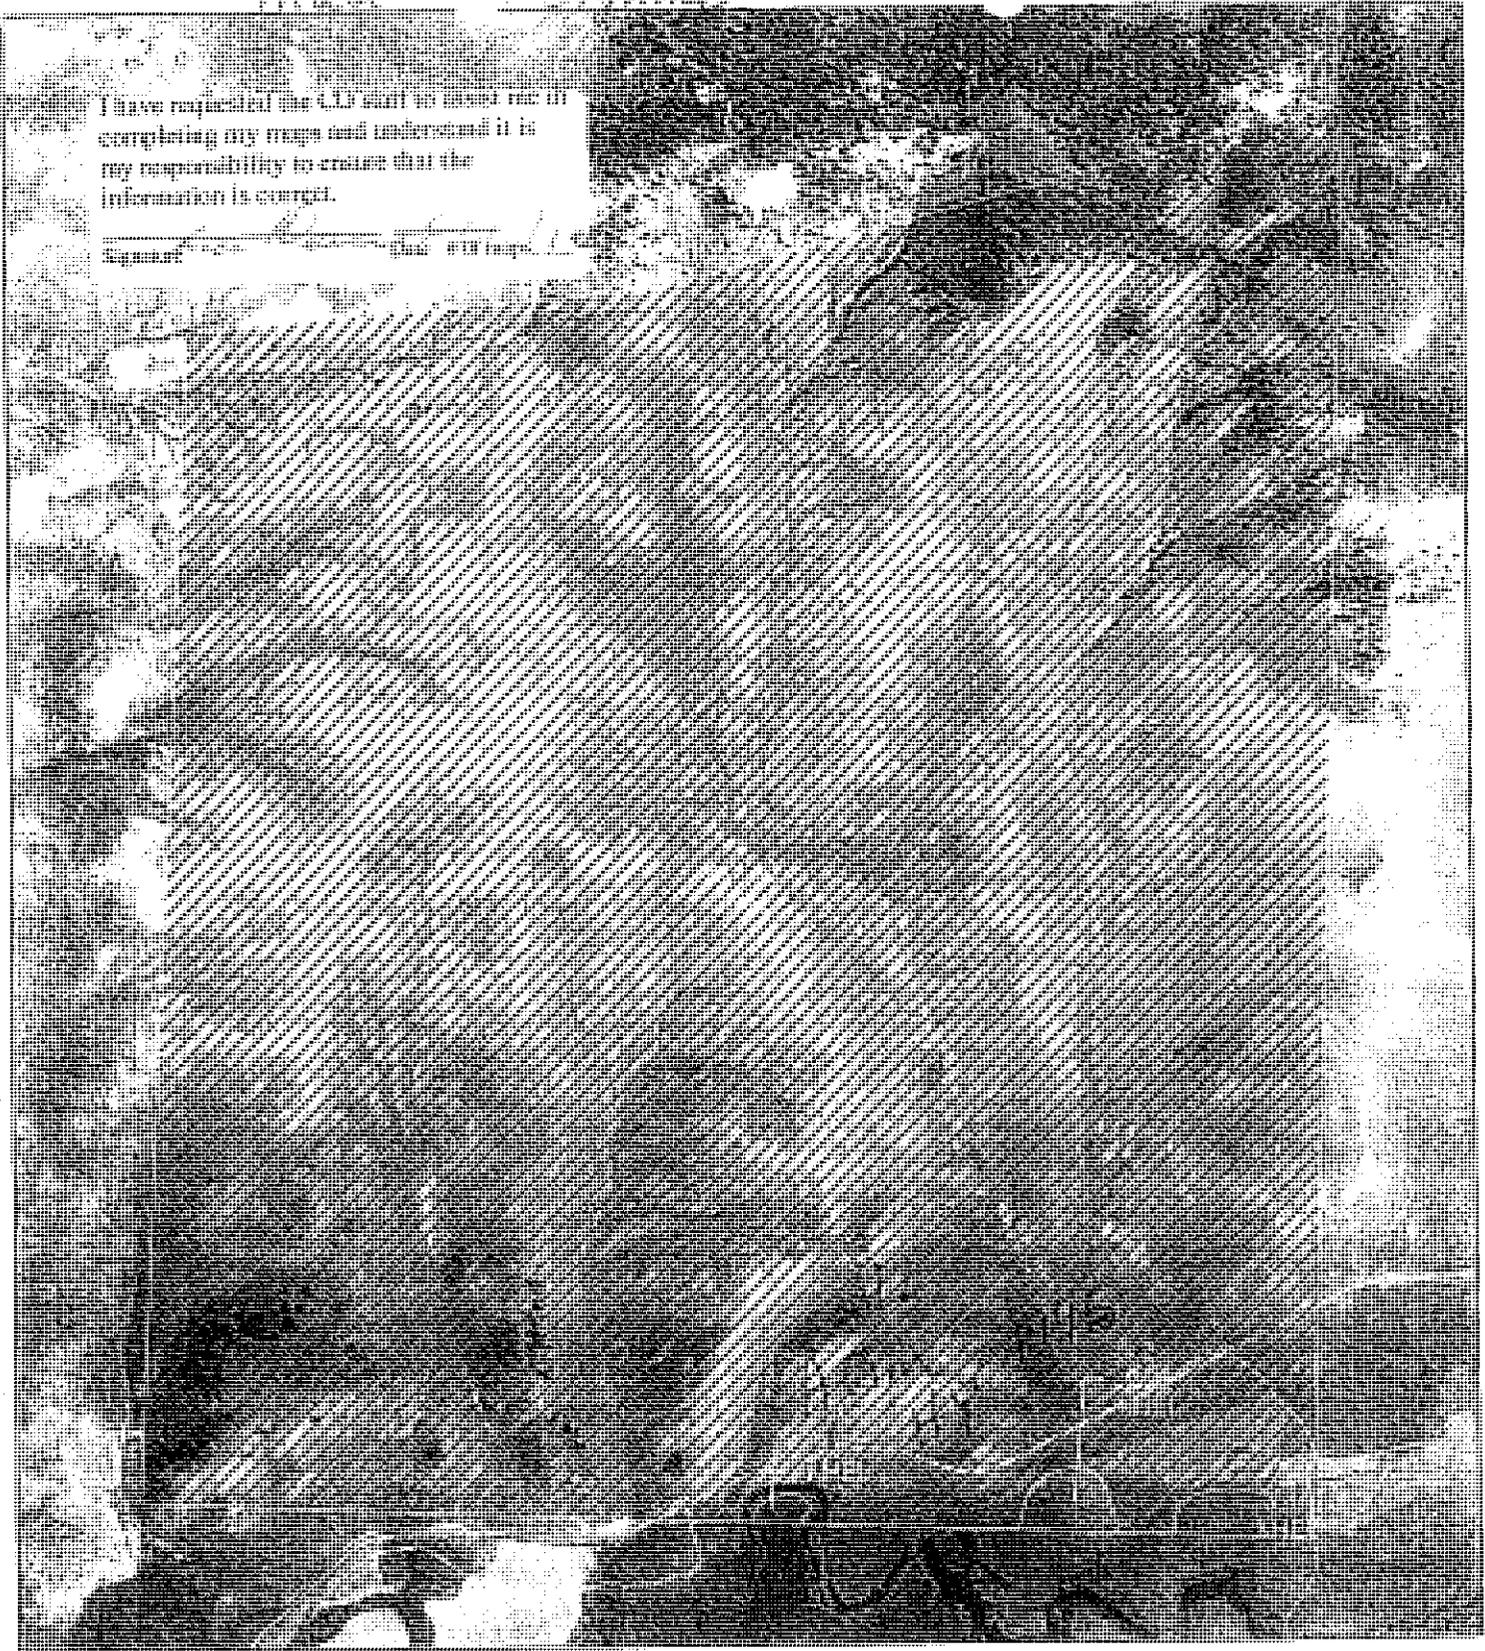

1:8,500

Wetland identifiers do not represent the use, slope or specific determination of the user. Refer to your original determination (CFA-626 and attached maps) for exact wetland boundaries and determination, or contact NRCS.

BROADUS, MT

**Re: Otter Creek Drainage Hay Production**

Dear Mr. Riley:

As per our earlier telephone conversation, Hydrometrics is requesting crop/hay production data on lands situated within the Otter Creek drainage from this year (if available) and the previous five years. This information is being utilized in environmental baseline studies supporting the Otter Creek Coal, LLC mine permit application. Specifically, we are requesting information collected on lands owned/leased by Thane Thomas and Ross Denson. I have attached a signed affidavit from Mr. Thomas allowing the release of this information to Hydrometrics and I understand you have a similar release from Mr. Denson in your possession.

If you have any questions regarding this request, please do not hesitate to contact me at 406-656-1172 or by email at [hkaiser@hydrometrics.com](mailto:hkaiser@hydrometrics.com). Also, please let me know when the information is ready and someone from Hydrometrics can stop by your office to pick it up and pay any fees associated with preparing copies, etc. Thank you for your assistance with our request.

Sincerely,

Heidi Kaiser, P.G.  
Project Manager

I Thane Thomas authorize Hydrometrics, Inc. to access United States Department of Agriculture (USDA) Montana Farm Service Agency (FSA) records related to annual hay crop production. I understand that the records will be included in the Otter Creek Coal mine permit application and that the records will become public information.

Thane Thomas Signature
